

GOMPERS DEPARTS FOR SEATTLE

Eight Hours or Less, He Tells International Conference.

PRESENCE IS UNOFFICIAL

48-Hour Week Motion Meets Little Favor—Briton Points Out Present Need for Production.

WASHINGTON, Nov. 5.—Making his first address before the international labor conference, in which he sits as an unofficial representative of American labor, Samuel Gompers, president of the American Federation of Labor, declared today for the straight eight-hour day as a maximum as compared with the 48-hour week and incidentally served notice that in the United States even the eight-hour day would be shortened if labor could accomplish its purpose.

Mr. Gompers spoke in reply to a majority report on the part of employer delegates favoring the principle of reducing hours, but stating that it could not now be put in force generally, owing to the need for increased production as a result of the war.

The report submitted by D. S. Maribanks of Great Britain pointed out the need for special effort to make good the shortage of food supplies, the reconstruction of devastated areas and the replacement of machinery, and declared the progressive increase in the cost of living would lead to discontent unless the necessary concession was considered in conjunction with the aims of the labor representatives.

Mr. Gompers characterized the American workman the most productive worker in the world, and said industrial history proved that the eight-hour day was more productive than a 10 or 12-hour day.

A motion picture offered by George D. Barnes, member of the British war ministry and government delegate, and numerous amendments proposed today, had been the subject of discussion throughout the session, and Mr. Gompers proposed that the whole matter be referred to a committee of five, with a majority of three, to report in 10 days.

State Is Cleared.

Mr. Barnes' motion provided that the draft convention on the 48-hour week proposed by the organizing committee be made the basis of discussion, but this was opposed by labor delegates on the ground that it excluded the eight-hour day from consideration. The original motion, with an amendment by Arthur Fontaine of France, striking out the objectionable words, "48-hour week," followed the fate of the other proposals. The conference, with its slate clean, then adjourned until 3 P. M. tomorrow.

In opening the debate today Mr. Maribanks said realization of shorter working hours was subject to the following conditions:

Guarantee that all industries shall work to their fullest normal capacity. Unanimous agreement to maintain and increase output.

Adoption of provisional measures which would ensure the laborer a normal and normal distribution in those industries the upkeep of which is indispensable to the economic life of the nations of the world.

Postponement of the enforcement of the principle for five years in cases where it would hinder reconstruction of the devastated areas of Europe.

Japanese Address Feature.

An address by M. Domay, adviser of the Japanese delegates, was a feature of the meeting of the labor committee. He urged the adoption of the eight-hour day as a basis of negotiation and declared that the wreck of the happiness and health of workers came from long hours at labor. Pointing out that there was no labor union in Japan because of government prohibition, he said the Japanese government was "perfectly controlled" by the capitalists.

murder of an unidentified young American woman, about 30 years old, Charles Grezanno, 16, discovered blood under a door on the upper floor of a two-story structure owned by his father, Louis Grezanno, in Highland Falls, which he worked there to collect the rent recently.

Deputy Sheriff Samuel Carlton took the body of the woman whose throat had been cut, lying on the bed. An empty razor case lay on the floor. A young man about 30 and the same woman rented the tenement about a week ago. The police say he gave his name as Lorenz Vests and that he had worked for a few days for the quartermaster in West Point military academy. A coat, with a pocket, was found. The police have learned that the woman came to Highland Falls via Newburgh.

She was 5 feet 6 inches tall, 135 pounds in weight, with brown hair. Vests is sought as a material witness.

POTATOES FIRM, HIGHER SUPPLIES LIGHT ON LOCAL JOBBING MARKET.

Oregon Shipments to Date 25 Carloads—Stronger Prices at Shipping Points.

Supplies of potatoes on the local market were light and the demand quiet. Prices were firm. The week ending at Washington Burbank are quoted at \$2.50 @ 2.75 and Yakima Netted Gems at \$2.75 @ 2.75 cars of Oregon were shipped Tuesday.

The weekly review of the potato situation, issued yesterday by R. L. Ringer, in charge of the local office of the bureau of market and garden products.

Potato shipments took their first big slump of the season the past week and dropped from 4600 cars to 2500 cars. The decline was mostly from states west of Chicago, while Michigan, New York and Maine continued to ship out at the usual rate. Wisconsin was the heaviest loser, dropping from 1700 cars to 600, while Minnesota, which shipped 1800 two weeks ago, rolled only 500. The approach of cold weather and the end of digging in many localities, as well as car shortages, united to check the movement, which is largest at digging time each year.

The markets have been strong throughout the period, although no large advances in price have been made. The week ending at Washington Burbank are quoted at \$2.50 @ 2.75 cars of Oregon were shipped Tuesday.

Carlet shipments for the season to date and the total for last season follow:

Table with columns: State, To, Last Season, To, Last Season. Lists various states and their potato shipments.

CHICAGO, Nov. 5.—Seven hundred Chicago drivers, employed by the American Railway Express company, threatened to strike tomorrow if grievances they have presented to the company officials are not adjusted.

The men resent the employment of non-union men, one of the company's barons and the presence of detectives there to prevent theft. Wages are not an issue.

School Population Grows.

HOOD RIVER, Or., Nov. 5.—(Special.)—M. H. Hickey, principal of the school here, has just completed his census of school children in the town. He reports a total of 931, a gain of 43 over the census of last year.

DAILY METEOROLOGICAL REPORT.

Are We Soon to Become a Race of Baldheaded Men?

PROF. JOHN H. AUSTIN

Bacteriologist, Hair and Scalp specialist of Chicago, Talks Most Interestingly About the Hair.

He says that baldness is increasing rapidly among men and points out some of the reasons.

Professor Austin says dandruff causes 70 per cent of cases of premature falling out of the hair.

Prior to investigations and discoveries of the past few years dandruff was considered simply a collection of scales of the outer cell tissues of the scalp combined with an oily matter.

From these careful investigations it has been found that dandruff is a parasitic disease of the scalp called "seborrheic eczema." The parasites that produce this disease grow down into the cylinder-shaped depressions at the roots of the hairs, destroying the hair cells.

Professor Austin examines the roots of your hair with a powerful microscope. He finds out just what is the trouble with YOUR HAIR and then tells you what to do for that trouble.

Professor Austin has devoted 40 years to studying the hair and scalp. He says the use of dandruff cream, mange cream, vaseline and hair tonics is like taking medicine without knowing what you are trying to cure.

The particular trouble with which your scalp is afflicted must be known before it can be intelligently treated.

Private office on the balcony, THE OWL DRUG STORE, Broadway and Washington streets, 10 to 12 A. M. and 2 to 4 P. M.—Adv.

FALLING? HERE'S WHERE IT SHOWS
