#### WALKER TO MANAGE CAMPAIGN FOR WOOD

Position With Portland Legion Post to Be Resigned.

DRIVE TO COVER STATE

Organization for General's Drive in Oregon to Start at Once: Sentiment Is Favorable.

Dow V. Walker has been designated as the manager of the General Leon-ard Wood campaign in Oregon and will get into action as quickly as pos-sible. Mr. Walker, who is personally acquainted with General Wood, was acquainted with General Wood, was asked to take the directorship in Ore-gon by J. L. King, director-general of the Wood fight, when Mr. King was in Portland recently. No announce-ment was made of the appointment at the time as Mr. Walker wished to straighten out his affairs before tak-

ing up the campaign work.

"When I was asked to look after General Wood's campaign here," said Mr. Walker, "I suggested that the Leonard Wood club be assigned the task and explained that I was connected with the American Lector and ected with the American Legion and that no politics can be brought into the legion. I was an organizer for the legion and it has been firmly started and is going ahead on its own momentum. I am a member of the executive committee of Portland post and in view of my connection with the Wood campaign I shall resign my

General Wood Landed. "It was my plan, when I resigned from the Multnomah club to go into business for myself and I figure that I can probably arrange my business affairs in such manner that the cam-paign work will not interfere. Any-way, I am a sincere believer in Wood and feel that if I can aid in placing him in Washington for the next four years that the work will be as impor-

tant to the country as was the or-ganization of the legion. "General Wood does not need any praise from me, as his qualifications are well known to the public. He is an active, capable man, 100 per cent American. I am an ardent believer in his cause and think he is the man to be nominated and elected. Otherwise I would not interest myself in his helalf. his behalf.

Organization to Cover State. "The Leonard Wood club has head-quarters in the Corbett building and l quarters in the Corbett building and I will have a temporary office there. It is my plan to organize for Wood in every part of the state and in every town and village of Oregon. There is a great deal of hard work in connection with this organization work, but it will be attended to.

"Since consenting to look after the

"Since consenting to look after the campaign, I have received no instructions or suggestions from the east, so that I am really somewhat at sea at present. However, the first thing to do is to organize and that will be taken up without delay. Mr. King expects to be in Portland in January and go over the situation."

Oregon to Have 10 Votes. There is considerable sentiment for Wood in Oregon and it is the purpose of Mr. Walker to bring this more prominently to the surface and so-lidify it. It is natural to assume that there will be candidates for delegates to the republican national convention

ular vote of the republican party in the presidential preferential primaries held in May. There will be a keen contest for these delegates and it is expected that at least five different aspirants for the presidential nom-ination will be on the republican ballot and each one will maintain an organization in the state. General Wood is the first to announce a man-
