

10,000 TONS OF COKE SEIZED AT SPOKANE

Collusion to Raise Price Is Charged in Libel Action.

GAS COMPANY ACCUSED

Holding by Agreement With Fuel Firm Alleged in Proceedings Begun for Confiscation.

SPOKANE, Wash., Dec. 5.—Ten thousand tons of coke said to belong to the Spokane Falls Gas Light company, and alleged to be held by agreement with the Hawkeye Fuel company of this city, for unlawful profits, was seized here today under libel proceedings instituted in the court of United States District Judge Rodkin by United States District Attorney J. A. Garrecht.

The libel complaint, which is entitled, "The United States versus Ten Thousand Tons of Coke," charges that the coke was illegally held in violation of the act of congress approved August 10, 1917, and is liable to condemnation and subject to confiscation for the reason that the Spokane Falls Gas Light company is holding it for the purpose of unreasonably increasing the price.

Disclosures said to have been made to the federal grand jury now investigating the high cost of living in eastern Washington, brought about the libel suit, according to District Attorney Garrecht today. Garrecht stated that the coke was being sold at from \$9.25 to \$9.75 a ton, an increase of \$1.25 a ton over the summer schedule of prices.

Hearing on the libel will be held before United States District Judge Cushman of Tacoma, sitting in the absence in California of Judge Rudkin, tomorrow morning.

SALT LAKE CITY, Dec. 5.—Officials of the Oregon Short Line railway here were working today on the rearrangement of freight and passenger schedules made necessary by the court order of the regional director of railroads in Chicago to reduce service in an effort to save coal.

Trains on the Denver and Rio Grande railroad running from Salt Lake to Denver are expected to be little affected. The changes on that road, it is said, will affect only the local and branch lines.

HELENA, Mont., Dec. 5.—The state railroad commission today issued a telegram from the railroad administration saying rates would be made for the transport of coal which the commission has secured in Alberta.

At one mine the commission purchased 500 tons of slack. Coal has also been furnished at other mines in the province and several cars are on their way to Montana.

SEATTLE, Wash., Dec. 5.—Coal dealers of Washington were urged by the Washington State Fuel Merchants' association today to advise their customers that every individual in the state is under moral obligation to prevent suffering by using coal.

The existing supply of coal must be "made to go around," the notice of the state body said. Washington's coal shortage is becoming more serious daily and some sections of the state are in greater danger of suffering for fuel, it is said.

TACOMA, Wash., Dec. 5.—The receipt of 400 tons of British Columbia coal here today was expected to be relieving the shortage. Practically all dealers are unable to fill coal orders, but the supply of coal and firewood remains plentiful. Another consignment of 400 tons is due from Canada in a few days.

COLD WAVE'S GRIP LASTS

PROMISED RAIN GOES ASTRAY INTO THE INTERIOR.

Fair Weather With Continued Cold Present Outlook, Now Says Weather Observer.

Portland, held in the grip of freezing weather for six days, will find no relief today, according to the report of the local weather office, the promised rain and warmer weather having failed to materialize yesterday and fair weather with continued cold being the present outlook.

An area of low pressure advancing northward along the coast, with a falling barometer, indicated rain Friday, but this area passed to the interior and left the coast yesterday and fair weather with continued cold being the present outlook.

Yesterday's minimum temperature was 29 degrees, as compared to a daily minimum of 28 on the preceding days of the present cold period. The maximum was 38 degrees, not enough to thaw the crusts of ice formed in the gutters and the streams, except under the direct rays of the sun.

Some slight relief was extended to the section east of the mountains, but the cold spell was still severe, with no immediate indication of a change. Spokane's minimum, according to the weather report, was zero, while Baker registered 16 above and Walla Walla 10 degrees above zero. The coldest place in the country with a minimum of 6 degrees the other side of the dividing line.

UNUSED ENGINES TAXED

\$25,000 Levied on 17 Locomotives Built for Imperial Russia.

PATERSON, N. J., Dec. 5.—Tax of \$25,000 levied on 17 locomotives built for the imperial Russian government but never delivered because of the shortage of ships and Russian revolution, will not be remitted, the board of finance decided today.

Home Theatricals Started.

LA GRANDE, Or., Dec. 5.—(Special.)—Theatricals of the home brand were ushered in for the winter season in La Grande when the Neighborhood club, one of the foremost institutions of the kind in the state, delved into minstrelsy. Prominent society women braved the burned cork dust and gave a very creditable performance.

