IN STRIKE DISTRICTS**

Reserves Mobilized to Act in Any Emergency.

TROOPS ENTER 3 STATES

Squadron Sent to New Mexico at Request of Governor; Some Mines Operate.

CHICAGO, Nov. 2.—The war department today placed at the disposal of General Leonard Wood, commander of the central department of the army, the 14th cavalry at Fort Sam Houston for use, if necessary, in Colorado in connection with the strike of coal miners. In the absence of any development indicating any trouble in the Colorado mine fields, the orders looking to early movement of the regiment were issued.

Federal troops already are in West Virginia, Tennessee and Wyoming for use in any emergency and General Wood was ready to dispatch further regular army units to any dangerous spots upon requests from civil authorities.

A detachment of federal cavalry from Fort D. A. Russell reached Rock Springs, Wyo., and began patrolling the coal fields.

Cary Requests Troops.
Governor Cary had requested troops yesterday. The first squadron of the eighth cavalry left El Paso, Tex., today for Gallup, N. M., for duty in connection with the strike under the direction of Governor Larrazolo.

Governor troops to the number of 1000 or more have been mobilized or ordered to mobilize in Colorado and Alabama, and in other coal-producing states. Other states were holding their forces in readiness.

Soldiers Ready to Move.
Additional troops have been ordered to be prepared to move from Fort D. A. Russell in case of emergency.

Small groups of cavalrymen were said to have been dispatched to other coal fields during the day, but official confirmation was not available.

SAN FRANCISCO, Nov. 2.—Two companies of coast artillery troops stationed at the Presidio have received orders to be ready for movement at any time in case of emergency calls from points in the coal strike zone, it was announced here today. Army officers said this was merely a precautionary measure, and that they had no further information regarding the strike situation.

SAN DIEGO, Cal., Nov. 2.—A provisional company composed of 150 officers and 200 men, commanded by Captain Stuart G. Wilder of the 32d infantry, and the men under him are all from that regiment.

Company Fully Equipped.
The company went fully equipped for action and took four machine guns. It was announced that the orders for the company were not complete and that additional instructions might be given to it before the men left the borders of California.

The remaining troops at Camp Kearney were held in camp today ready to leave at short notice.

EL PASO, Texas, Nov. 2.—The first squadron of the 8th cavalry, numbering 249 officers and enlisted men, under Major Ronald E. Brown, left here this afternoon for Gallup, N. M., for duty in connection with the coal strike there. The troops were sent in response to a request by Governor O. A. Larrazolo, of New Mexico.

SANTA FE, N. M., Nov. 2.—At the request of Governor O. A. Larrazolo, four troops of the 8th cavalry, sent from Fort Bliss, Texas, to Gallup, N. M., to protect property and persons there. It became known tonight. The sheriff and coal mine operators informed the governor that the men at all the mines, except one, have gone out but that the most of the men would gradually return to work if given protection.

In Colfax county only 20 per cent of the miners went out and all of the mines are working. At Madrid all are working. The troops were sent to be the only place seriously affected. No disorders have been reported.

COGS COAL MINE SHUTS

ONE OTHER IN OREGON AND ONE IN WASHINGTON OPEN.

Workmen of Northern State in Vicinity Digging Stay at Work; Closes for Repairs.

MANSFIELD, Or., Nov. 2.—(Special.)—Only two producing coal mines are in the Coos Bay district. The mine at the Libby mine, where between 25 and 30 are employed, laid down their tools yesterday, in sympathy with the general coal strike called by the Miners' union.

It was stated that the miners at the Beaver Hill mine, owned by the Southern Pacific Railway company, did not obey the strike order. The mine at Beaver Hill are said to be working.

At to fuel supply, Coos Bay and the country in general are not likely to suffer any great inconvenience from the coal strike, as the country is abundantly supplied with wood from the various sawmills.

However, a considerable proportion of people on Coos Bay burn coal when they obtainable, but can substitute wood in an emergency. The businesses most affected by the scarcity of coal will be the restaurants and bakeries.

CENTRALIA, Wash., Nov. 2.—(Special.)—Indications are that at least two coal mines in this vicinity, the Victoria and Olympic, located in the Hanford valley northeast of Centralia, will continue operations. The employees of both are stockholders in their respective companies. The Victoria mine was closed down for repairs Saturday and the attitude of the men relative to striking is not known. The Olympic mine, however, was operating as usual.

The coal strike, according to M. C. Hendon, manager of the North Pacific Public Service company, will not interrupt gas service in Centralia and Chehalis, at least for the present. Mr. Hendon stated that the gas plant in his company has sufficient coal in its bunkers to manufacture gas for two months.

ENGINEERS ARE STIRRED

(Continued From First Page.)
Spray to restrict the output of coal or producing were taken to mean that the department of justice was preparing to open war on agitators who might invade the mine fields. An attempt to keep out miners willing to return to their jobs.

With all strike benefits cut off by the court, officials believe the miners, or a large number of them, will go back to work provided they are not urged to stay out and are not awayed by agitators.

The department of justice is just as determined to arrest and prosecute to the limit coal dealers who take advantage of critical times to profiteer as it is to deal with representatives of the radical element to try to stir up trouble among the miners.

Developments Soon Likely.
This determination was reflected in correspondence made public today in which Attorney-General Palmer administered sharp rebukes to W. A. Marshall, president of the Wholesale Coal Trade association of New York, who is in the front line of the government with coal prices or supplies. Mr. Palmer declared the situation was not a national emergency, even to the extent of sacrificing profits.

ATTORNEY-GENERAL IRATE

Protest Against Maximum Prices for Coal Amazes Federal Official and Elicits Retort.

