SITUATION MUCH MUDDLED

New Secret Treaty Made With Late Government Requires Sultan to Help King Against Moslems.

BY WILLIAM T. ELLIS. (Copyright, 1920, by the New York Her-ald, Published by Arrangement.) NEW YORK.-Turkey and Great Britain have effected a new secret pact, a defensive alliance, which puts British support behind Turkey's case at the peace conference and pledger Turkey to go to the help of Great Britain if the latter is faced by a serious insurrection of her Moslem

Such is the latest reported develop-ment of the near eastern situation— a story so faniastic that it could be given neither currency nor credence were it mere rumor or surmise. Only the responsible source of information warrants its publication. The details of the alleged agreement are on file in the foreign offices of all the great

Sounds Like Stageland.

Nothing is impossible in Turkey today. Conditions of international in-trigue and counterplay have reached ch a state that even the most sen sational and melodramatic measures are accepted as matters of course. The recent seizure of the papers disclosing a British plot to effect a rising of the Kurds against the Turkish nationalists would be refused ad-mission to the pages of credible fic-Yet there was no gainsaying the documents. The British repudiate the officer concerned, Major Noel, say-ing that he exceeded his authority. Amid primitive conditions the so-phisticated diplomacy of Europe, playing a rather desperate game, feels constrained to make use of any instruments whatsover. When the inner history of the past 15 months of near eastern politics is written, if ever, it will read like a novel by Bal-mac or Dumas or Anthony Hope. The extraordinary measures that have been adopted—none of them more amazing than this proposed alliance of Turk and Briton-are evidence of the desperate and important situation that exists about the shores of the

Why These Strange Bedfellows? As the case now stands, the major issue in the near east, from the Euro-pean standpoint, is the contest between Great Britain and France for predominance in Turkey. France scored a great victory in Syria by forcing the British out. Now France s rather favorable to the Turkish nationalist movement, whereas the

British are opposing it. It was when the anti-nationalist cabinet was in power a few weeks ago, that the reported agreement beernments was effected. Damad Ferid Pasha, the Anglophile grand vizier who has since fallen, was the agent through whom the past was perfected. Whether or not the rise of the new cabinet, unfriendly in spirit to the British, and pro-nationalist, will nullify the bargain remains to be

Baldly stated, Turkey has some thing the British badly need, in addi-tion to territory, and that is influence pathetic timbre, was enthusiastically to be also being the British badly need, in addi-tion to territory, and that is influence pathetic timbre, was enthusiastically to be a second of the British badly need, in addi-tion to territory, and that is influence pathetic timbre, was enthusiastically to be a second of the British badly need, in addi-pathetic timbre, was enthusiastically to be a second of the British badly need. over the Moslem world, because the received. Mayor Baker Instructs City Health Will Always Keep Tanlac in the House, for It Restored His · Health, He Says.

Discovery of four cases of intestinal grippe, diagnosed by a private physician as influenza in its latest form, resulted in placing a quarantine on a home in Sellwood late yesterday by City Health Officer Parrish. It is not known definitely whether the cases are the same as those now troubling the east.

Mayor Baker yesterday instructed Dr. Parrish to make an immediate survey of the city to ascertain whether any cases of influenza existed. He also instructed Dr. Parrish to urge the fullest co-operation of all physicians in reporting all suspicious cases.

"I want you to prepare in every possible way to bandle any possible influenza epidemic," said the mayor to the health officer. "Under no circumstances do I want a recurrence of the epidemic of a year ago if it can be averted, and we will move heaven and earth to prevent another outbreak.

"Allow no one to interfere with

constipation, and have not had a headache or a dizzy spell since I started taking Tanlac. Power, which might mean merely more speed in less capable hands, has become flexibility, responsiveness, comfort and safety in Pierce-Arrows. The ability to run on high gear from three to seventy-five miles an hour, and back, to overtake passing cars or ascend steep hills without shifting, means flexibility. To start from a standstill, and accelerate in onefifth less time, is responsiveness. The quickness with which the car gets out of a tight place or shortens the time required to pass and overtake another car adds safety.

To its owner the Pierce-Arrow has boundless power because it has all the power he will ever be called upon to use.
