mission to Go Home.

SAN FRANCISCO, Jan. 7 .- (Special.) -A demand upon the United States government for "mass deportation" or for permission to return freely to heir native land at the expense of the soviet government is being prepared by groups of Russian workers

Several meetings to discuss the project have been held in the "Russian hill" section of the city, and a general mass meeting of the Russian

vecks is being planned. Half a dozen local organizations of Russians as well as most of the congregation of the Russian Presbyteria church, are said to be enlisted in the movement, which comes as a conse quence of the recent deportation of a number of Russians on the "soviet ark" from New York, the recent raids on radical gathering places, the arrest of large numbers of their country men in various parts of the United States and similar events in the crusade against "radicalism."

The support of between 2006 and 3000 Russian working people in San Francisco, of all religious and polit-
