

ACTIVELY ZONING DELAYED 2 WEEKS Ordinance Is Laid Over to Allow Discussions.

SPEAKERS DENOUNCE PLAN City Commissioner Incurs Mayor's Wrath by Making Suggestion to Hold Referendum.

Final consideration of the proposed building zone ordinance was postponed yesterday for two weeks at the suggestion of J. P. Newell, president of the city planning commission.

Although no general discussion was held, a few opponents to the zoning plan were given the privilege of speaking. Ralph R. Bunn, one of the first to speak, had hardly begun when he clashed with Mayor Baker.

"This scheme of zoning is a first cousin to single tax," said Mr. Dunway, "and a child of socialism. It is fundamentally wrong. It opposes the laws of supply and demand."

"I don't believe you know what you are talking about, Mr. Dunway," interrupted Mayor Baker. "Our present building restrictions are far more severe than this zoning ordinance."

"Allow me to return the compliment to you, George," shot Mr. Dunway. "I don't think you know what you are talking about."

City Commissioner Barbur incurred the wrath of the mayor when he announced that he favored submission of the ordinance to a vote of the people. Commissioner Barbur said that he did not believe that the city council should set itself up as a fountain of knowledge, a fountain of greater capacity than that of the people.

"We are here today to face the issue, not sidestep it," answered Mayor Baker. "We have spent about \$16,000 of the people's money in preparing this ordinance. I favor it because I know that it is right. It is up to us to pass the ordinance. If it is disastrous to the people make use of the referendum."

"It's all very well for the mayor to say he won't sidestep the ordinance," retorted Commissioner Barbur. "But people who talk that way usually measure them in their own half bushel."

The suggestion offered by Fred German, president of the Portland Realty board, that notices be sent to all property owners in the city notifying them of the classification given to their holdings in the proposed ordinance was declared to be impractical by Mayor Baker, who said that the city did not have sufficient funds to carry out any such proposal at this time.

Commissioner Bigelow announced that he favored immediate decision on the fate of the ordinance, declaring that he was ready to vote in its favor. Commissioner Mann also announced that he was ready to vote, but that he would abstain from voting unless the majority of the council would agree to adopt a resolution referring the ordinance to the people.

President Newell, who presided over the conference with the principal opponents of the measure, the council agreed to the delay.

With all Oregon counties, except Lake, organized, and with advisory boards for each county making a preliminary study of conditions in their district, the state advisory board of the Salvation Army home service program of 1920 will meet at a luncheon at the Hotel Portland tomorrow afternoon and go over some of the reports already received from the county boards.

The personnel of the county advisory boards lists bankers, professional men, manufacturers, merchants and wealthy farmers. The response on the part of substantial citizens of populous centers and sparsely settled districts alike is remarkable.

"We want to work" is the slogan of the Oregon city advisory board members. Set the task, is all the men of Chairman Eby's board asked. Morrow and Crook county boards are also enthusiastic. Lake county's board is expected in season and, with the reporting of the state board, the 36 counties of the state will be organized and the 1920 home service program under way with 43 boards answering to the state board.

The following boards are announced: Clackamas county—Attorney O. D. Eby, director commercial club, chairman; Philip Hammond, vice-chairman; Dr. Frank Mount, County Clerk; A. 40 Houses May Be Moved. BILLINGS, Mont.—Petitions are being circulated in Pompey's Pillar, on the Huntley reclamation project east of here, proposing that the entire community of 40 houses and residences be moved 2 1/2 miles west. The petitions ask the Northern Pacific railroad track facilities at a proposed new railway to construct a big beet dump and site.

Tobacco Demand Lifts Price. WASHINGTON.—The extraordinary European demand for tobacco other than the cigar types and the immense increase in use of tobacco for cigarettes during 1919 raised the average farm price of the composite chewing, smoking, snuff and export types to 4 1/2 cents on December 1, or greatly above the price of 2 1/2 cents for cigar tobacco, experts of the department of agriculture state. The price of cigar types of tobacco before last year's ways has been above that of the other

types, as a whole. Cigar tobacco last year was lower in price than it was in either 1918 or 1917, not because of weaker demand. In commenting on the price, the department of agriculture says the cigar has been overtaken and passed by the cigarette.

KEEP URIC ACID OUT OF JOINTS Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin, also a means of freeing the blood of this impurity, in damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double duty. They become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get on any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.
