

RESOLUTIONS EXPOSE OBJECT OF RADICALS

Establishment of Relations With Revolutionists Pledged.

I. W. W. SECRETARY TRIED

Document Providing for American Unit of Workers' Red International Read Into Testimony.

OAKLAND, Cal., Dec. 3.—Resolution pledging the I. W. W. to establish fraternal relations with revolutionist groups throughout the world, said to have been adopted by the general executive board of the organization at a meeting held in Chicago last August, were read in evidence in superior court yesterday.

The resolutions, which designated the I. W. W. as the "American unit of the workers' red internationals," were read into the testimony at the criminal syndicalism trial of James McHugh, local I. W. W. secretary.

This testimony had never before been made public, the prosecution asserted. It followed the sudden closing of the case for the defense, without the appearance of many witnesses, including James Brissenden, former special agent in charge of the I. W. W. labor, who had been recalled to Washington by the government, according to W. B. Cleary, McHugh's attorney.

Whereas the soviet republic of Russia in its call for the organization of the third international included the industrial workers of the world as one of the bodies eligible to such international; and whereas the industrial workers of the world is the only organization in the United States whose program is absolutely scientific and uncompromising and is the logical American unit of the third international; and whereas the proletarian revolution is world-wide and national or local in its scope.

Therefore, the time has come for the industrial workers of the world to assume its proper place as the American unit of the workers' red international and to establish closer relations with the groups of the same or similar principles in every country such as the communists of Russia, Hungary, Bavaria, etc. the separatists of Germany, the syndicalists of Italy, France, Great Britain and other countries and the industrial unionists of Canada and Australia.

confessed that he sympathized with the Lenin-Trotsky regime in Russia in messages which are now in the files of the state department. Bullitt had a choice office in the state department for months during the war in connection with that department's information service.

tion, has denied since the Watson resolution was introduced that he is a radical, but the committee will have before it a large number of clippings of Manley's writings for newspapers and magazines which are said to be worth analysis at least. Manley was a teacher of the communist on industrial relations which made a report to congress several years ago that since 1914 he had become famous as "The I. W. W. Bible."

I. W. W. Defense Reads Report.

Some revolutionary passages from this report were read to a jury at Sandpoint, Idaho, in October, 1917, by the lawyers defending two I. W. W. being tried under Idaho's syndicalism law. The purpose was to show that the utterances for which the I. W. W. were being tried were not nearly so radical as was charged in the report of the commission on industrial relations, which was a government document sent out under official frank. Manley, who is a brilliant student, will doubtless welcome the opportunity to appear before the investigating committee.

Another individual who probably will get into the investigation after the inquiry is widened is Frederick C. Howe, former immigration commissioner at Ellis island. Howe, who is director of publicity for the Plumb railroad plan, was shown in a congressional investigation at Ellis island last week to have been in intimate terms with Emma Goldman who addressed him as "My Dear Emma" in a letter.

"Cheap Nationalism" Touched On. This letter to Howe which was intensely neighborly closed with the paragraph: "I hear about you a great deal, even though you are among the high muckamucks of Americanized America. I was rather surprised to find your name there, but one in your position, I suppose, must participate in such things. I am glad, however, that your fine spirit and good taste will not be carried away by cheap nationalism which is raising its sinister head in America today. I hope you and Marie have been well. Please remember me very kindly to her. I will take care of you tomorrow, which I will take as far as St. Louis and back."

SOVIET REPUBLICS FORECAST FOR RUSSIA

Dictatorship of Proletariat Demanded by Masses.

RADICALISM IS GROWING

Factory Workers Organize Groups and All Is Set to Take Over Reigns of Government.

BY CYRIL BROWN. (Copyright by the New York World. Published by Arrangement.) BERLIN, Dec. 3.—(Special Cable.)—"Germany will be a soviet republic in six months to two years," was the confident prophecy made to the World and Oregonian correspondent by Dr. Friedrich August Geyer of Liepzig, a member of the national assembly and the new leader of the independent socialist party, succeeded in the late Hugo Hassa. Herr Geyer said:

Radicalism is not receding in Germany, though it may seem so on the surface because of fewer strikes. At heart the masses are steadily growing more radical. The masses have fought to a state of exhaustion, but the present lull is only a breathing space for complete industrial democracy and the dictatorship of the proletariat.

Masses Against Monarchy. "The soviet republic will become realized much quicker," Geyer said. "Reactionaries make a serious attempt to restore the monarchy. In this case the radical masses will rise, not to defend democracy, but to beat back monarchy. They will not halt there, but will go storming on over the debris of democracy, and will set up a dictatorship of the proletariat in the form of a soviet republic."

Factor Soviets Forming. The so-called "Betriebsraete," or factory soviets, either already exist, or are being formed. These basic soviets are further coordinated into higher soviets for the various industries. Organization work is thus being pushed right up to the peak of proletarian power, so when the soviet strikes for a dictatorship of the proletariat to seize the reins of government the machinery of the soviet republic will be in complete working order and will function smoothly.

SHE DARKENED HER GRAY HAIR Tells How She Did It With a Home-Made Remedy.

Mrs. E. H. Root, a well-known resident of Buchanan county, Ia., who darkened her gray hair, made the following statement: "Any lady or gentleman can darken their hair, and make it soft and glossy with this simple remedy, which they can mix at home. To have a pint of water, add a quart of bay rum, one small box of Barbo Compound and 1/2 ounce of glycerine. These ingredients can be purchased at any drug store for very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It will make a gray-haired person look 10 to 20 years younger. Adv."
