

# The Most Active Jewelry and Optical Business in the Northwest

## STAPLES *the* JEWELER and OPTICIAN

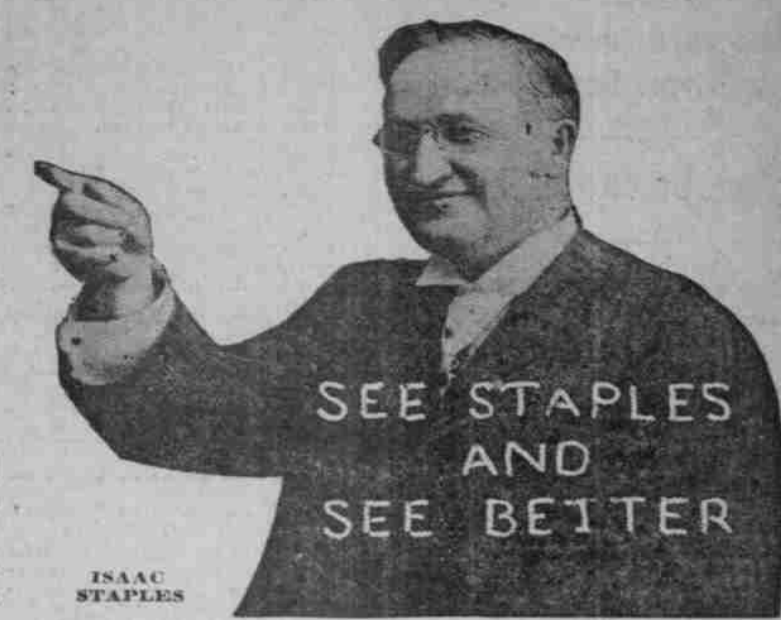

266 Morrison Street, Between Third and Fourth  
OPEN EVENINGS TILL XMAS

Our idea is to give open credit to the many deserving helpers in our employ that have helped to build up this wonderful business. Looking over the names you will find many that have been connected with this store over a decade. They are still giving you the best of service.

As usual, we come to you with a complete holiday line of Jewelry and kindred merchandise. It is without doubt the very best line of all kinds of holiday and staple goods that we have had the pleasure of presenting to you.

Diamonds, Diamond Bar Pins, Diamond Rings, Diamond Earrings—everything that the heart could wish.

Over 40 years in business have never seen a time that diamonds were not a good investment. They are constantly advancing in favor and price.

ISAAC STAPLES  
JEWELER AND OPTOMETRIST—OVER 40 YEARS' EXPERIENCE—FOUNDER OF THIS BUSINESS.

FRONT OF THE STORE, 266 MORRISON STREET, BETWEEN 3D AND 4TH STREETS

Hundreds of beautiful Diamonds—mounted—and ready for your inspection.

The presents that stand out this year for ladies are Diamonds, Watches, Rings and Pearl Necklaces. There are thousands of other articles we have on sale and one can be easily satisfied.

The Optical and Jewelry Factories of this store are in the hands and under the management of honorable, energetic and artistic workmen. Our force of watchmakers could not hold their positions with us for years—repairing European and American watches—if they were not high-class mechanics.

Can you find a better and more sufficient present for a son, lover, father or husband than a reliable watch? He will carry it for a generation and his sons after him will carry it and show it with pride for years and years, referring to it several times each day—a constant and reliable companion.

**This store is fair to its customers;  
Fair to its employees;  
Fair to union labor.**
