

REAL FIGHTS SLATED FOR FEBRUARY

Boy McCormick to Clash With Captain Roper.

CARD TO BE WEDNESDAY

Johnny Boscovitch and George Fiddler Will Put on Four-Round Curtain-Raiser.

BY DICK SHARP.

The more one ponders over the flaccid card scheduled for the Milwaukee arena Wednesday night the better it looks. On paper, the bill speaks for more actual fighting in one evening's entertainment than has been dished out to boxing fans for quite a spell.

Frank Kendall and George Moore have lined up a card of what appears to be five rip-snorting contests for Wednesday night at that Milwaukee light emporium.

From the ten-round main event between Boy McCormick, light-heavyweight champion of England, and Captain Bob Roper of Chicago down to the four-round curtain-raiser between Johnny Boscovitch and George Fiddler, every mill spells action.

The complete card will be: Boy McCormick vs. Bob Roper, catch weights, ten rounds; Harry Pelsinger vs. Earl Baird, 125 pounds, ten rounds; Tommy Hayes vs. Mike Finner, 145 pounds, six rounds; Lackey Morrow vs. Niel Zimmerman, 130 pounds, six rounds, and Johnny Boscovitch vs. George Fiddler, 30 pounds, four rounds.

Roper and McCormick will do their best boxing this afternoon before entering the ring. Both men have been training hard for the contest and are reported to be in the best of condition. Roper has made a record of 11 straight wins, 10 by knockout, and many of the fans are not predicting that McCormick is hitting a home run when he chews when he agreed to meet Roper and give away about 20 pounds weight.

Joe Gorman and Billy Mascott will make their debut in Oakland Wednesday night at Tommy Simpson's show.

Alex Trambitas will meet Johnny McCarty in a ten-round bout at Fresno February 9. The two recently met here at the Higley rink, McCarty taking the decision at the end of ten rounds of hard milling.

Harry Anderson, the Seattle lightweight, who formerly held the championship of Canada, will meet one who fought in Portland a number of times, has about reached the end of his rope. The other night a practically unknown boxer knocked him out in two rounds in the semi-wildup of a card in Calgary.

Boxing itself is all right; it's some of the "birds" that identify themselves with it.

Only a relatively small proportion of the people in New York state are opposed to public boxing, yet, as a matter of fact, after having permitted them, has been obliged to outlaw such exhibitions.

For this the men—few in number but highly influential in what they called the boxing game—who brought discredit on the sport under the Horton law and under the Kelly law are responsible.
