

BRIDGE TRAFFIC TO BE RULED STRICTLY

Street Cars and Trucks Must Be Further Apart.

CITY ACTION UNANIMOUS

Ordinance to Protect Life on Four Spans to Be Enforced Immediately.

Stringent regulations of street car and vehicular traffic over the Morrison and Burnside bridges, and mild regulation over the Broadway and O. W. R. & N. bridges, recommended by Police Lieutenant Lewis, were adopted by the city council yesterday, effective immediately.

The regulations over the Morrison and Burnside bridges provide that street cars shall maintain a sufficient interval from each other and that two street cars operating in the same direction shall not be on the same span at the same time. They provide that the driver of any loaded vehicle of 4000 pounds or more shall maintain an interval of at least 30 feet behind any preceding loaded truck traveling in the same direction.

Vehicles Must Keep Places.
On the Burnside and Hawthorne bridges and slowly moving vehicles and motor trucks shall keep to the center roadway and all vehicles shall keep to the right of the center line of the roadway.

The ordinance further provides that on the Broadway, O. W. R. & N. and Morrison bridges, slowly moving vehicles must keep in a column next to the right curb line. No vehicle will be permitted to cross to the left of the center line and it will be unlawful for the driver of any vehicle to jockey or maneuver for any advantage of position.

In addition to these specific provisions, the police department will station men on the bridges to regulate traffic so as to allow the street cars to move rapidly across the Burnside and Morrison bridges, and eliminate congestion as far as possible under the new regulations.

Rules Unanimously Adopted.
The regulations for traffic over bridges were adopted by unanimous vote of the city council, although City Commissioner Bigelow opposed what he termed far too stringent regulation over the Morrison and Burnside bridges. Mr. Bigelow maintained that he was mindful of the responsibility for the safety of the people crossing the bridges and that he favored such regulation as was necessary, but no more.

Mayor Baker, in the morning discussion, which was held in a room which would permit but one truck passing over the bridges during a day, if such regulation was necessary to protect life.

A joint meeting of the city and county commissions was held in the afternoon, at which time reports made by Harrington, Howard and Ash, engineers, and by State Highway Engineer Purcell were read. These reports showed defects which exist in the Morrison and Burnside bridges. According to both reports repairs estimated to cost in the neighborhood of \$200,000 would extend the life of the two bridges.

Engineer to File Opinion.
After Commissioner Bigelow continued to maintain that more regulations effected in the ordinance were too stringent the mayor requested the state highway engineer, the bridge engineer of the county and the city engineer to study the provisions of the ordinance and file an opinion on it.

All members of the county board of commissioners and all members of the city council except Commissioner Bigelow, indorsed the ordinance, agreeing that their opinion it was not too stringent.

Commissioner Holman explained that the repairs on the Burnside bridge had not been made, although some repair had been placed in both bridges during the past year. The major repairs could not be made, he said, because of lack of funds. Commissioner Holman said that the time for thinking of placing \$200,000 in the two bridges was past and that it was not too early to begin planning for new bridges.

Controversy Is Ended.
At the close of the meeting, Mayor Baker asked both bodies to go on record for two new bridges. This suggestion did not carry, as County Commissioners Hoyt and Mueck said that an investigation of the bridges was planned by the state highway commission to begin next Monday and any such action should await the report on the investigation.

The promulgation of traffic regulations over the Morrison and Burnside bridges has ended a controversy which waged for some weeks between the city and county over authority for regulation of traffic over bridges. After numerous conferences between legal representatives of both city and county, it was decided that the authority rested with the city.

ROAD CONTRACT AWARDED

(Continued From First Page.)

enabled to start a little work elsewhere which could not otherwise be undertaken for a year. This work will be the construction of a unit of about nine miles in the Wallawa canyon, on the Joseph-Minam highway, bids for which will be advertised for the December meeting. It is a winter job, as no one uses the canyon in winter, whereas work in the canyon is impossible in summer because there is no means of detouring traffic.

From Mayville to Thirty-Mile creek, a seven-mile section of the John Day highway, the commission has promised to grade and gravel, the county having raised by bonds and public subscription half the cost. This section will connect two improved sections, but at present the road is impassable. The commission will advertise this work for the December meeting and if funds are available will award the contract.

