

LODGE ASKS EARLY PEACE TREATY VOTE

Hitchcock Has Counter Proposal to Limit Debate.

QUESTION ARISES MONDAY

Republican Leader Seeks to Fix November 12 for Rollcall on Ratifying German Pact.

WASHINGTON, Oct. 31.—Formal negotiations for an early final vote on ratification of the German peace treaty were launched today in the senate.

Proposal that a final rollcall be taken Wednesday, November 12, was made by Chairman Lodge of the foreign relations committee, while Senator Hitchcock of Nebraska, administration leader, presented a counterproposal to limit to 15 minutes each senator's debate on all questions being proposed next week, but without proposing a definite date for the ratification vote.

Both proposals went over without discussion until Monday, the senate adjourning tonight until Monday without reaching a vote on any of the pending amendments.

Confidence of acceptance by all republicans of his plan to dispose of the treaty on November 12 was expressed tonight by Senator Lodge. Senator Hitchcock and other democrats indicated they would stand on the plan to curtail debate without agreement pending the voting date. Limitation of the debate, the administration forces feel, would secure a final vote early in November.

The proposals for ending the long-drawn-out contest on the treaty came at the close of another day of routine debate on the motion of Senator La Follette, republican, to suspend the strike out of the labor section of the treaty.

Senator Lodge's proposal for a unanimous consent agreement for a vote on November 12 provides that the senate proceed at 3 o'clock on that date to vote on all pending questions and the resolution of ratification without further debate.

Senator Lodge's programme also proposes that from November 3 to November 9, inclusive, each senator be allowed only an hour's discussion on each amendment, reservation or other question and that the time be cut to ten minutes from November 10. The plan of Senator Hitchcock also provided for daily convening of the senate at 11 o'clock.

The formal suggestions of the two leaders followed a futile informal parley between Senator Fall, republican of New Mexico, and Senator Hitchcock for a final vote on November 10.

THE careful driver regularly gives his car "the once over" every few days before he takes it out of the garage.

He gives a turn or two to the grease cups—tests out the batteries are in good condition, etc. By so doing he is assured, barring accidents, that he will have no trouble on the road. But—

HOW few there are that pay the slightest attention to the proper method of attaching Weed Tire Chains

Rain comes on, the road and pavements suddenly become slippery and treacherous—the car slips or skids—the Weed Chains, carried in nearly every tool box, are hauled out and a hundred to one the driver has only a hazy idea how to attach them. He fumbles around, gets hot under the collar and falsely accuses them of being a nuisance.

Women drivers are very numerous nowadays. They are driving out into the country over all sorts of roads—they surely need protection against the dangerous skid. How many of them know how to put on Weed Chains? Have you ever instructed your wife, your sister or your daughter.

The directions for attaching Weed Chains are simple yet most important. Avoid annoyances on the road—learn how easy it is to put them on correctly—practice in the garage and give the women instruction. It will amply repay you in security, satisfaction and comfort.

Printed instructions for attaching Weed Chains are packed in every bag—if you desire a copy write us and we will gladly mail it to you.
