

SEATS AGAIN DENIED UNTRUSTED SOCIALISTS

Fourth Attempt Blocked by New York Assembly.

TRIAL TO BE CONTINUED

Bar Association, However, Has Not Given Up Fight for Reinstatement of Accused Men.

ALBANY, N. Y., Jan. 26.—A fourth attempt to reseat the five socialist assemblymen, suspended for disloyalty, failed tonight in the lower house and their trial, adjourned last Thursday, will be resumed tomorrow before the assembly's judicial committee.

The New York City Bar association, which has opposed suspension on the ground that it threatened representative government, has not given up its fight.

This was shown tonight when Assemblyman William C. Ames introduced a memorial from the special committee headed by Charles E. Hughes. This, Speaker T. C. Sweet announced, will be printed as a public document.

The effort to reseat the socialists came when a resolution, introduced last Monday by Mr. Ames, was read. Simon L. Adler, majority leader, raised the point of order that the resolution was, in effect, an amendment to the original suspending resolution, which was no longer before the house.

Assembly Sustains Ruling. Speaker Sweet ruled the point of order was well taken. Mr. Ames appealed, but the assembly, by an overwhelming vote, sustained the speaker.

Mr. Ames then introduced four more resolutions dealing with the socialists, which under the rules will be read tomorrow. One called for information as to whether the charges by Martin W. Littleton, associate committee counsel, that the socialists are linked with any foreign power and are guilty of treason, is merely oratory or is a fact based upon evidence.

The resolution asked also "if it is based upon evidence in his possession why he does not advise the judicial committee of the assembly to cause its investigation and return a report to the assembly favoring their expulsion and turning their names over to the department of justice for prosecution on the charge of treason."

Specific Charges Requested. The Bar association committee memorial declared testimony should not be taken in an effort to "indict a political party" or organization, without first laying proper charges with proper specifications directly connecting members accused with personal misconduct and guilty of participating in illegal acts, held that the power of the assembly to pass on the qualifications of its members is not an arbitrary power but "should be exercised as a prerogative in accordance with the principles and essential principles of representative government."

That the resolution adopted January 7, 1920, be rescinded; that members under suspension be at once restored to the floor to receive the votes of the assembly; and that if it is then desired to present any charges against them of any personal misconduct in office or of any violation of law, such charges shall be properly formulated, and that until such charges properly laid have been established by proof, after due opportunity to be heard, these members shall enjoy all the privileges of their seats in recognition of their own rights and of the rights of their constituents.

SLAYING STILL MYSTERY

JOHN PINNELL SAYS HE WILL DIVULGE PLEA AT TRIAL.

"He Will Not Break Up Any More Homes," Is Remark Heard at Shooting of Tyler.

RAYMOND, Wash., Jan. 26.—(Special.)—An interview with John Pinnell, slayer of George Tyler, ex-soldier of Clovis, Cal., failed to reveal his motive for the deed. Pinnell, at the advice of his attorney, refuses to make a statement on any charge which will be made known at the time of his trial.

The Best Cough Syrup is Home-made.

Here's an easy way to save \$7. and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the relief it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint of water add 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It takes no pressure to get the mucus out, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membrane, soothes the inflamed throat, relieves the chest, restores the appetite, and brings about a permanent cure. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions for making cough syrup. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.—Adv.

EXPORT OF RUSSIAN SURPLUS IS LIMITED

Supreme Council's Note to Union Made Public.

RECIPROCITY IS ASKED

Value of Merchandise Imported into Country to Be Based on Value of That Exported.

FORUM HEARS ARMY PLEA

LIEUTENANT-COLONEL STEVENS IS CHAMBER SPEAKER

Assistance in Plan to Popularize Service by Camps Near Home Cities Is Requested.

PARIS, Jan. 26.—(By the Associated Press.)—The supreme council's note to the representative of the Russian central co-operative union regarding partial lifting of the blockade, made public today, says: "First—The Russian government notify the co-operative union that they are disposed to authorize an exchange of products upon a basis of reciprocity between the Russian people and the allied and neutral countries and they invite this union to export from Russia the surplus of its cereals, its foodstuffs and its raw materials with a view to exchanging them for clothing and other merchandise of which Russia is in need."

"It would be well understood that the value of the merchandise imported from the allied and neutral countries will be based on the value of the merchandise exported from Russia within a reasonable period."

"Second—The Russian delegation at Paris will communicate immediately by wireless with the controlling committee at Moscow and will ask it if the co-operatives are ready to assume responsibility for handling these importations and these exportations and exchanges of this sort as practically possible. Representatives at Moscow will determine immediately these questions."

