

PLANE TO DROP KEY TO LIVESTOCK SHOW

Unofficial Opening on Sunday to Be Auspicious.

NEW HOME TO BE READY

Mrs. Helen Ladd Green Will Open Gates; Entries Give Promise of Record Exhibition.

The new quarters of the Pacific International livestock show, now being completed in preparation for the annual exposition which will open Monday, will be thrown open to the public unofficially Sunday afternoon.

Plans for carrying the key to the new quarters from the city to the grounds by hydroplane have been made and the unofficial opening of the buildings will be an auspicious occasion.

Mrs. Green to Open Gates.

President Brown, after the receiving the key from the clouds, will hand it over to Mrs. Green, who will place the key with the lock, turn it and throw open the gates of the new exposition grounds to the throngs of visitors.

At 2 o'clock a concert will be given by Campbell's American band and will last for two hours. The musical programme will include the afternoon's entertainment. Many of the animals will have already been placed in stalls by this time, however, and visitors will be enabled to see many of the fine specimens gathered from all parts of the northwest for the exposition.

Animals Continue to Arrive for the Exposition.

Officials of the exposition yesterday quit taking count of the animals arriving, so rapidly were they coming. Before the opening of the show, however, a complete check will be made. Early indications are so promising that officials of the exposition no longer have any doubt but that this year's exposition will be much larger than any hitherto held there.

Canadian Entries Promised.

Many of the Canadian livestock men, gathered at Victoria for the annual meeting of the Western Canada Livestock association, are planning to return to their homes via Portland, and to spend several days next week here, according to word received yesterday from Mr. Plummer, who went to Victoria to deliver an address before the Canadian breeders. Mr. Plummer telegraphed reservations for James McCroskey and two sons and party of Brandon, Manitoba. Mr. McCroskey is one of the largest and finest herds of Aberdeen Angus cattle in the entire country, and is one of the most extensive livestock raisers in western Canada. One of his sons will act as a judge at the livestock show.

Parking of Cars Arranged.

Building of additions to the show-house has made it impossible to hard-surface the 15-acre plot that originally had been planned for an automobile parking grounds. The hard-surfaced road from the paved boulevard to the Interstate bridge will be in good shape, however, it is announced and arrangements will be made for parking cars along this road. Watchmen will be maintained by the exposition management to take care of the cars while they are left here. The buildings themselves will be completed, it is stated, and everything essential to carrying on the show will be in readiness when the big event opens officially on Monday.

Continuation of Heavy Ticket Sales.

It is taken to insure large attendance throughout the entire week. Tickets have been placed on sale at Sherman, Clay & Co.'s and at all the leading hotels.

WIFE SUES "MOVIE" ACTOR

W. S. Cooper Charged With Drunkenness in Divorce Plaintiff.

When William S. Cooper, said to be a "movie" actor, earning \$60 a week, returned to his home at 244 1/2 Killingsworth avenue, in a drunken condition last May, the divorcee took their two children and fled for refuge to the home of her parents in Colorado, she says in a divorce suit filed in the circuit court yesterday.

Last September, Mrs. Cooper declared she had been too harsh and returned to Portland with the youngsters, resolved to make another effort to live with her husband, she avers. But she found him living at 414 Morrison street with a woman who posed as his wife, she charges. He is 33 years old. Alimony of \$400 and support money of \$100 a month are asked.

CLOTHING PRICES RAPPED

WOOLEN MILL MAN TELLS OF COST OF MATERIAL.

Thomas B. Kay of Salem Says Much Profiteering Exists and Present Figures Unjustified.

That the woolen material put into a man's suit amounts to but one-fifth of the cost when it comes from the tailor was the statement made last night by Thomas B. Kay of the Kay woolen mills in Salem, who appeared before the federal fair price committee. Mr. Kay holds that there is much profiteering in the manufacture of clothing, as well as in shoes, hats and many other necessities.

"The biggest increase in price," he said, "is brought about by the garment manufacturer rather than the one who turns out woolen materials. I don't think present clothing prices are justified, because they are making too much profit. Goods are sold all over the northwest at three times the manufacturer's figure. I priced a suit a few days ago at a tailor's and the offerer of the New York material was from our own mill and I know the three and a quarter or three and a half yards he would use were sold by us just \$2." Mr. Kay said he firmly believes examples should be made of some manufacturers on account of their profiteering.

WOODRUFF IS CONVICTED

Former Railroad Man Is Found Guilty of Theft.

It took a federal jury in Judge Wolverson's court just an hour yesterday to return a verdict of guilty against T. A. Woodruff, former special agent for the Southern Pacific at Sparks, Nev., who was indicted for the theft of \$300 of silks and other wearing apparel from freight trains in interstate commerce. He will be sentenced at 10 o'clock this morning.

Woodruff was arrested at St. Johns a year ago by police detectives, who were sent to his home to investigate charges of delinquency. The detectives uncovered two big chests full of goods which had been stolen from Southern Pacific freight trains at Sparks, and Woodruff's indictment in federal court quickly followed.

This was the first case handled personally by Barnett Goldstein since he took the oath of office as United States attorney for this district.

Here notes his dress—my parents there. Who is not allowed to dress in Lackawanna Underwear.

SNOW, sleet and the driving gale are natural and reasonable incidents of winter. Wise parents don't shut up the youngsters in the house at the least sign of cloud or cold. They cosy them up in Lackawanna Underwear as a basis of comfort. Then they send them out to play and exercise to their heart's content. That way lies health for growing children.

The extreme of youthful frolics leave no mark or trace on Lackawanna garments. The fine-knitted woolly fabric is tear-proof. Buttons, buttonholes and seams are securely stayed against the most extraordinary capers and contortions of childhood.

Correct sizings and crotch comfort make Lackawanna a thing of endless ease in action.

Of Course They Are

IT IS declared by some manufacturers that their Stoves and Ranges are "cheaper" than "Charter Oaks."

Some of them are so "cheap" that you also escape the cost of new fire-box linings—the rest of the stove being cracked, warped and made useless before the fire-box needs repairs.

All really good articles, all works of taste and merit must bear a price in proportion to the skill, time, material and expense attending their invention and manufacture.

In the construction of an article which is put to such hard use as cooking or heating apparatus, it is particularly necessary to use only the best and plenty of it.

This WE do.

Our motto is not how CHEAP but how GOOD we can make Charter Oaks.