WASHINGTON, Nov. 2.—Suggestion from the Wholesale Coal Trade association of New York that the government should not fix a maximum price for coal or interfere with the normal course of supply and demand during the strike brought from Attorney-General Palmer today the vigorous assertion that he would take the same action against persons enhancing prices as he would against the union officers.

"The action of the government was taken solely in the general public interest," Mr. Palmer declared, "and I shall not permit it to be used directly or indirectly for the benefit of the employers' side of the controversy."

W. A. Marshall, president of the association, which is the general public interest, was taken aback by the retort. He asserted that with adequate protection enough coal would be produced to meet the emergency; that fixing a maximum price would curtail the operators' ability to meet abnormal production costs caused by the strike and discourage their efforts to continue work; that priority lists should be written by the consumers and allow others to go without, and that the fuel-control act could be used to prevent such a thing.

Attorney-General Amazed.
"I am in receipt of your letter and am amazed by its contents," the attorney-general replied. "While, of course, proper protection will be given to all miners who are willing to continue at work, it must be perfectly plain to you that even under such conditions the supply of coal must be far from normal. Your proposal amounts in effect to a declaration that coal dealers should be permitted to take advantage of the emergency by charging the public whatever they please."

"The demand for fuel will be constantly increasing and with the supply decreasing, unless there is government regulation, prices charged to the public will be outrageous and profits accruing to dealers unacceptably high. You ought to be quite as perfectly plain to you that the state in this emergency, even to the extent of sacrificing profits."

Coal Company Organized.
Articles of Incorporation of Carbon Concern Are Filed.

SALEM, Or., Nov. 2.—(Special.)—The Carbon Coal Company of Portland, with a capitalization of \$200,000, has filed articles of incorporation here. The incorporators are A. G. Piddell, William H. Danielson and F. C. Gillespie. The Carbon Co. is organized under the laws of the state of New York, and will deal in real estate and homes, according to articles of incorporation filed here. The incorporators are R. H. Todd, J. A. Patterson and H. L. St. Clair. The association will maintain offices at Gresham.

Strike Test Due Today.
(Continued From First Page.)
Brotherhood of Locomotive Engineers has named a deal with the present industrial unrest, Mr. Brewster said any action taken by the government would receive the hearty cooperation of the operators.

He reiterated that the operators would resume negotiations with the miners as soon as the latter agreed to submit disagreements to arbitration and curtail coal production pending the award of the arbitration board. He said the operators did not contemplate meeting the near future to discuss the situation.

HOQUIAM CHANGE WANTED.
County Road Programme to Come Before Commissioners Today.
HOQUIAM, Wash., Nov. 2.—(Special.)—Proposals for changing the route of the highway between Hoquiam and the beach resorts, as well as the county commissioners Monday at Montezuma, when the board will meet to consider a county road programme and issue a call for an election to approve \$1,200,000 in bonds to carry out the programme. The programme itself was adopted at a county meeting in Aberdeen last week.

STRIKE HEADQUARTERS CLOSE

None of Leaders Enjoined From Further Activity at Office.

KANSAS SITUATION IN DOUBT

Union Officials Say Tie-Up Today Will Be Complete.

KANSAS CITY, Mo., Nov. 2.—There was no indication tonight of what percentage, if any, of the Kansas miners would report for work tomorrow night. Reports from the district president, has declared the Kansas tie-up would be complete. Union leaders claim 12,000 men are out.

In Oklahoma, where 3500 miners were reported out, conditions were said to be unchanged tonight, and no effort will be made to open the mines before the latter part of the week.

INCREASED OUTPUT, PROMISE
Seasoned Army Veterans on Guard in West Virginia.

CHARLESTON, S. C., Nov. 2.—With seasoned veterans of the regular army on duty in the mining centers of the southern West Virginia coal fields, the strike situation was quiet today.

NON-UNION MINERS ARE OUT
19,350 Workers Fail to Report in Southwestern Kentucky Fields.

KNOXVILLE, Tenn., Nov. 2.—Reports to officials of district 19, United Mine Workers of America, indicated that 19,350 non-union miners failed to report for work Saturday in the Tennessee-southwestern Kentucky bituminous fields. This figure, officials announced, included more than 1000 non-union miners.

HELENA, Nov. 2.—Developments in the fuel situation in this state were summarized tonight as follows:

Helena has only a two-day's supply on hand. Montana's situation is critical. The federal railroad administration has issued orders effective at once taking over all coal shipments.

18,000 Walk Out in Pennsylvania.
PITTSBURGH, Pa., Nov. 2.—Both union and non-union coal miners in the Pittsburgh district and throughout central and western Pennsylvania walked out on Sunday. Union leaders claimed that in the Pittsburgh district alone 18,000 non-union miners also were out. The walk-out in western Pennsylvania coal fields was.

LEWIS IS NON-COMMITTAL

MINERS' CHIEF REFUSES TO TALK REGARDING COMPERTS.
Reports That Federation Head Had Intervened in Strike Neither Affirmed Nor Denied.

SPRINGFIELD, Ill., Nov. 2.—Responding to questions as to whether Samuel Gompers, president of the American Federation of Labor, had suggested a plan for settlement of the strike of soft coal miners, John L. Lewis, acting president of the United Mine Workers of America, declared tonight that he was "non-committal."

Questions put to Mr. Lewis were prompted by persistent rumors in miners' circles here that President Gompers had intervened in the strike or at least offered good offices.

In the language of the Mexicans, "quien sabe" Lewis said, "being interpreted 'who knows'."