ROAD TO BE WIDENED.

Another project hinging on finances is the proposed bridge across Youngs bay, near Astoria. It will be advertised for the January meeting.

Considering a 15-foot road too narrow, the commission decided to widen the road from Astoria to Jenny creek to 16 feet, exclusive of the ditches. The state and county will share the increased cost of a 50-50 basis.

Although it will involve an expense of several thousand dollars, the commission agreed to the request of Multnomah county to make a thorough investigation of the Hawthorne, Morrison and Burnside bridges. Every rivet in the bridges will have to be tapped and there are innumerable other details to be examined. Curry county indorsed the commission stating the county was raised

\$88,000 by bonding its limit and wants this money put on the road between Port Orford and Gold Beach. The county officials asked for assurances from the commission that this bond money will be matched. The commission reiterated its former promise to have the money matched.

Following adjournment yesterday Commissioners Booth and Burgess, with Highway Engineer Nunn and District Engineer Bennett, left for Hood River to inspect the Hood River-Mosier work. This afternoon they will examine the ground between Seufert and Deschutes river and determine on a location, this being the last section of the Columbia highway which has not been located. Engineer Bennett recommended the lower route, but people at The Dalles want the road to run along the bench, 700 feet above the Columbia.

Grade to Bridge Necessary.
The Dalles people say that sand on the lower route will be a continual expense, while others assert that there is also sand on the bench. If the high route is selected a 5 per cent grade will have to be built to get down to the concrete bridge which the commission is now building across the Deschutes river.

Contracts were awarded as follows: Prineville-Crooked river road—From Prineville to Shorty Davis ranch, 31.52 miles, grading, Guthrie & Co., \$100,588.00.

Mackenzie highway—Prineville to Redmond, 12.2 miles, of which 8.6 miles will be leveled; Oskar Huber, \$13,417.28.

The Dalles-California highway—Bend to Allen ranch, 17.1 miles, grading; Oskar Huber, \$25,070.

The Dalles-California highway—Bend to Jefferson county line, 23.9 miles grading; Oskar Huber, \$84,942.50.

The Dalles-California highway—California line to Merrill, 12 miles grading and macadam; Oskar Huber, \$112,596.90.

The Dalles-California highway—Merrill to Klamath Falls, 14.88 miles, grading and macadam; Oskar Huber, \$115,922.

The Dalles-California highway—Albion section, 8.92 miles grading and surfacing; Oskar Huber, \$124,428.20.

Klamath Falls-Lakeview highway—Klamath Falls to Dairy, 12.91 miles grading and macadam; Oskar Huber, \$148,008.10.

Old Oregon Trail—Pendleton to Cabbage Hill, 7.5 miles grading and gravel; Clifford Applegate & Toole, \$100,701.

John Day highway—New Valley to Regan, 9.23 miles grading; Morrison & Caldwell, \$81,142.

For 4000 feet of guard fence on the Columbia river highway, on the Dolphina beach, the commission has awarded the work to A. J. McGarry for \$1350.

TRAFFIC CASES HALTED

COMMITTEES TO HEAR ONLY CERTAIN NEW APPLICATIONS.

Government Issues Orders for All Order Business to Be Cleared Up Before First of Year.

For the reason that the work of the freight traffic committees of the railroad administration will be brought to a close on the first of the year no new applications will be received nor any new subjects docketed after November 15.

This is the order of Director of Traffic Chambers and Director of Public Service Thelon from their office at Washington. The only exceptions to the rule will be the following:

Applications to publish new commodity rates and to make changes necessary to comply with orders of the interstate commerce commission (these applications to be made only by cases where the interstate commission has ordered the removal of discrimination without regard to the date of filing).

Subjects of which either or both of these divisions may thereafter request consideration.

COLLEGE TO HAVE SHOW

Fruits and Flowers Will Be on Exhibit at O. A. C. Today.

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 5.—(Special.)—The fourth annual horticultural show will open tomorrow night in the men's gymnasium. This will be the first show since 1916 because of war conditions.

