

ROAD WORK AWAITS DECISION OF VOTERS

Important Projects in Oregon Held in Abeyance.

ENTIRE STATE AFFECTED

Construction of Much Needed Highways Depends on Action of People at May Election.

Important road projects in all sections of Oregon are in abeyance pending the vote of the people at the special election in May.

All Oregon, especially southern Oregon and in particular Jackson county, are interested in the construction of a good highway to Crater lake.

Opening up a highway to Crater lake has been the dream and ambition of southern Oregon for years.

Also contingent on the special election is further improvement of the Coos Bay-Roseburg highway.

Union County Issues Bonds. Although Union county has bonded itself heavily for paved roads, the matter of the grading and rock is an important item.

Introducing the New

Short Satin Sports Coats Short Velvet Sports Coats Longer Draped Silk Wraps

Many requests are being made for something a little more formal than the regulation tan camelhair coat which is the great success of the spring season.

These new semi-formal becoming coats are fashion's solution of the question.

The wrap sketched, designed for afternoon or evening, is of the new dark blue chinchilla satin, having three wide tucks and with broad rever folds of reindeer chinchilla satin; the lining is of brown chiffon.

Other wraps are in shorter lengths of black or midnight blue satin.

Short coats of satin with shoestring belts have long tuxedo collars and white satin linings; they are particularly suitable to wear with lingerie frocks or baronet satin skirts.

Short coats of velvety black have narrow patent leather belts and white satin linings.

Italy Inspired This Fine Furniture for the Dining Room

Certain specialty American manufacturers are broadening their inspiration. Instead of confining their reproductions to those of English masters, they are now copying the fine old Italian pieces heretofore almost unobtainable.

One suite is carved and introduces antique polychrome.

The 'Universal' Combination A Range of Utmost Usefulness

It is poor economy to own a range which you use only part of the time. Many people have two ranges in their kitchen—a wood or coal range and a gas range.

The Universal Combination takes the place of both these ranges and yet occupies only the space of one. Burns gas and coal or wood, separately or at the same time.

Your old range taken as part payment and on the balance you can—if desired—
