Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an Interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because lider from the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send fen cents to Dr. Kilmer & Co., Singhamton, many contents to the dampet of the companies and for some form of protection from exploitation is apparent, we have the disease. It is on success.
