

HUGHES CONDEMNS ROUSTING SOCIALISTS

Ex - Presidential Candidate Raps Legislative Action.

ACTION NOT AMERICAN

Suspended Solon Declares "Manifesto" of Convention Was Over-emphasized to Aid Plot.

NEW YORK, Jan. 9.—The action of the New York assembly in suspending the five socialist members was condemned today by Charles Evans Hughes and by the Central Federated Union of New York, which represents more than 200,000 trade unionists in the New York district.

Mr. Hughes declared that the action of the assembly was "absolutely opposed to the fundamental principles of our government." He continued: "If there was anything against these men as individuals, if they were deemed to be guilty of criminal offenses, they should have been charged accordingly. But I understand that the action is not directed against these five elected members as individuals, but that the pending is virtually an attempt to indict a political party and to deny it representation in the legislature. That is not, in my judgment, American government."

Socialists Promise Fight. The socialists' fight for reinstatement will be championed by the ablest lawyers they can hire, it was announced. Propaganda will form a large part of the campaign to turn the assembly's action into a warning through public opinion, it was said.

Charles Solomon, one of the suspended assemblymen, today declared the emphasis had been placed on the "manifesto" of the convention, adopted at the national convention at Chicago. Ascertaining that it was being used in the "plot to unseat us," he said: "This 'manifesto' relates to the cause of war and the subjugation of weak peoples by strong nations; the peace of violence; the statement that the league of nations is in reality the capitalist black-robed emperor; the true aim of this alliance of capitalist powers is to safeguard their plunder; to bully and combine the weak nations; to crush proletarian government and to thwart everywhere the movement of the working class."

"The 'manifesto' stated that under the cloak of false patriotism and behind a barrage of ferocious jingo sentiment, deliberately incited by them, the capitalists of America launched an orgy of profiteering which will ruin the nation; that the administration permitted a relatively small number of men to make profits amounting to billions of dollars, while the prices of necessities of life rose to overwhelming heights."

The central federated union, representing more than 200,000 workers and workers affiliated with the American Federation of Labor, unanimously adopted a resolution tonight denouncing the action of the assembly. The resolution declared that the "working people" have nothing to expect from the assembly, that they and they can only secure true "representative and industrial democracy" by uniting politically and "by taking over the government."

NAVAL RESERVE CALLED

4000 ex-Sailors in Oregon and Southern Washington Affected.

More than 4000 former sailors and 152 officers in Oregon and southern Washington signed up in the naval reserve are to be mobilized, according to orders issued by the commandant of the 13th naval district. One of the first steps to be the formation of an active battalion of reservists in this city. There are more than 600 men here who were enlisted during the war, and it is not unlikely that the battalion will have a larger personnel than the national guard of Multnomah county.

Drill officers will be sent to towns large enough to have companies, and boys living on farms will receive instructions in the use of rifles. Contributions through correspondence. Yearly cruises lasting from two weeks to a month will probably be made. A renewed effort is being made here for training purposes is to be put on foot. Lieutenant John A. Beckwith will command the second section of the 13th naval district.

DEMOCRATS SAY LITTLE

a quotation of that part of the letter which suggested that the way out of the hour was to let the people of the country settle the question.

William J. Bryan made a dramatic entrance into national politics at the Jackson-day dinner last night. He split open the democratic party.

Then, referring to the Wilson position, the Herald continued: "Thus the democratic party finds itself split in two on the one issue created by President Wilson. Two conspicuous figures loom up on the stage of democratic politics and two factions are at the parting of the ways. Which will prevail?"

WOMAN IN PRESS SEAT

HOUSE OF COMMONS REPORTERS STARTLED BY INVASION.

Miss Marguerite Cody First to Smash Traditions; Men Ask Her to Describe Mrs. Astor's Dress.

(Copyright by the New York World. Published by Arrangement.) LONDON, Jan. 9.—(Special Cable.)—Miss Marguerite Cody, the first woman to take her seat in the House of Commons, today smashed the American-born presser who did when she took her seat in the commons. When all press representatives in the house of commons press gallery had to wear a black suit of clothes, so rigid were the rules and regulations governing their presence in the house. To have suggested that a woman report on the house of commons was to encourage the appellation of "bolshievisk" or, before that term was invented, something aspiring to the same definition.

There were some members of the press gallery staff who were not at all satisfied with Miss Cody's appearance on this historic occasion, but they had the laugh on them later because they had to consult her to obtain a journal and to play the role of a woman reporter on the play of the bolshievisk.

Miss Cody has a long list of attainments in her credit. She swims, and has won many prizes in the practice of jiu-jitsu, and thoroughly enjoys flying. In fact, she is an all-round sportsman. She was once knocked out of Goddard at Olympia some months previous to his disastrous fight with Carpena. The fight was reported by Miss Cody. She is a Girton college girl. She had a yearling for rough-and-tumble football in the days of her newspaper career in Belfast, where she also learned to box. From the Belfast Evening Telegraph she eventually returned to the Birmingham Gazette, and finally the Daily News in London.

