

BAND TO REPRESENT CITY IS ORGANIZED

Unit Fostered by E. V. Hauser Begins Rehearsals.

SANFORD KANGAS LEADER

Support of Business Men for Organization of 60 Pieces Is to Be Sought.

The Oregon Marine band, incorporated in the name of the new musical organization with which Eric V. Hauser and his business associates are actively interested, was held a largely attended rehearsal in the Arcadian Garden, Multnomah hotel, yesterday morning, under the newly-appointed leader, Sanford Kangas.

It is proposed to enlarge the band to 60 members and to have the leading band in the Pacific northwest, not only to play at concerts in this city but other portions of Oregon. The name "Oregon Marine band" is probably taken from the famous Washington, D. C., band, once directed by Sousa, called the U. S. Marine band, and also because of the fact that many men in the new band are engaged in the shipbuilding trade.

Leader Native of Finland. The band leader, Sanford Kangas, is a native of Finland and for 12 years he was a band leader at Aberdeen, Wash., where he came under the influence of Mr. Kangas, who is leader of the Grant Smith-Porter company's band, in their shipbuilding yard in Aberdeen, Wash. Mr. Kangas is a natural band leader and possesses marked talent in that direction. He is a cornet player.

Mr. Hauser was absent from this city yesterday on business and left this letter to be read by the musicians.

My purpose in inviting you here today is to get you organized in Portland that you may be able to help me in my plan to have a band of 60 pieces, and produce a series of military band concerts of popular character, which will be given in a large hall here, and which will be attended by more than any similar city in the United States. It is my hope that you will be able to help me in my plan to make a musical center second to none in the country.

Business Men's Support Sought. Rehearsals and mapped out a concert program for the winter, and a membership of the business men of Portland in the matter of supporting the organization of this character, which I feel is a sound and profitable investment to the members of the band as well as to the citizens who interest themselves in the project.

I regret that I cannot meet you at your first rehearsal, which will be held in this room Sunday, at 8 o'clock, at which time I have another rehearsal, at which time I will be able to see you and to discuss the future of this organization, Sanford Kangas.

Short addresses were made on band music by William D. Wheelwright and John R. Keen.

The band rehearsal that followed was quite a successful one.

NEW BILLS AT THE THEATERS

Orpheum. BY LEONE GASS BAER. AN Italian-Jewish comedian is Cleonini, pronounced Chick-o-weeny, and mentioned in this review with a fond prayer that it may reach the eye and understanding of an acutely-musical, womanly ear. He means me at the Orpheum yesterday and merrily hummed along with Cleonini, whom she called Mousor Sikelotto. Three of his solos she knew real well, because she has been instrumental of mine. "Mother Machree" and "Untill," but she wasn't even on spelling and pronouncing acquaintance with his "I'm from Massenet" and so we heard them through as only recollection can be, and he sang in a most melodious and exquisite vocal.

His is a picturesque personality, with colorful and his tenor voice is flexible, sweet and carries the quality of feeling in a marked degree. Cleonini is a most melodious voice, of operatic caliber. Cocolini further enhances the pictures by his picturesque by his own charm of manner.

TWO LAND AT THE DALLES

Aviators on Way From Canada to Mexico Forced Down.

THE DALLES, Or., Nov. 2.—(Special.)—On their way from Canada to Mexico, two aviators in a Curtiss machine late today landed without injury on the local flying field. The aviators, H. D. Clappett and F. D. Hoyt of San Francisco, came from Wenatchee, Wash., on a trip to land with a dry gasoline tank. Tomorrow morning the young men, both former army fliers, will begin another leg of the journey of the "slide slip" along the Pacific coast, when they will endeavor to reach Salem.

The aviators pointed out the need of a permanent aviation ground for this city, declaring that this is a logical local project and a starting field for future air routes. They said in the next few years air maps would be gotten out on which would be represented the locations of up-to-date fields and that those places getting in the harness early would gain the first recognition.
