Great Record Made in Construction. Frogramme Most Comprehensive of Any State in Union.

"Next summer you can drive from Portland to Los Angeles on 'high,' " predicted S. Benson, chairman of the state highway commission, who has returned home after three months at Long Beach, Cal.

Mr. Benson is better pleased with the road situation in Oregon now than ever before and considers that the state has made a record in highway

Oregon has more mileage under "Oregon has more mileage under contract now than any other state in the union and it is getting more for its money and it has the most comprehensive and consistent road programme of any of the states," says Mr. Benson. "In southern California I met prominent men, such as governors and the like from more than half ors and the like, from more than half of the states, men who were in close of the states, men who were in close touch with the road work in their territory, and by talking with them I became satisfied that Oregon is leading them all.

Polities in Other States Rife.

There are innumerable stories of politics in the road work of most states. One man told me that in his state expensive roads were built which began nowhere but always ended at the property of some politician. In Texas millions of dollars have been wasted in read work, and now the Texans are talking of adopting the Oregon method of road building. "California has some fine roads of

concrete, but they are more expensive han Oregon can afford to build. hen, too, the cost of maintenance of California roads amounts to

PURE MILK IS ADVOCATED

SALEM, Or., Feb. 1 .- (Special)-L DOUBLE CONVENTION OPENED IN PORTLAND.

> Northwest Dealers and Association of Inspectors Gather-Housewives Attend Sessions,

With a large attendance from various cities of the Pacific northwest and some delegates from as far away as Calgary and Oakland, Cal., the Milk Inspectors was opened yester-day in the peacock room of the Mult-nomah hotel for a three-day session.

F. B. Flood of Spekane presided.

The necessity for checking up on careless dairymen so that the public may get the best and purest milk possible formed the theme of an ad-dress by L. W. Hanson of the dairy division of the department of agriculture, who was one of the principal speakers of the afternoon. Several other talks stressed the same sentinent, setting up as a standard clean liness, purity, quality and efficiency in the distribution of milk. The food value of this and all dairy products and the laws governing the protec-

tion of the public in its supply of the products of the dairy all received a share of attention. Other speakers were: Miss Jessie Hoover, representing the United States government in the dairy de-States government in the dairy de-partment of the bureau of animal husbandry; Dr. R. A. To be at your best, you must feel at your best. The man that is magnetic, popular, successful—is the one who radiates vigor and health. Nothing pulls a man down more surely-more insidiously-than constipation. The poisons arising from the decaying intestinal matter take the color out of your face and the "pep" from your stride. Keep clean-inside as well as out.

By an entirely new principle Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take-try it.