MARION POLITICS ASTIR

FOUR CONTESTS LOOM AS PRIMARY DAY APPROACHES.

District Attorney Candidates Begin to Show Activity; Three Out for Sheriff Needham's Place.

SALEM, Or., Jan. 9.—(Special.)—Although it is several months before the primary election date, four political contests loom in Marion county. For district attorney there are two avowed candidates, John H. Carson and D. D. Day. It is understood that Max Gehlher, incumbent, who was mentioned earlier in the season as a candidate for reelection, has withdrawn from the race. Both Mr. Carson and Mr. Day are young attorneys with offices in this city.

Drill officers will be sent to towns large enough to have companies, and boys living on farms will receive instructions in the use of rifles. Contributions through correspondence. Yearly cruises lasting from two weeks to a month will probably be made. A renewed effort is being made here for training purposes is to be put on foot. Lieutenant John A. COMPROMISE NOT HALTED

(Continued From First Page.)

Into the senate record today by Senator McCormick, republican, of Illinois, after the president's letter accepted the states' demand for a reservation. Senator McCormick requested that the two "be printed in juxtaposition in view of reports that they are agreed on the treaty."

Cabinet Members Silent. Only one other mention during the day was there of the treaty or the Jackson day developments. That was when Senator Walsh of Massachusetts, a reservation democrat, put in a letter from President Lowell of Vermont asking that the democrats show a willingness to compromise on article 10. Hitherto an advocate of unreserved ratification, Dr. Lowell wrote that he was convinced article 10 imposed objectionable obligations.

The cabinet today, but if the members discussed the split between the president and Mr. Bryan on the treaty issue, or Mr. Wilson's stand, they would not admit it. Democratic leaders did not attempt, however, to minimize the effect that the split might have, both at the convention and at the polls in November. If it should be carried that far, they would not admit it.

Mr. Bryan played at the Baltimore gathering when Mr. Wilson first was elected, and while the convention time is yet in the distance, some of them at least look forward to stirring events in San Francisco.

RUSSIAN HEADS TAKE LAST OF 3 ARMIES

60,000 Prisoners in Siberia Already Counted.

KRASNOYARSK IS ENTERED

City of Novocheerassk Also Is Reported Captured by Bolsheviki From Denikine's Troops.

LONDON, Jan. 9.—Krasnoyarsk, eastern Siberia, has been captured by the bolsheviki, according to a Moscow wireless dispatch.

The remnants of the first, second and third enemy armies have surrendered and 60,000 prisoners already have been counted, said the dispatch. The city of Novocheerassk also has been captured by the bolsheviki, it was asserted. The city was taken Wednesday after a battle of the most severe character, with General Denikine's troops.

Novocheerassk is 20 miles northeast of Krasnoyarsk, principal seaport of the Don Cosack region.

Bokhara, capital of the important Khanate of Bokhara in central Asia and less than 200 miles from the Afghanistan frontier, has been entered by bolsheviki forces, according to reports from Moscow.

Further west, soviet troops have occupied Krasnoyarsk, on the eastern shore of the Caspian sea, it was claimed in reports from Moscow.

Another Moscow dispatch says the booty captured by the "reds" on the southern front in Russia in the present offensive includes 400 guns, 1000 machine guns, 11,000 rifles, 13 armored trains, 200 locomotives, 1300 wagons and large stores of food and munitions, together with 35,000 prisoners.

Krasnoyarsk is situated on the Trans-siberian railway, about 200 miles east of Tomsk. Lying on the plain and open to the play of the bitter winds, traffic with the town by caravans is almost impossible in the winter.

WASHINGTON, Jan. 9.—Advices to the state department today from Siberia and European Russia asserted that the foreign representatives had quit Irkutsk, that the Japanese had taken control of the Balkal railway tunnels; that the bolsheviki were practically unopposed at Taiira, and that the Japanese had evacuated the soviet base at Krasnodar. The soviet had ceased and that the Polish troops were making friends in Irkutsk formerly controlled by Denikine's forces.

The advice said that, while no definite news had been received as to the location of Admiral Kolchak's headquarters, he had not yet reached the advice said, have been cut in two by the bolshevik thrust, which has penetrated to the Sea of Azov.

In the northwest, while an armistice between the Estonians and soviet Russia has been signed, the Poles and Letts, through the capture of Lithuania, have cut off the rail lines and obtained direct railroad communication between Poland and Riga. In the Ukraine the Polish troops have taken over territory abandoned by the Denikine forces, occupying Jitomir and Proskury.

