Teeth are born white -and good care keeps them white

Unhealthy conditions in the mouth can discolor the whitest of teeth.

Three things are necessary.

First, to determine what the conditions are. Second, a good tooth brush. Third, the absolutely right dentifrice.

By stimulating the healthy flow of normal saliva, Pebeco Tooth Paste helps to keep the teeth free from tartar and other deposits that stain and discolor the teeth. And it also helps to neutralize the mouth acids which are considered to be the chief cause of tooth destruction.