Apples will be the chief feature. Exhibits from over 100 states have been received. The students have prepared many exhibits of apples from the college orchard. An apple-judging contest for students will be held and prizes will be given.

The flower display will be under the supervision of Professor A. L. Peck and his students in landscape gardening. There will be a large display of chrysanthemums from the college greenhouses.

A model prune dryer will be on exhibition as well as bottling machinery. Other types of machinery adapted to the handling of fruit will be shown.

CONCRETE DAM GOES OVER

Freshet in Siuslaw River Causes Property Damage.

EUGENE, Or., Nov. 5.—(Special.)—The newly concrete dam across the Siuslaw river at Swiss-horn, near the mouth of Lake creek, which Gustav Warthun has abandoned and which was to have been used in connection with a large saw-mill, was washed out by the high water Monday, according to W. K. Wise, who resides near there, and who was on duty at the dam. The dam was over 100 feet long and Mr. Warthun had expended over \$7000 upon it. He had not yet built the dam on the banks of the river, and when the freshet came the water went around both ends of the dam with the swiftness of a mill-race and soon undermined the whole structure.

Only a few days ago the Siuslaw Boom company, a Detroit, Mich., corporation, instituted suit against Warthun, seeking to restrain him from further construction on the dam and to compel him to remove it on the grounds that it would greatly hinder the company's logging operations.

BOY TO BE TRIED AGAIN

Harold Howell Case to Come Before Present Term of Court.

MARSHFIELD, Or., Nov. 5.—(Special.)—District Attorney John P. Hall and Charles McKnight, who is defending Harold Howell, Bandon youth accused of the murder of Lillian Leutbold, have agreed to bring the second trial before the present term of court.

The first trial resulted in a hung jury, but the jurors and grand jury were held in Bandon for several days, but the jurors and grand jury were held in Bandon for several days, but the jurors and grand jury were held in Bandon for several days.

Sick-Lists are Unprofitable to the Man Who Pays Salaries

Right now, in your office, thousands of dangerous disease germs are probably assailing your health and that of your associates—attempting to find a susceptible spot through which to enter and cause serious contagious illness.

A sick-list is not only unpleasant, but it is unprofitable to the man who pays salaries. The sick-list represents lowered or lost efficiency. Prevent a big sick-list in your establishment. Eliminate the menace of the deadly disease germ. Take precautions now. Avoid regrets later.

Cuspidors, toilet-rooms, floors, window-sills, dark corners—all are favorite birthplaces for disease germs. When unchecked, germ life breeds, thrives, and spreads amazingly.

Lysol Disinfectant, at the moment of application, kills all germ life, or prevents its creation. Quick, sure, safe.

Used by hospitals. Recommended by physicians and boards of health.

A 50c bottle makes five gallons of powerful disinfectant; a 25c bottle makes two gallons.

Remember, there is but one genuine Lysol Disinfectant—made, bottled, signed, and sealed by Lehn & Fink.

Use Lysol Disinfectant regularly.

Lysol Toilet Soap Lysol Shaving Cream

25c a Cake In Tubes

Contains the necessary proportion of the antiseptic ingredients of Lysol Disinfectant to protect the skin from germ infection. It is refreshingly soothing and healing and helpful for improving the skin. Ask your dealer, if he hasn't it, ask him to order it for you.

DANCE PARTNER BLAMED

MABEL LEONARD GETS DIVORCE BECAUSE OF "FACES."

"He Said It Served Me Right," Is Testimony; Other Women Cause Separation of Sheets.

"He said it served me right when a woman he was dancing with at River-side made faces at me over his shoulder," complained Mabel L. Leonard in a divorce hearing before Presiding Judge Gatens yesterday. "I supported him and he took my money and spent it on other women," she continued, referring to Chester M. Leonard.

"Take your divorce," said the judge. "Other women were his weakness," Judge Gatens said in her case against Levi M. Sheets. "He came home one night with a new tie and when I asked him where he bought it, he said a woman had given it to him. 'And that is not all she gave me—she gave me a kiss and a hug,' he went on to tell me." The divorce was granted.

