fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, justrous, glossy, sliky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

The people of that district are angry over the outcome of the recent road bond election, as they will have to help pay the principal and interest on bonds to the amount of \$1,700,000, though none of the roads will be laid in that district, the proponents of the bond measure believing the district, already well paved, had been assisted by taxpayers from every other section. Mr. Olds suggested that the county court appoint, at the January term, a deputy road master in that district who would attempt to reconcile the differences between that section and other parts of the that section and other parts of the VENUE AND PLANS CHANGE