Change of Judges Asked. "There are so many irregularities in the case that they have presented against me that it seems impossible for me not to get some sort of satisfaction even with the courts as they are here, and I am now asking that it be taken out of the hands of the local judge, who is a mere tool of the governor, and put in the hands of a federal judge, who is the only competent judge for such cases, according to the Mexican constitution, but they are delaying action greatly to cause me such trouble as possible. I think, however, that in a few days the case can be brought to a show-down."

MEXICO CITY, Dec. 5.—W. O. Jenkins, United States consular agent at Puebla, who was released from prison on Thursday night, attempted to secure his unconditional liberty, according to special dispatches received late tonight by the Excelsior. Jenkins had refused to sign a declaration of unconditional liberty, Mr. Jenkins being quoted as declaring that he was furnished by his letter to the president, with his knowledge and that he refused to accept conditional freedom.

His letter to the secretary of foreign relations, is quoted by the Excelsior as stating that the release of Mr. Jenkins had removed the cause for friction between the United States and Mexico.

927 OTHER NATIONALS KILLED

United States Not Only Nation to Suffer at Mexican Hands.

WASHINGTON, Dec. 5.—The president today sent to the senate, in report, a resolution adopted last June, a report from Secretary Lansing that 927 citizens of countries other than the United States had been killed in Mexico since the overthrow of Porfirio Diaz. More than one-third of those killed were Chinese.

The text of Secretary Lansing's letter to the president, transmitted to the senate, follows: "The undersigned, the secretary of state, has the honor to refer to his report, dated the 31st of July last, in which a reply, in part, is made to the resolution adopted by the senate in June, 1919, in respect to claims against Mexico for the destruction of life and property of American citizens in a country and in further reply to the resolution has the honor to state that the number of nationals of other countries than the United States who have been killed in Mexico since President Diaz resigned as general from reports from the representatives of this government in Mexico, is 927, as follows: Chinese, 474; Spanish, 209; Arabic, 11; British, 23; Italian, 16; French, 14; Japanese, 10; and miscellaneous, 58."

OREGON-WASHINGTON TRAINS ORDERED OFF

Reduction in Passenger Service to Conserve Coal.

ALL BRANCHES AFFECTED

William McMurray, General Passenger Agent, Sends Instructions to Company Agents.

Drastic reductions in passenger train service on the O.-W. R. & N. Co. lines were announced yesterday by William McMurray, general passenger agent, as a result of the order received in Portland Thursday night from the regional director of railroads in Chicago. The curtailment is made necessary because of the coal shortage.

The lines burning fuel oil will not be hampered seriously by the new federal order, although some of the lines which burn both coal and fuel oil must discontinue passenger train service in order to carry out instructions from the federal directors.

Order Is Issued. Following is the order sent by Mr. McMurray to all O.-W. R. & N. Co.'s agents, ordering the discontinuance of some passenger trains and curtailment of service on others:

PHILADELPHIA, Dec. 5.—Official announcement was made today that the Broadway Limited, the 29-hour train on the Pennsylvania railway from New York and Chicago, will be discontinued December 19 in order to conserve coal.

NORTH COAST LIMITED HIT

Pride of Northern Pacific Company to Be Discontinued.

Announcement of the discontinuance of the North Coast limited, pride of the Northern Pacific company, because of the coal shortage, was made yesterday by A. J. Davidson, federal manager of the Spokane, Portland & Seattle railroad, after he had received information to that effect from the head offices of the Northern Pacific at St. Paul. As a consequence, the S. P. & S. service, insofar as it pertains to the North Coast limited between Portland and Pasco likewise is curtailed.

The North Coast limited will make its last trip from Portland Sunday night, while the last train of this run will arrive in Portland from Chicago Tuesday evening.

To accommodate the central Oregon passengers who have connected with the Oregon coast limited between Portland and Pasco, S. P. & S. officials announced last night that all central Oregon passengers would be accommodated on the S. P. & S. train No. 8, leaving the North Bank station at 5:45 o'clock in the evening.

S. P. & S. train No. 4, leaving the North Bank station at 7:55 A. M. will carry a dining car and additional passenger cars to accommodate the increased travel which is expected because of the curtailment of the North Coast limited service. Passengers on this train will connect with the Northern Pacific No. 4 at Spokane for eastern points.

OIL BURNERS UNAFFECTED

Southern Pacific Lines South of Portland to Maintain Schedule.

SAN FRANCISCO, Dec. 5.—Train service and equipment on the Southern Pacific company's lines south of Portland and west of Ogden and El Paso will not be curtailed because of the coal shortage, as the lines are oil operated. Passengers for main and branch line points beyond should take No. 18, leaving Portland 9 A. M.—Adv.