"Third—The central committee at Moscow will guarantee that the exportation of cereals, flax, etc., shall be authorized and that the necessary transportation facilities shall be furnished."

"Fourth—As soon as certainty is reached, the central committee at Moscow will inform Berkenheim (Alexander Berkenheim, vice-president of the all-Russian union of consumers societies) at Paris."

"Fifth—The co-operative unions in foreign countries will then take measures to furnish Russian cereals and flax on condition that the co-operatives at Moscow will advance 25 per cent of the value of the exports, either by direct contract or by British, French or Italian financiers."

"Sixth—The balance of necessary credits will be furnished in London or Paris by Russian resources on British or Italian co-operatives, private banks or traders."

Immediate Loading Asked. "Seventh—Goods purchased by the co-operatives will be loaded immediately in Black sea or Baltic ports, risks of loss or confiscation being assumed by the Russian co-operatives."

"Eighth—The central committee at Moscow will endeavor to supply at least four complete trains for transportation of goods to and from the Black sea ports. Should Moscow not succeed, the co-operatives in foreign countries will employ part of the credits for the purchase of freight cars and locomotives in the allied countries. In any case they will send special trains with delegates and materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Ninth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Tenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Eleventh—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twelfth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Thirteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Fourteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Fifteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Sixteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Seventeenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Eighteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Nineteenth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twentieth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-first—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-second—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-third—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-fourth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-fifth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

Twenty-sixth—As soon as the exportation of cereals, flax and other raw materials from Russia has commenced effectively the contracts referred to will be concluded in the near future."

RICH SILVER STRIKE CAUSES MARR RISK

Northern British Columbia Is Goal of Treasure Seekers.

SEVERE WINTER BRAVED

Tent Colonies Expected to Rise in Spring—Loads of Supplies Are Being Shipped North.

SEATTLE, Wash., Jan. 26.—(Special.)—Excitement in northern British Columbia over stories of fabulously rich mineral deposits in the mineral belt near the Alaska boundary line that causes old-time prospectors and mining men to risk their future health to say nothing of their lives by "soiling" over tremendously deep snows to stake claims, is told in a telegraphic dispatch received here tonight from Anxox, B. C.

Tree tops are being shaved and hewed and used as stakes, where the snow is too deep to permit the usual "discovery" stake to be sunk in the frozen ground. Shipment after shipment of snowshoes, dog sleds and pack saddles have arrived at Alice Arm, on Observatory inlet and at Stewart and Hyde, on the Portland Canal. Buildings are being constructed as fast as the weather conditions permit, and it is common talk that the spring will see tent colonies around the new silver camps.

Rich Strikes Many. So many rich strikes of silver have been made in recent months on claims bought and staked by prospectors only last summer that considerable correspondence has been carried on between the treasury department and the treasury division of the Chamber of Commerce yesterday noon. His declaration was greeted by applause.

Mr. Lester is expounding the gospel of thrift as exemplified in the savings stamp idea and predicts that this will run for years as a means of inculcating the principles of economy and investment in the lives of the American people.

A solemn warning against the waste of the nation's resources in the United States since the signing of the armistice was sounded by Mr. Lester, who declared that no nation can long endure when its people squander its earnings recklessly and prodigally, as they have been doing in America recently.

Mr. Lester then proceeded to say that greater production and more careful expenditure on the part of the nation will employ part of the means of restoring normal conditions.

Mr. Lester declared it as his firm belief, from the study of the statistics never decrease as long as the people buy so recklessly as now and give so much to where they spend their pay checks.

Edward Cookingham, president of the Ladd Afton bank and state director of the Liberty and Victory campaign, presided. Every seat in the main dining room was occupied.

Where is the Truck you bought 8 years ago?

Is it still in service? or in the scrap heap? Did it pay for itself in earnings? economies? or expanded business? 48 of the first 50 Pierce Arrows are still running after 8 years

WE HAVE A BOOK, just published, which gives the history of the first 50 Pierce-Arrow trucks made. One was destroyed by fire, one was retired after seven years drastic use, and the others all remain in continuous operation, still paying dividends to their owners.

Where are the first 50 trucks of any other make?

If even one survives, it is not the type its manufacturer is making and selling today.

The original principles of construction maintained and improved in Pierce-Arrow design are now standard practice. They have proved their reliability. They give results which make first costs unimportant.

Write for a copy of "The First Fifty." Apply its lessons to your truck problems.
