SALEM Or Nov. 18 -- (Special.)-

SALEM, Or., Nov. 18.—(Special.)—
Through a compromise effected upon recommendation of Attorney-General Brown, the long-pending case of the state of Oregon against the Pacific Livestock company reached a termination here today.

Under the terms of the contract entered into between the members of the state land board and representatives of the livestock company, the latter will pay to the state \$125,000 for approximately 18,000 acres of land situated in Harney county. This land, it was charged by the state, was obtained by the company through fraudit was charged by the state, was obtained by the company through fraudulent operations. The sum of \$25,000 was paid to the state at the conference held here today, \$50,000 will be paid within the next year and the remaining \$50,000 is payable in two years. In consideration of this amount of money, the state is to issue confirmatory deeds to the land brought into the litigation.

Sale Conditions Fixed.

Sale Conditions Fixed.

The Pacific Livestock company agrees that the land involved in the compromise shall be sold and disposed of at prices not exceeding those fixed by the state, and the said livestock company, in sub-divisions, agreed upon by the parties to the contract, and whenever the land described in the agreement, or any part thereof, is available for sale or settlement, the livestock company shall give notice to the state land board of such fact, stating the number of acres and description of land open for sale, the price thereof and the terms and conditions under which such land is offered.

Health also have a sold as a supplementation of the sale, the price thereof and the terms and conditions under which such land is offered.

Honorably discharged soldiers, sail-Honorably discharged soluters, sali-ors and marines are to be given pref-erence in obtaining these tracts and shall be given 90 days after such no-tice has been received by the land board to complete purchase. The lands shall not be sold to any other person until the expiration of the said time.

In case the state of Oregon and In case the state of Oregon and livestock company cannot agree upon the matters to be determined by them, the state shall name one arbitrator, the livestock company one arbitrator and the two arbitrators thus selected shall name a third arbitrator, and the decision of the arbitrators thus secreted shall be binding upon the parties to the contract, and in event the third arbitrator cannot be agreed apon then the circuit court of the state of Oregon for Harney county shall name the third arbitrator.

Case is inherited.

The character of the lands involved include school lands, school indemnity lands and swamp lands.

The case was first instituted against the livestock company in April, 1914, by A. M. Crawford, the attorney-general, at the written request of ex-Governor Oswald West. When Attorney-General Brown entered office he inherited the case, and after investigation of the records filed a new complaint against the defendants. The last legislature appropriated \$5000 to be used by Mr. Brown in completing his investigation and proceeding with the prosecution.

In recommending compromise of the case today Mr. Brown said:

"This compromise, although now submitted by the Pacific Livestock company, is the result of negotiations pending for some time between this offices and the company, and contains terms nuch more favorable to the state than those first proposed by the corporation. It is my opinion that it would be better for the state to compromise this case than to proceed and try out the Issues in court."

The attorney-general will now proceed and ask for a formal dismissal of the case against the livestock company which is pending in the Harney county courts.

11,000 ACRES IN CROOK COUN-TY TO GROW POTATOES.

Contracts for Clearing 2000 Acres Will Be Let When Irrigation Is Available.

PRINEVHALE, Or. Nov. 18.—(Special.)—A corporation headed by George Shima, a Japanese potato grower, this week purchased 13,900 acres of land lying between Prineville and Powell Butte, with the intention of devoting not less than 11,000 acres to the production of potatoes, of which 2000 acres will be planted to polatoes in 1920. The consideration for the land is said to be about \$50,000.

At present these lands are practically all in sage brush and juniper, and contracts for the clearing of those tracts which will be interested in 1920. The committee of the same once. The remaining acreage which lies under the Powell Butte irrigation project, will be cleared and put into cultivation of potatoes as soon as irrigation is available. The lands all lies within eight mites of Prineville, which will be the shipping point for the crops, owing to the natural down haul grade, a feature considered by the purchasers.

the purchasers.

The venture is the largest yet contemplated for potato production in central Oregon, and will receive the support and co-operation of experienced contral Oregon growers who own 25 per cent of the stock in the new corporation. This is the first purchase of land in Crook county by Japanese.

They Have Found the Way to Beautiful Teeth

All Statements Approved by High Dental Authorities

Dental science has found a way to combat film on teeth. It has been tested for years by able authorities in clinical and laboratory tests. Now leading dentists everywhere advise its daily use.

The method is embodied in a dentifrice called Pepsodent. This week we offer a 10-Day Tube to every home in this city, and we urge every home to get it. Let it prove itself.

Film is What Discolors

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays.

The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So it accumulates and may do a ceaseless

Most tooth troubles are now traced to that film. And now it is known why brushed teeth still discolor and decay. The reason lies in that clinging film which the old cleaning methods omit,

Cause of Decay

That film is what discolors-not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus the film is the teeth's chief

It Can Be Ended Dental science has for years sought a way to end that film, and the way has now been found.

Pepsodent is based on pepsin, the di-gestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly com-

The way seems simple, but it is not Pepsin must be activated. The usual method is an acid harmful to the teeth, so pepsin long seemed impossible,

What has been found is a harmless activating method. Now pepsin can be applied twice daily and left between the teeth. And millions of teeth are now being cleaned as they never were before,

Watch the Effects

We ask you to watch the effects. Pre-sent the coupen for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears. Compare this method with the old. Read the facts about it. Then decide for yourself what is best.

Look in Ten Days

See how white the teeth are how they glisten. You can see that the film is gone. You will know that teeth can be kept forever whiter and cleaner and safer,

Walking Under Difficulties

"Believe me, I suffered from stomach and bowel trouble right. This weakened me so that I could scarechy walk. I could do no work. This was my condition when I started taking Mayr's Wonderful Remedy on the advice of a friend. Now I am working every day and feel better than I ever did in my life. It is the only medicine that ever touched me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal allments, including appendicitis. One dose will convince or money refunded. At all druggists.—Adv.
