GOVERNOR APPROVES COMPROMISE PLAN

Conference on Fish and Game Held Satisfactory.

GOOD RESULTS EXPECTED

Executive Appreciates Efforts of Legislators and "Fair and Open-Minded Attitude."

SALEM, Or., Jan. 6.—(Special.)—Governor Olcott today expressed satisfaction with the outcome of the fish and game conference held yesterday, at which a compromise programme was outlined, providing for a fish and game commission of seven members, three to represent the game interests, three to represent commercial interests and a seventh business man to serve as arbiter. The governor expressed the opinion that the compromise plan might not bring the beneficial results that would come under the two-commission programme, but as a compromise he considered it acceptable.

That a misunderstanding resulted relative to the action of the conference was indicated by Governor Olcott today. Following adjournment of the meeting, members of the committee called on the executive and asked if he would sanction the compromise bill for a joint commission of seven members.

"Apparently there has been a misunderstanding as to the results of the meeting of the fisheries and game committees at the capitol yesterday," said the governor.

"I advised that the compromise plan proposed, in my mind, would not lead to the same harmonious and beneficial results that might be expected from two entirely separate commissions. At the same time I expressed pleasure at the outcome of the meeting, showing, as it did, a tendency to compromise and harmonize the different interests involved, and took occasion to express my appreciation of the presence of the legislators and their fair and open-minded attitude."

It is understood that the committees have designated three members to meet Sunday in Salem to draw the compromise bill for presentation before the special session of the legislature.

The Quick Way to Stop a Cough

This home-made syrup does the work in a hurry. Easily prepared, and saves about $2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.—Adv.

MOONEY INDICTMENTS OFF

Several Charges Dismissed by San Francisco Court.

SAN FRANCISCO, Jan. 6.—Three indictments against Thomas J. Mooney, two against Israel Weinberg and two against Mrs. Rena Mooney, wife of Thomas J. Mooney, were dismissed today by Superior Judge Michael Roche. All the indictments were on charges of murder growing out of the bomb explosion during the preparedness day parade on July 22, 1916. Ten persons were killed by the explosion.

Attorney Maxwell McNutt, representing Thomas Mooney, who now is serving a life term in San Quentin prison, following his conviction in connection with the bomb murders, opposed the dismissal of indictments against Mooney. McNutt has endeavored to bring Mooney to trial again in the hope that he would be acquitted.

Two indictments against Thomas Mooney, three against Mrs. Rena Mooney and three against Warren K. Billings, also serving a life term for connection with the bomb murders, still are pending in Judge Franklin Griffin's court.

TEACHER PAY RISE URGED BY CHAMBER

Framing of Act to Remedy Situation Is Asked.

URGENT NEED IS CITED

Resolutions Point to Serious Conditions of Deterioration That Is Facing Oregon Schools.

Directors of the Portland Chamber of Commerce yesterday went on record as strongly recommending to the members of the Oregon legislature that legislation to correct the conditions that are depriving the schools of Oregon of teachers be framed for submission to the voters of the state at the coming primary election.

Resolutions that were adopted were ordered communicated to every local chamber or commercial club in the state to urge that every legitimate means possible be employed to acquaint the public with the pressing need for action.

Information submitted to the chamber by State Superintendent Churchill disclosed that there are now 140 teaching positions in the public schools vacant and hundreds of school children have therefore been deprived of the chance to attend school. In a number of counties the superintendents have been obliged to resort to the temporary expedient of issuing teaching permits to boys and girls in the high schools, housewives and other untrained persons to the number of 261 for substitute work, in order that the shortage might not be further increased.

Lower Standard Feared.

It appears to the directors of the chamber that the standard of education in the state has been appreciably lowered through the shortage and overworking of teachers and through the necessary adoption of expedients to supply substitute teachers. They also considered it apparent that the standard would be further lowered unless remedial measures were promptly adopted.

It was further pointed out that the future supply of properly trained teachers is endangered by a steadily decreasing interest in teaching as a profession, illustrated by the fact that the enrollment at the state normal schools has fallen off 40 per cent. Unless the emoluments of the work be increased sufficiently to retain teachers now in service and make it attractive to aspirants, it is apparent that the public schools of the state may be expected to deteriorate.

That Oregon is one of the seven states that is now failing to provide educational funds from state revenue, was pointed out in the resolutions adopted. The old method of county district taxation system, through which unequal burdens are imposed and unequal educational facilities afforded, has been relegated in many states.

Inadequate Pay Is Cited.

The chamber found that the conditions existing are due to the fact that school teachers of Oregon are inadequately paid for their services; that teachers in the elementary schools who have qualified for such work by taking two-year courses at the normal schools, following a four-year high-school course, are receiving in some instances as low as $800 a year, and that college teachers, qualified by a four-year college or university course are receiving not to exceed $1050 a year in some instances.

Owing to the higher wages paid in other lines of endeavor and by schools in other states, Oregon teachers are being drawn elsewhere or diverted into other fields of endeavor.

It was the conclusion of the businessmen that the situation is one demanding the immediate attention of every public spirited citizen and a constructive legislative programme was therefore urged without delay as the only method by which the conditions could be changed.

SCHOOL FINANCES PROBED

Centralia Examination Made Preliminary to Bond Issue.

CENTRALIA, Wash., Jan. 6.—(Special.)—R. C. Watson, state accountant, was here yesterday examining the finances of the Centralia school district to ascertain the limit of bonds that can legally be voted by the district for the erection of a new Lincoln school. The last estimate, made in August, was $50,000, but since that time the school board has retired additional indebtedness, and it is believed that the district can now vote $65,000 in bonds and still remain within the legal limit of indebtedness. Mr. Watson will render his report later.

Plans for the new school are being drawn by Watson Vernon, an Aberdeen architect.

Be Young for Your Years

You were taught at school that your body undergoes a complete change of structure every seven years.

This tearing down and building up process of body tissue continues without a moment's pause throughout life.

And when a man gets into a physical condition that the tissues keep breaking down and wasting away faster than Nature can replace them, right then he begins to grow "old".

This doesn't necessarily mean, however, that he has reached an advanced age. Thousands upon thousands of people begin to break down, their vital organs giving evidence of fast approaching decay, long before they reach middle age simply because they fail to give Nature, at the proper time, the needed help to rebuild.

If you are beginning to show the slightest sign of a physical "let-down"—if you are losing your old time "pep" vim and vigor—if high tension energy and nervous strain are beginning to tell on you—it's a sure sign that you are growing "old"—too old for your years. You've reached that stage where your vital forces need rebuilding. Don't make the serious mistake of postponing until too late the assistance Nature requires; commence today to take
