

MANFUA, ITALY, IS OVERRUN BY MOBS

8 Killed, 42 Wounded in Two Days' Rioting.

CRIMINALS TURNED LOOSE

Disorders Started by Strikers Made Worse When Lawless Element Joins in Demonstration.

ROME, Dec. 7.—(By the Associated Press.)—Eight persons are dead and 42 others are known to have been wounded as a result of the rioting Wednesday and Thursday at Mantua, where mobs terrorized the city.

The rioters attacked the small garrison, the telegraph and telephone communication, stopped railway traffic, raided arms shops, burned prisons, freeing all sorts of criminals, and held the police and soldiers at bay until fresh troops and carabinieri arrived with machine guns. The troops finally established order Thursday night.

The Giornale d'Italia says the Mantua chamber of labor authorized a strike without excesses. The disorders were begun by 500 strikers, who speedily were joined by the lawless element under the direction of extremists.

Military Barracks Stormed.

The crowds stormed the military barracks and fired on the garrison. The soldiers discouraged the attack by firing into the air. At the suggestion of some of the extremist leaders the mob moved on the railway station and seized a restaurant where they feasted and drank wine. Those of the rioters unable to enter the restaurant were incensed when the mob inside poured wine upon the floor until it flowed into the street.

The rails were torn up to prevent trains from entering or leaving the station and the building was badly damaged. At the suggestion "Let us burn the jail" the mob moved to the prison, overcame the guards and ordered the astonished prisoners out, telling them a revolution had come and they were free.

Arms Given to Prisoners.

The men released were all being held for common crimes. Those unable to obtain civilian clothes turned their striped uniforms inside out so as to be less conspicuous. They were given arms. The proprietor of one of the arms shops raised took refuge in a room behind the shop and was burned to death in the fire the mob set.

MAN AND WIFE SHOT DEAD

Black Hand Gang Follows Family Home; Daughter Wounded.

PUEBLO, Colo., Dec. 6.—Mr. and Mrs. Dominic Pusateri were shot and killed and their 12-year-old daughter, Angelina, was seriously wounded when their home here tonight. Three other children escaped injury.

The shooting took place as the family was returning from a wedding. Two men, supposed by the police to be members of the black hand gang, followed the family home on a street car, according to the children.

PLANE RIPS INTO CROWD

Woman and Child Killed in Accident on Aviation Field.

CHATTANOOGA, Tenn., Dec. 7.—Two persons, Mrs. M. Meyers and Lena Shell, a seven-year-old child, were killed and a number of persons were injured, three probably fatally, today at Marr flying field by an airplane crashing into a crowd of spectators.

Float Upsets, 1 Drowned

living in Manette, was one of the first to reach the scene of the accident. He was quickly joined by Hogue, Verne Fryette, J. L. Fryette, Ed Austin and Tom Wright. Riding himself of shoes and coat, Burt leaped into the water and succeeded in reaching the shore with three women who were unable to swim. Then he aided a boy who was nearing the shore but who was fast becoming exhausted.

Painter and Fryette also went into the water and succeeded in swimming with women to a place of safety. Austin and Wright, with the aid of long poles, provided a means for no less than a dozen women to reach the shore where they were drawn up to the dock.

The tide was well on its way out and it was so strong that it prevented the float from righting itself in the former position. The gangplank leading to the dock was jammed down. It was near the gangplank that Mrs. Armstrong's body was found.

Victims Removed to Homes.

Mrs. Armstrong had spent the afternoon in Manette, visiting friends and was awaiting the ferry to return to Bremerton when the accident happened. Mrs. Armstrong is survived by a son, Fred, Armstrong of 1203 Thirteenth avenue, East Spokane, and a married daughter, also believed to be a resident of Spokane. Her body was not recovered for more than an hour after the accident. It was removed to an undertaking establishment in Bremerton pending instructions from relatives.

At least six victims of the accident were removed from the water they were cared for in homes near the ferry dock at Manette. Later the bodies of those living in Bremerton were taken home. Nearly all were under the care of physicians the greater part of the night.

Tugs to Drag Sound.

A check of all the persons known to be on the Manette dock and on the ferryboat prior to Monday night was started last night could not be completed and until it is not known whether more than one was drowned.

Today government tugs will drag the bottom of the sound in the vicinity of the accident. On account of the swift flow of tide it was believed improbable, however, that more bodies would be found.

Among the Bremerton physicians who responded to the call were Drs. J. P. Schutt, J. H. Schutt, D. H. Paik, E. L. Smythe and E. H. Holmes. These physicians went to Manette and others assisted later, when they learned of the accident by attending the victims in their homes.

EDUCATE MEXICO, IS PLEA

BORDER MISSIONARY OCCUPIES PRESBYTERIAN PULPIT.

Rev. R. N. McLean Gives Warning on Large and Undetected Influx into United States.

