Young Men Starting Out in Business

We can give you no better advice than to start a bank account and keep in close touch with your banker.

For the young chap who is known at the bank has a distinct advantage over the one who is not. There comes a time in almost every man's life when it will mean a good deal to him to have the recommendation or indorsement of a bank.

The officers of a bank can be of great assistance in developing a business, for they must of necessity keep closely in touch with and thoroughly posted as to markets and various lines of trade.

The officers of Ladd & Tilton Bank will gladly inform you as to the advantages to be gained by connection with this sixty-year-old banking institution.
