U. S. SUPREME COURT UPHOLDS PROHIBITION

Congress' War-Time Action Is Held Constitutional.

FOUR JUSTICES DISSENT

Sweeping Victory Claimed by General Counsel for Anti-Saloon League of America.

WASHINGTON, Jan. 5.—By a margin of one vote the supreme court today upheld the right of congress to define intoxicating liquors, insofar as applied to wartime prohibition.

A five-to-four opinion rendered by Associate Justice Brandeis, the court sustained the constitutionality of provisions in the Volstead prohibition enforcement act prohibiting the manufacture and sale of beverages containing one-half of one per cent or more alcohol.

Validity of the federal prohibition constitutional amendment and of portions of the Volstead act affecting its enforcement was not involved in the proceedings, but the opinion was regarded as a sweeping victory, at least little hope among "wet" adherents.

Wayne H. Wheeler, general counsel for the Anti-Saloon League of America, hailed it as a "sweeping" victory, and in a statement tonight said the only prohibition question left open by the court now is whether the 18th amendment is of a nature that can be considered as a federal amendment and whether it was properly adopted.

Injunction Proceedings Off. In rendering the opinion, the court sustained federal court decrees dismissing injunction proceedings to enjoin federal authorities from preventing Jacob Ruppert, a New York brewer, from manufacturing beer containing in excess of one-half of one per cent, but which he alleged was non-intoxicating.

A brief in support of the New Jersey case was also presented and arguments were made by E. V. Abbott, for the plaintiffs, and by Solicitor-General King and Attorney-General Thomas F. RADICAL MINERS HIT STRIKE SETTLEMENT

Expected Opposition Is Voiced in Convention.

REPORT CAUSES DIVISION

Motion to Affirm Action of International Officers Followed by One to Condemn Leaders.

COLUMBUS, O., Jan. 5.—The expected opposition from the radicals in the United Mine Workers' organization to action of the international officers in accepting President Wilson's proposal for settlement of the miners' strike, developed here today shortly after the report of the settlement had been read to the convention by William Green, international secretary.

A motion made by Phillip Murray of Pittsburgh, president of the Pennsylvania miners to affirm the action of the international officers and to endorse the policy outlined in their report was promptly followed by attempts of the radicals to reject the motion and to condemn the international officers for having accepted the president's proposal.

Several delegates declared the officers should "have gone to jail" rather than surrender to the terms of settlement imposed by the proposal from the president.

Murray Supports Motion. In support of his motion to approve the action of the officers, Murray declared that to have done otherwise "would have precipitated the ruin of the United Mine Workers' organization, because we would have been arrested and imprisoned as the greatest government in the world."