Babies Footprinted to Avoid Mixups in Hospital.

New York Institution Adopts Plan to Identify Each With Hysterical Mother.

NEW YORK, Jan. 9.—A system of taking foot-prints of children has been adopted in the New York nursery and child's hospital to prevent infants born there from being given to the wrong mothers. Its adoption was due to the fact that a soldier's wife who recently gave birth to a baby at that hospital at first denied that the child was hers. The young mother, who had been reading stories of accidental substitution of children at hospitals and similar public institutions, declined to nurse the baby.

DISRESSES AUSTRIA TO SEIZE FORTUNES

Confiscated Billions of Crowns to Go for Supplies.

NATION HELD STARVING

Peace Delegation Head Appeals to American People Not to Let 7,000,000 Folk Die.

VIENNA, Jan. 9.—It is expected by the Austrian government that 12,000,000 crowns will be realized from the partial confiscation of private fortunes.

This amount will be used in payment for food and raw materials purchased in foreign countries.

WASHINGTON, Jan. 9.—(By the Associated Press.)—An appeal to the American people to extend aid to 7,000,000 starving and threatened with anarchy and death by starvation during the winter, has been forwarded to Washington by Baron Elichoff, head of the Austrian peace delegation.

"The representatives of the allied and associated powers in Paris are fully aware of the terrible distress which Austria is actually afflicted," says Baron Elichoff's appeal. "It resulted from the plain figures which have been laid before the reparations committee with justifying evidence, that on the end of the present month the Austrian people literally will perish by cold and starvation. This is a fact nobody calls into question."

It has been established by the deliberations of the reparations committee and the supreme council that Austria can only be saved by granting her the necessary credits, and solely those credits and America would do so holds up as yet to a certain extent the morale of the suffering people. At the present moment this situation has become a specially critical phase, the European powers having declared that they cannot grant those credits and American co-operation offers the only chance for saving Austria."

"It is, therefore, the sacred duty of every representative of the Austrian people, and I might say of everybody knowing the utmost distress of this people, to address a most urgent appeal for help to the whole population of the United States of America. We solemnly beseech every man and every woman in the United States, which at all times has been the champion of liberty and of justice, that they can alone save our people and that by refusing their aid they will abandon 7,000,000 of human creatures to certain death from cold and starvation. We beg to inform the United States of our sufferings and to transmit the cry of distress of a starving people to the noble-minded American nation to which Austria confidently has recourse in this supreme moment."

VON BRINCKEN FREED

GERMAN TAKES PAUPER'S OATH AND ESCAPES FINE.

Officer, Imprisoned for Pro-German Activities, to Seek Reconciliation With Divorced Wife.

TACOMA, Wash., Jan. 9.—Lieutenant William von Brinken of the German army was released from the federal penitentiary at McNeil island here this morning, after serving a 90-day term for a pro-German activity. He was released following his hearing before Judge Thomas W. Hammond, United States district judge here, and tonight is a free man so far as penitentiary or local federal officials are concerned.

He today completed his sentence, passed upon him for alleged pro-German activities in San Francisco nearly two years ago and the additional fine of \$10,000 imposed has been paid out by his taking the pauper's oath a few days ago.

Under the orders of the immigration officers here, Von Brinken is free to travel anywhere in the United States provided that he keeps in touch with the immigration department and concerning deportation it was said here that the matter now rested with Washington, D. C.

Following his release tonight he is expected to appear at a typical train out of Tacoma for San Francisco and, while he did not say so, it was intimated that he intended to seek a reconciliation with his wife, who divorced him some months ago.

Von Brinken arrived from the federal penitentiary at McNeil island in Honolulu, parole officer, he showed the effects of his long confinement. He looked thinner than when he arrived here from San Francisco and declared he had lost 40 pounds in weight. He declared himself well treated and secured men he defined as "traded" now confined on the island.

Business suits were a well-presented and well-kept man. But to questions put by Frederick R. Conway, assistant United States attorney, he declared he did not have a penny and no property except the clothing he had on his back.

FRENCH OPERA SUFFERS

Management Asks Government for Increase in Subsidy.

(Copyright by the New York World. Published by Arrangement.) PARIS, Jan. 9.—(Special cable.)—Despite the success of its programmes during the past year, the French National opera house finds itself in a bad financial circumstances. It has had to request an increase in the government subsidy.

This comes just at a time when the scene shifters and other members of the large staff demand an increase in wages, threatening otherwise to go out on strike. The management of the opera house, to cover itself, has asked the government for an increase in the instruction minister, but the personnel, while they realize this would mean for them the chance of studying the management of the house they work in, refuse to do so, and say they have no reason to have dealings with the government.

The increase in wages would mean an extra monthly expenditure of \$20,000 by the management of the opera house, which it asks the government to pay.