"We had only lived together two days when she left for Tacoma to visit her relatives—and she has never come back," complained Walter Young of Dorothy Young. The testi-mony was considered sufficient.

"My wife wanted to handle all the money. I had to ask her every time I wanted a cent, even for barfare," objected C. N. Barron. He received a divorce from Ethel Barron.

"She called me a 'slacker' and then left me to go to California," testified E. M. Atkinson of Della L. Atkinson. Somewhat similar was the evidence in the case of P. J. Scott against May Scott.

"She said I was a 'slacker' because I worked in the shipyards, and left me," said Scott.

In the divorce action of Mary D. Love against William J. Love, the wife said that Love was not faithful nor kind.

There were too many bumps in the matrimonial road over which Nettie L. Bump and A. L. Bump speeded, testified the wife, who said that incompatibility caused them to separate three years ago.

Other divorces granted were: Clarence J. against C. M. Mast, B. D. against Gladys Davis, Bertha M. against Donald W. Figgitt, E. W. against A. McCarthy, Ira P. against Inez M. Arnold, E. H. against Nancy E. Chapman, Aneta I. against Leland R. Dowlin, R. against Gussie Word, A. D. against Jennie Emery, Coral L. against Austin Thomas, Stella M. V. J. against A. V. J. Soderberg, Ethel against Joseph Biggs, Anna B. against Orville M. King, William against Cecile Towner, Ellen against E. J. Mann, Mabel L. against Thomas M. Black-well, Callie against E. H. De Vaul.

Bend Has Woman Officer.

BEND, Or., Nov. 5.—(Special.)—Bend's first woman health officer was appointed last night when Dr. Ann Rhea Finley was appointed by Mayor

of the organization was nearly exhausted today, and a new order was sent to Seattle headquarters. Five hundred memberships have been taken out in the first three days of the drive in Bend alone.

ROSEBURG, Or., Nov. 5.—(Special.)—A beautiful park is to be offered the city, Mayor Hamilton said today. The grounds consist of several acres bordering on the west bank of the South Umpqua river and are owned by S. D. Evans, a retired prune grower and farmer, who has made a tentative proposal to deed the property to the city on the condition that a bridge will be built on the site of the structure that recently toppled into the river.

The particular spot is one of rare beauty. The river at that point affords boating facilities and in the summer is one of the finest bathing resorts in the county.

That the city will undoubtedly accept the proposition, and in conjunction with the county will build the bridge, is the general belief.

ALBANY, Or., Nov. 5.—(Special.)—Linn county has raised its quota for the Roosevelt memorial fund and Circuit Judge Percy R. Kelly, chairman of the drive in this county, has deposited the county's total of \$485.72. Subscriptions of the various communities follow: Albany, \$184; Brownsville, \$89.07; Shedd, \$7.10; Lebanon, \$62; Mill City, \$24.05; Harrisburg, \$27; Halsey, \$11.68; Tangent, \$9; Lyons, \$5.77.

UNIVERSITY OF OREGON, Eugene, Nov. 5.—(Special.)—All men of the reserve officers' training corps will be completely equipped with uniforms and will appear in olive drab on the day of the drive in this county. Complete outfits have just been received. In addition has come a large amount of supplies including 255

rifles, scabbards, bayonets, and cushtory pack equipment, canteens, first aid packs, etc. Word has also been received that band instruments are on the way. About 40 pieces are coming and a military band will be organized at once, thus giving the university two band organizations.

WILLAMETTE UNIVERSITY, Salem, Or., Nov. 5.—(Special.)—Two additional members have been pledged to the Sigma Tau fraternity during the last week. They are Harold Tobie, sophomore, of Greenacres, Wash., and William Mickelson, freshman, of Camas, Wash. Tobie recently returned to the university after being discharged from the naval service. He is a letter man in football and is filling a tackle position this year.

Fraternity Pledges Two.

WILLAMETTE UNIVERSITY, Salem, Or., Nov. 5.—(Special.)—Two additional members have been pledged to the Sigma Tau fraternity during

of the organization was nearly exhausted today, and a new order was sent to Seattle headquarters. Five hundred memberships have been taken out in the first three days of the drive in Bend alone.