"If the Mayflower had landed at Vera Cruz instead of Plymouth, I'm convinced that Mexico City would have been the center of western culture, and if Fernando Cortez and his hundreds of warriors had come to Boston in their place, I'm sure we would have had some Villars running loose in the United States."

This was the opinion voiced last night by Rev. R. N. McLean of Los Angeles, director of missions along the Mexican border, who supplied the pulpit of the Central Presbyterian church.

"Uncle Sam has been the goat long enough," he exclaimed, "but the hardest thing he had to digest yet is child immigration. Do you realize that the Spanish population on our southwest border is just about double what it was before the war? While our attention was centered on the conflict overseas tens of thousands of Mexicans were coming across our line, so that a million and a half or two million have been added to our population in the last seven or eight years. Investigators have found that seven or eight out of every ten came in without the knowledge of the immigration officials."

Education, the mission worker pointed out, is the principal need in Mexico, and the upper class needs to have some of its old feudal ideas removed.

high wages offered by the merchant marine and shore concerns was causing many officers and men in the navy to become dissatisfied and was resulting in an abnormal number of resignations.

The navy has been demobilized from a wartime strength of more than 500,000 officers and men to 125,000, of whom 5000 are reserves, the report said, and enlisted men are badly needed to man the greatly increased sea-going establishment.

ACTION ON MEXICO SLATED IN CONGRESS

Problem Overshadows All Others Up for Week.

BREAK TO BE URGED

Senator Fall Discusses Situation With Wilson, but Gets No Definite Promise of Attention.

WASHINGTON, Dec. 7.—The Mexican situation overshadows all questions likely to come before congress this week.

The senate foreign relations committee will meet tomorrow to give further consideration to a resolution requesting President Wilson to break off diplomatic relations with Mexico and to withdraw recognition of the Carranza government.

Senator Fall, author of the resolution, talked over the situation with the president Friday, and it had been expected that President Wilson would give some expression of opinion on the proposal in advance of the meeting.

Wilson Makes No Promise.

Senator Fall said tonight, however, that the president had not definitely promised any response, either before tomorrow's committee meeting or later.

No action on the peace treaty before next month has been expected. Senate leaders still hope to get a vote this week on the Cummins bill, designed to meet conditions with respect to the railroad to private operation and control, but with the long fight over the bill's anti-strike provision, congress in some way may be unable to assist in settling the strike, possibly by providing an adjustment tribunal.

Resolution Bill is Pushed.

A resolution calling upon the government to take over and operate the coal mines as an emergency is being discussed. The committee will consider the resolution of Senator Jones, republican, Washington, proposing congressional investigation of the strike.

Senator Sterling, South Dakota, will attempt to have the house pass this week his session bill, penalizing attorneys for overthrowing the government.

The coal strike and other industrial troubles will be considered tomorrow at a special meeting of the senate labor committee. Chairman Kenyon hopes that congress in some way may be able to assist in settling the strike, possibly by providing an adjustment tribunal.

HUNT FOR ROBBERS FAILS

TRIO WHO ESCAPED WITH JEWELRY NOT CAUGHT.

Police Search for Boy Who Held 'Up Three Persons Saturday Night; Descriptions Tally.

Search for the three men who robbed the Grossman jewelry store, 149 Third street, Friday morning and for the young man who committed three hold-up "jobs" Saturday night continued yesterday without results.

The lone robber who was operating Saturday night is believed not to have been one of those who held up the jewelry store, as the trio were older and apparently more experienced.

Reports on the robber operating Saturday night indicate that he is a boy from only 16 to 20 years of age. In each of the three hold ups he wore a blue handkerchief over his face.

On one occasion the revolver which the man carried was reported to have been nickel plated and on another blue steel.

The first hold up Saturday night took place at Fifteenth and Northrup streets at 7 P. M. A sailor who refused to give his name but said he was leaving today for South America, Samoa and Guam, Secretary Daniels declared, particularly along sanitary lines, and in the quelling of banditry and lawlessness and the improvement of financial conditions.

Why the instrument you buy should be a Victrola

Because it is supreme in beauty and fidelity of tone. Because it is the chosen instrument of the most famous artists. Because it is the instrument of great musical achievements; the instrument which revolutionized talking-machine construction; the instrument which is the one recognized standard in the world today.

Back of the Victrola are the genius and skill which developed the talking-machine from a mere toy into the world's greatest musical instrument; the organization which has the longest experience in producing the modern disc type of instrument; which invented the original cabinet-style talking-machine, the Victrola; which originated all the important talking-machine improvements.

The Victrola is the product of the largest and most complete plant in the entire musical instrument industry; factories which for a quarter-century have been devoted exclusively to the manufacture of talking-machine products; factories whose vast facilities and modern equipment enable us to produce every part of every Victrola right under one roof—the Victrola is the only talking-machine made in its entirety by one concern.

These facts have a direct bearing on the instrument you buy for Christmas. The Victrola is greatest because the company which makes it is greatest. Buy the Victrola for Christmas and you will always have the satisfaction of having the best.
