

NEW FISH AND GAME AMENDMENT IS UP

Culturist Would Have Charge
of All Propagation.

BALLOT TITLE IS ASKED

Measure Prepared by Clackamas
Fishermen's Union Also Fixes
License in Each County.

SALEM, Or., Jan. 27.—(Special.)—In case the voters of Oregon approve a proposed constitutional amendment to be submitted at the regular election in November, the present game and fish commission will be abolished and in its stead there will be appointed by the governor a fish culturist who shall hold office at the pleasure of the executive and who shall have charge of all game and fish propagation and distributions.

The proposed amendment was prepared at the instigation of the Clackamas County Fishermen's union, according to a letter received at the offices of the secretary of state, and has been referred to the attorney-general for ballot title.

License Fees Prescribed.
"The license fees for hunting or shooting game birds or game animals for a resident of the state shall be \$1 for each county wherein the license is taken," according to the amendment, "and \$5 for each non-resident of the state for each license. The license fees for taking or fishing for game fish shall be \$1 for each county wherein the license is taken out for a resident of the state and \$5 for each non-resident."

"No license relating to game fish, game birds or game animals shall entitle the holder to fish or hunt or pursue or take fish or game outside the county wherein issued. All licenses required under the proposed act shall be issued by the county clerk of the county wherein the same shall be used."

Officers Would Be Appointed.
"All officers or deputies required to enforce the laws for any of the purposes named in this section, including the regulations of hunting or fishing or the conservation of commercial or game fish or animals or birds, except sheriffs or constables elected by the people and the duly appointed deputies of such sheriffs, shall be appointed by the county court or the commissioners' court of the county wherein such officer or deputy is required to work."

"The county clerk monthly shall send to the secretary of state 25 per cent of all fees collected from licenses relating to game fish, game birds and game animals and 75 per cent of all fees collected for licenses relating to commercial fish. The license fees retained by the county clerk shall be used to defray the expenses of enforcing the laws and the provisions of this section applying the same to that branch respectively from which received."

Propagation Fund Provided.
"Of the balance retained, if any, a portion of all may be used by the county court for the propagation or distribution therein of commercial fish, game fish, game birds and game animals and any other species of fish or game turned over to the secretary of state at least once a year."

"The propagation of commercial fish shall be paid for out of money derived from licenses relating to commercial fish, game birds and game animals and distributed from money derived from licenses relating to such game."

"The salary of the fish culturist shall be not more than \$2000 per annum and necessary expenses. The salaries of officers appointed by county courts shall not be more than \$125 per month and necessary expenses."

Counties to Regulate Seasons.

"Except as to waters in regard to which a joint agreement exists between the state of Oregon and state of Washington, each county may regulate all seasons for fishing or the closing of any stream or the opening and the use of fishing gears within its boundaries to the exclusion of the state. Such action of a county shall be by vote of the people of such county upon initiative petition at regular or special elections called by the county court of such county."

The duties required of the secretary of state as to state legislation by initiative shall be performed as to this legislation by the county clerk; the duties required by the governor shall be performed by the county judge and the duties performed by the attorney-general shall be performed by the district attorney for such county."

PAPER'S CLAIM OPPOSED

DEFENDANT SAYS GERMAN
ADVERTISING DAMAGING.

