

ADRIATIC QUESTION TREATING TROUBLE

Italian Compromise Offer May Be Withdrawn

JUGO-SLAVS MAKE REPLY

Demand for Prompt Execution of Treaty of London to Be Italian Retaliation

PARIS, Jan. 20.—(By the Associated Press.)—With the disbanding tonight of the supreme council without a settlement of the Adriatic question, Premier Nitti of Italy declared he stood by his ultimatum that if the Jugo-Slavs did not accept Italy's terms he would withdraw his ultimatum and that Italy will demand that France and Great Britain execute purely and simply the treaty of London of April, 1915.

Prior to the breaking up of the council, the Jugo-Slav reply to Italy's demands had been presented. Signor Nitti declared the terms unacceptable. The Jugo-Slav note said it constituted "the supreme effort of the Jugo-Slavs to bring about an agreement with Italy. This fact, taken in connection with Premier Nitti's statement, apparently leaves the situation a tense one.

Conditions Are Named. The Jugo-Slavs accept internationalization under the league of nations for Fiume and Zara, concede to Italy the islands of Dalmatia, and agree to the demilitarization of the Adriatic islands with the condition that the island of Lissa remain Jugo-Slav.

The right of the Italians in Dalmatia to choose Italian nationality without leaving Jugo-Slavs is recognized by the Jugo-Slavs, who also agree that Italian national rights in Dalmatian industries shall be guaranteed by an international convention. They refuse to accept the alteration of the line drawn by President Wilson.

The note says the desire of the Albanians for independence will be respected, but if necessary, the Jugo-Slavs will accept all the proposals.

Italian Premier Leaves. Signor Nitti, the Italian premier, left this evening for Rome and David Lloyd George, the British prime minister, will depart for London tomorrow morning. M. Clemenceau indicated this evening that he would turn over the affairs of the council tomorrow.

The council this afternoon held a further discussion on Great Britain's announcement of her inability to send her quota of troops into the plebeian areas. The council also discussed in the British offering to send naval detachments to Memel and Danzig.

During the session Hugh Wallace, American ambassador, Premier Lloyd George, Premier Nitti and Baron Matsui, the Japanese ambassador, attended the session in a formal farewell address.

No definite arrangements were made by the council before disbanding for turning over the Turkish, Adriatic and other problems to other hands, but it is understood that a preliminary conference of ambassadors would be empowered soon to continue this work.

PRICE AND QUANTITY BY WOOL GROWERS

Elimination of Speculation Urged by Convention.

REPLY SENT TO CONGRESS

Cost of Material Declared to Be in No Way Related to New Rise in Clothing.

SALT LAKE CITY, Utah, Jan. 20.—Declaration of intent and purpose to stand back of the National Wool Warehouse & Storage company, with both moral and financial support, thus eliminating, so far as possible, speculation in wool and the issuance of an official statement to congress, showing that high prices for clothing could not be rightly attributed to the high cost of wool formed the two chief actions of the National Wool Growers' convention here today.

Some of the speakers for the National Wool Warehouse & Storage company, a concern founded in Chicago 10 years ago by members of the association, was taken after an address by Secretary S. W. McClure, on "A Market for Our Wool." His speech was followed by an extended discussion, in which shepherds from California, Idaho, New Mexico, Colorado, Wyoming and Montana participated.

Speculation Is Charged. According to statements by some delegates, the National Wool Warehouse & Storage company has had a hard time maintaining a position of influence and importance, because some of its members, claiming to be the largest stockholders in the company, have failed to sell their wool through the agency. Instead, it has been sold by the wool growers to wool dealers and speculators to handle the major portion of their clips.

Decision to state, for the information of congress, the attitude of the association as to the relation between the price of wool and the price of clothing was taken upon receipt of a telegram from Senator Capper of Kansas that the wool growers had made a public announcement of an advance in the price of suits and asking what stand the wool growers would take.

Secretary McClure reiterated his recent declaration that there was not more than a 27 per cent advance in the price of suits and that even if they were made of the best wool obtainable not more than a 10 per cent advance in the manufacture of a medium-sized suit.

Address on Breeding Heard. No action was taken on Secretary McClure's report on the establishment by the growers themselves of selling agencies in the principal cities for the disposal of their wool.

The convention also listened to an address on "Range Sheep Breeding" by Dr. F. R. Marshall of Washington, D. C., assistant animal husbandman. Mr. Marshall declared that the wool growers should be interested in the improvement of their stock.

Dr. Tanimura, by unanimous vote, following receipt of the cablegram, decided to accept the invitation to the convention will close tomorrow, following election of officers.
