"I simply had to go home from the office. My head is all stopped up and I know I have a fever. It's snother one of my miserable coids," was Dorothy's answer.

"Why in the world do you bother a doctor when you only have a cold." Helen raid. "Do as I do and take Weeks Break-Up-A-Cold Tablets at the very first sniffle and a cold simply can't get a start on you?

"But I am afraid of cold tablets since I took a certain kind," Dorothy replied. "They contained calomel, which is a mercury compound you know. The mercury stayed in my system and I was nearly poisoned.

Helen amiled and took a small hor from her bag. "Now, here's a twenty-five cent box of Weeks' Break-Up-A-Cold Tablets. There is no danger of their poisoning you, for not a bit of calomel is in them. A vegetable laxative is used instead. You see Weeks' increase a person's cold resistance—that is why they are so effective. I take them and I haven't had a cold that laxed over night all this winter."

"I certainly shall cet a box. Where do you get them" Dorothy asked.
