

**DRY AGENTS QUIETLY  
INVADE IRON COUNTY**

Only Resistance Met Is Mildly  
Curious Crowd.

**CLEANUP IS TO BE MADE**

Prohibition Director in Telegram  
to Chief Commissioner Urges  
Fight "to Bitter End."

IRON RIVER, Mich., Feb. 24.—Major A. V. Dalrymple, prohibition enforcement officer, and his assistants arrived from Chicago tonight to clear up alleged violations of the prohibition law, but took no action. There was no excitement, local officers not meeting the federal officers, who went to a hotel while a crowd of curious citizens looked on quietly.

About 150 persons were at the station when the Dalrymple party arrived, mostly members of the Iron River post of the American Legion, which met tonight. There were 35 men in the party. The force was joined here by five state troopers from Cassian, Mich., and by three federal prohibition officials, sent here from Chicago.

When the train carrying the federal officers passed through Crystal Falls, 15 miles from here, rumors were received by Major Dalrymple that a warrant had been sworn out for his arrest at Iron River and that he would be arrested as he stepped from the train.

**Mild Curiosity Is Shown.**  
These reports failed to materialize. No state officers were at the station and the small crowd that had gathered to see the federal officers arrived viewed their advent with mild curiosity.

Major Dalrymple tonight sent the following telegram to John Kramer, prohibition commissioner at Washington:

"Decent citizens of northern Michigan are outraged at the conduct of McDonough and his cohorts. If we expect to enforce prohibition we must prosecute this case to the bitter end."

Leo J. Grove, the prohibition agent who reported the alleged prohibition revolt to Major Dalrymple at Chicago, has search warrants for 10 places in Iron county, and the federal agents are planning a drive to clean up the entire district, one of the most isolated in the mining section.

**No Trouble Anticipated.**  
"I anticipate no trouble in Iron county," Major Dalrymple said. "I expect to arrest the men we want, place them in jail and seize any stills and contraband liquor we can locate, and leave Iron county a clean and law-abiding place. We are taking precautions in case we should meet resistance during our work, but it does not mean that we expect a fight."  
"The precautions" Major Dalrymple described included the issuing of 500 rounds of ammunition to the federal agents.

**ARREST WARRANTS DENIED**

Request for Papers for Iron County  
Officials Is Refused.

CHAMPION, Mich., Feb. 24.—Denied warrants for the arrest of officials of Iron county, Michigan, whom he charges with conspiracy to obstruct enforcement of the prohibition law, Major A. V. Dalrymple tonight passed through Champion tonight en route to Iron River, with the avowed intention of making the arrests without warrants.

At Negaunee, Mich., Lieutenant A. H. Downing, commanding the Michigan state constabulary in the upper peninsula, with a half troop of his men, joined Major Dalrymple and his party of 15 federal officers. Five additional state troops at Cassian, Mich., have orders to proceed to Iron River tonight.

Major Dalrymple announced that all prisoners taken in the raid would be taken out by way of Chicago to Grand Rapids, where they would be arraigned.

The men whose arrests he seeks are: Martin McDonough, prosecuting attorney of Iron county; five deputy sheriffs, the chief and captain of police of Iron River and three citizens.

"We are going to recover the 11 barrels of wine the men took from my agents and the state police," Major Dalrymple declared. "I will search every house in Iron River if necessary to recover it."

Neither Major Dalrymple nor Lieutenant Downing anticipate any resistance at Iron River. The state troopers left their rifles in barracks and, like the federal agents, are carrying only side arms.

GRAND RAPIDS, Mich., Feb. 24.—A flaw in the complaints caused refusal of warrants for the arrest of Iron county officers, Myron H. Walker, district attorney, said tonight.

A process has been invented in Europe for cutting thin plates of marble for diffusing electric lights more effectively than frosted glass.

**Skolny Clothes  
for Young Men**

**WHAT is style?**

In my opinion it is something more than the little additions—flap, slit, belt, notch, shape of lapel and cuff—that enhance Suit or Overcoat.

The style that marks SKOLNY CLOTHES is the combined result of artistic designing and practical tailoring.

The creation of the style begins with the lining, and expresses itself through to the surface.

Pliancy, flexibility—are the effects striven for and secured. Not a trace of the usual ready-made about Skolny Suit or Coat.

Sold in Portland Only at My Store.

**ROTARY CLUB CELEBRATES  
FIFTEENTH ANNIVERSARY OF  
BODY OBSERVED.**

Dr. W. W. Youngson Gives History  
of Organization and Purposes  
and Work Accomplished.

In celebration of the 15th anniversary of the founding of the organization, members of the Portland Rotary club yesterday heard a concise enunciation of the principles of rotary by their fellow member, Dr. W. W. Youngson, coupled with an entertaining history of its growth. He told how its beginning was had in the loneliness of one man in a great city and the desire to make friends and enlarge circle of acquaintance led to regular meetings of a group of four, who rotated their gatherings between the places of business of the members, thereby establishing the name, and through the fact that each represented a different line of business, fixed the principle of having the clubs composed of a single representative of each industry or profession. Paul P. Harris, an attorney of Chicago, was the originator of the idea and is still a member of the Chicago club. The national association was formed at a convention of delegates held in 1910 at Chicago, when there were clubs established in 14 cities, one of which was Portland. The second convention was held in Portland in 1911, when the slogan, "He profits most who serves best," was adopted.

**One Health Officer Eliminated.**  
HOOD RIVER, Or., Feb. 24.—(Special.)—Dr. Jesse Edgington, city health officer for many years, has tendered his resignation, effective March 1. The council has appointed Dr. V. R. Anderson, county health officer, to assume the duties of the city office also.

**CADET CORPS REVIEWED**

Colonel Ralph Lister Compliments  
Students on Co-operation.

UNIVERSITY OF OREGON, Eugene, Feb. 24.—(Special.)—Colonel Ralph B. Lister, district inspector of the reserve officers' training corps, spent Monday in Eugene inspecting the corps. After witnessing a review and seeing the organizations drill, Colonel

Lister said he noted improvement over the work displayed at his previous visit last fall. The colonel complimented the cadets on the atmosphere of co-operation in their work. Colonel Lister expects soon to transfer his headquarters from Spokane to San Francisco, due to consolidation of the eleventh and twelfth districts. Colonel Lister spent eighteen months in France as general at the headquarters division of the first army.

In the early part of the 19th century more than 200 offenses were punishable with death in England.

**SERGEANT MAKES EXPERT  
Instructor at University One of  
First to Qualify.**

UNIVERSITY OF OREGON, Eugene, Feb. 24.—(Special.)—Sergeant R. M. Martin, instructor in musketry of the reserve officers' training camp staff here, holds the distinction of being one of the first men to qualify as an expert rifleman under the new system of handling a service rifle, which was used by the American forces with such good results during

the war. Sergeant Martin was a first sergeant of company F, 2d battalion, 14th infantry, in 1914, under Colonel MacNab, who first developed the new system as an experiment. Martin was one of the men to take highest honors.

The system was adopted by the army the following year and Sergeant Martin is using it in his instruction of the Oregon cadets. He considers the high scores made by the cadets on the gallery range here as evidence of the superior work which can be

done by men trained under the proper regulations. Horse racing in England is said to have been first established at Chester in 1609.