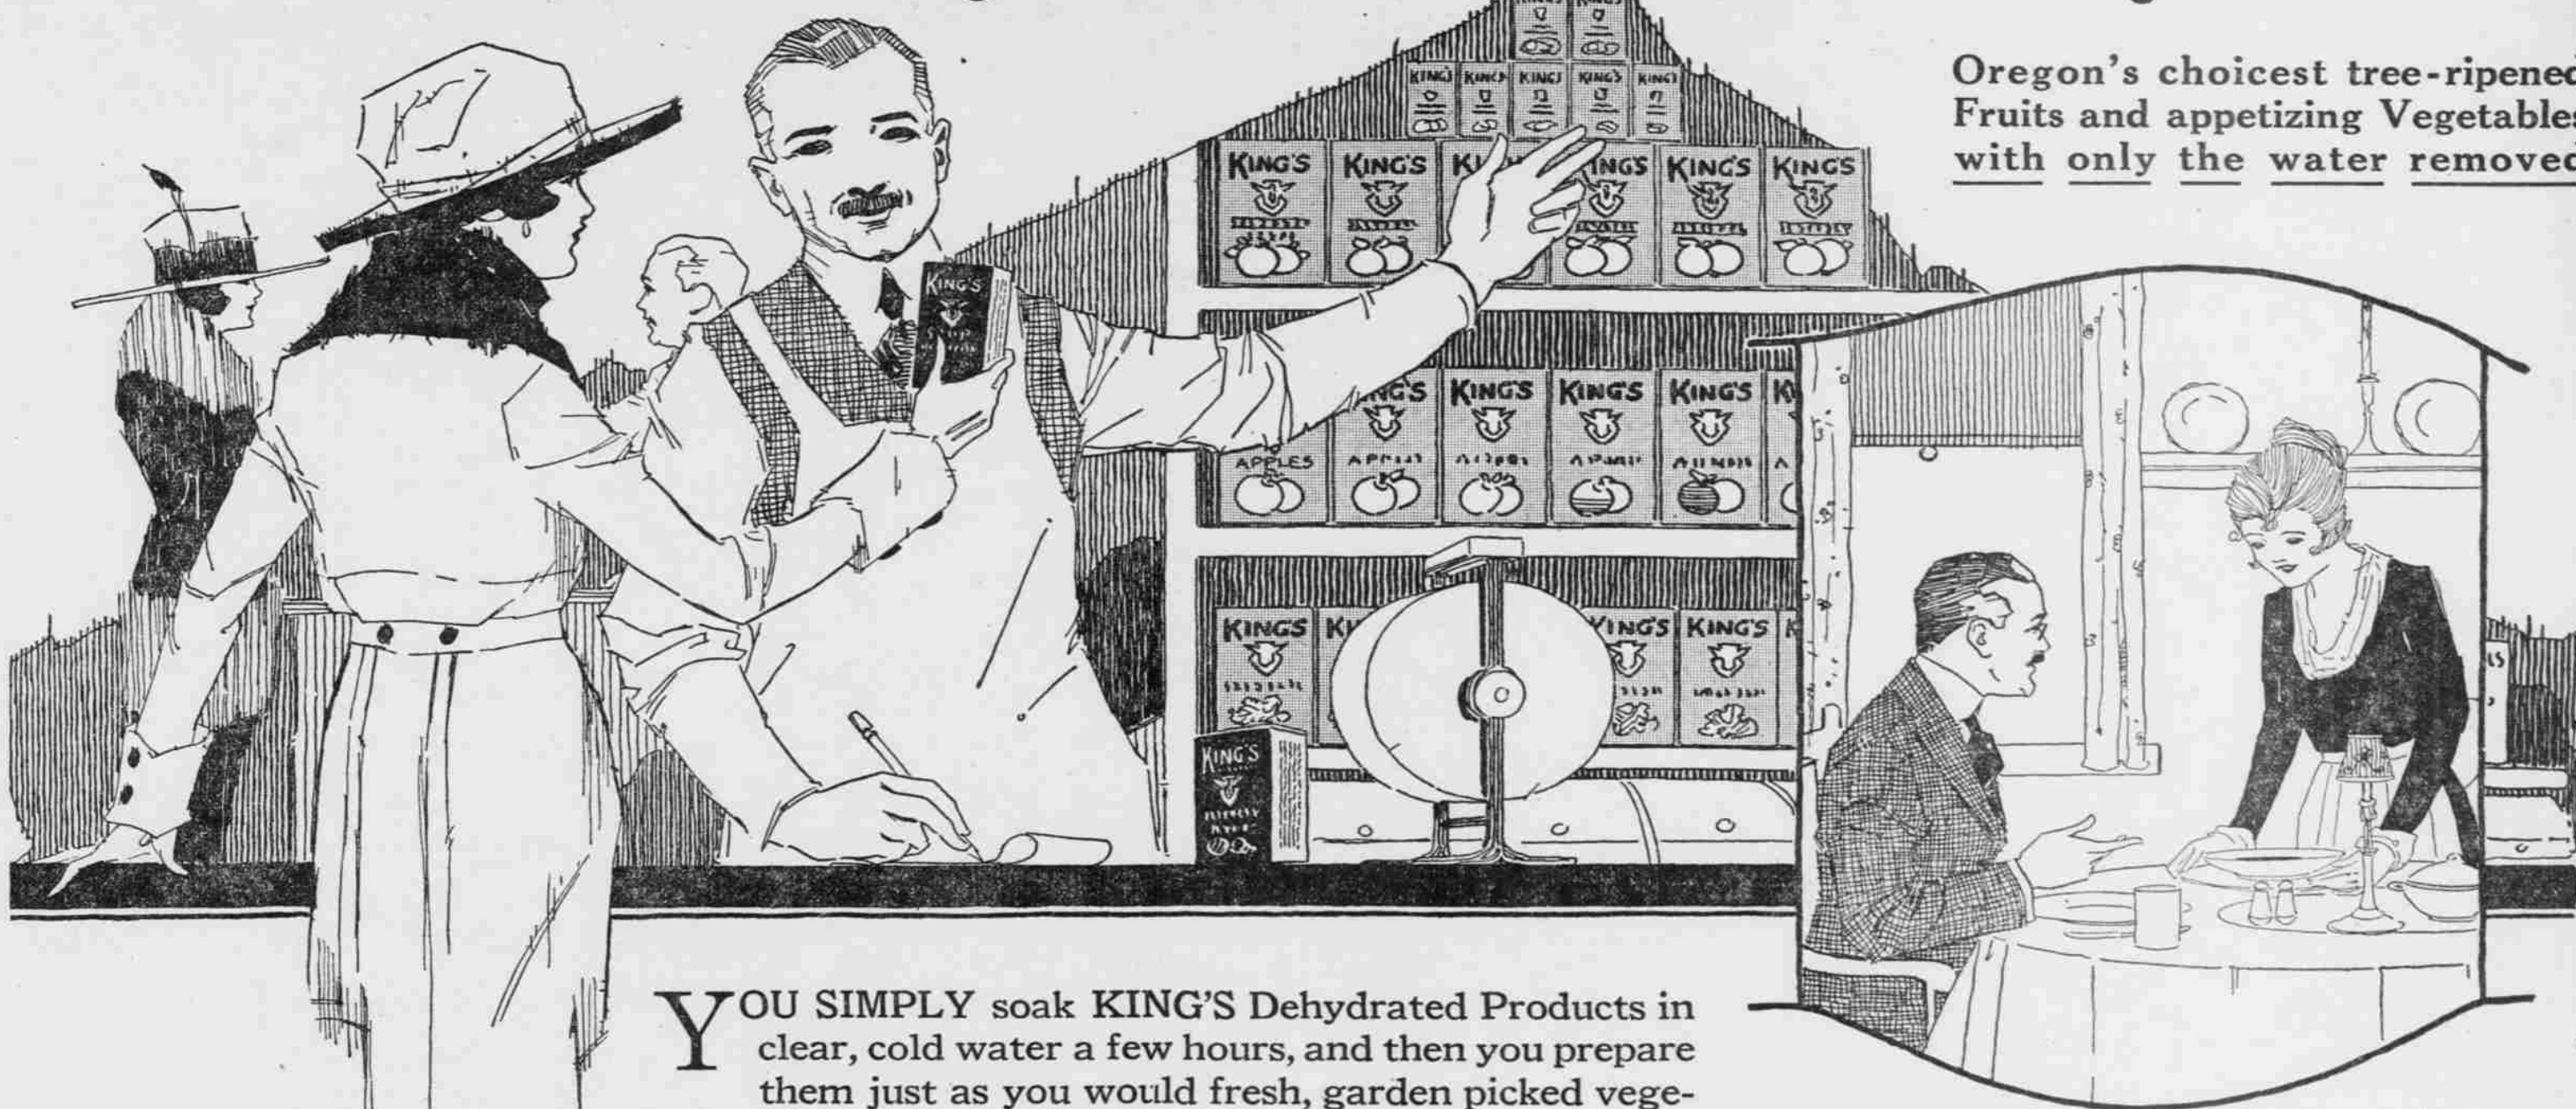

L. Schaefer Files Answer to Suit of
"Nachrichten," in Which
Fraud Is Alleged.

Not only does L. Schaefer, proprietor of a local dry-cleaning establishment, admit that his advertisement appeared for 52 successive weeks in the "Nachrichten," a German newspaper, which is suing him in the circuit court to recover a sum alleged due for advertising, but he asserts, in his answer filed yesterday by John F. Cahalan, that publication of the advertisement never was authorized by him and had damaged his business to the extent of \$200 because of the alleged disloyalty and pro-Germanism of the paper in which it appeared.

Schaefer says that on November 23, 1918, he was solicited for an order for business cards by an agent representing A. E. Kern & Co., who did not "disclose to him that the name A. E. Kern & Co. was an assumed and fictitious name under which the German Publishing company was doing business." An order was given for 5000 cards and 1000 tags. It is set forth, and Schaefer was told by the agent that it was necessary for him to sign a written order. He did not read the order carefully, he declares, and later found it to be an advertising contract, which he had been induced by fraud to sign.

Schaefer found out that the advertisement was appearing in the German paper on December 1, 1918, and immediately ordered it discontinued as unauthorized and was informed by A. E. Kern that a year's contract had been signed and that it was the intention "to publish it in said German paper for the full 52 weeks." This was done over the protest of Schaefer, who is now being sued, he declares.

"Yes Madam—Here they are, KING'S Dehydrated Fruits and Vegetables"

Oregon's choicest tree-ripened
Fruits and appetizing Vegetables
with only the water removed

YOU SIMPLY soak KING'S Dehydrated Products in clear, cold water a few hours, and then you prepare them just as you would fresh, garden picked vegetables and fully ripened, fresh fruits.

KING'S wonderful Dehydrating Process makes it possible for you to serve in mid-winter Oregon's famous fresh Loganberries; full-flavored, juicy Peaches; garden-fresh Stringless Beans; Spinach with its valuable minerals intact; deliciously-different Prunes, Apples, etc.

KING'S Products mean economy; you pay no freight, storage or handling charges on water; you buy only food. This worth-while saving is yours.

KING'S Products are a great convenience. There is no washing, picking over or peeling to be done;

there is nothing to throw away. This saving of labor and waste is also yours.

KING'S Dehydration simply means you get the perfect fruit or vegetable with all its moisture removed. This you replace by soaking in water—and the fruit becomes as though freshly picked.

Don't confuse KING'S Dehydrated Fruits and Vegetables with the common "dried" variety which you have had experience with; KING'S are far more delicious, because by this wonderful new process they retain all their original flavor, color and wholesomeness.
