SCHOOL PLAYGROUND UP

DIRECTORS DISCUSS NEED, BUT TAKE NO ACTION.

Selection of High School Site in St. Johns to Come Before Meeting Thursday.

Need for a general city school playground, fully equipped with athletic field, grandstand and running track was cited yesterday at school board meeting. While all directors agreed upon the need, no proposition could be put up owing to lack of funds.

City Commissioner appeared at the meeting and stated that the city is considering equipping playgrounds at Franklin high, Creston, Richmond and Woodstock schools. He asked that the board aid in definitely choosing a high school site in St. Johns and this will be taken up at a special session next Thursday night, in order that the city may purchase a park location adjoining.

Problems of adult education will also be discussed next week. The Neighborhood house yesterday submitted a communication to the effect that it is no longer able to financially care for its American class of 40 beginners and asked aid of the board.

Permission was granted Superintendent Grant to request two representatives to attend the Inland Empire Teachers' association meeting March 31 in Spokane. Assistant Superintendent J. H. Whitney and Mrs. Jennie Richardson, president of the Grade Teachers' association, will go. Director O. M. Plummer has been invited to attend and address the gathering.

JAPAN REGRETS FEELING

Ambassador Says Friendly Relations With U. S. Essential.

NEW YORK, March 4.—K. Shidehara, Japanese ambassador to the

United States, complained at a luncheon of the Fifth avenue association today, of "a certain undertow of detraction of which Japan has recently been made the object."

"One of the most mischievous stories in wide circulation," he said, "is that Japan is under the influence of militarism. The accusation is wholly unjustified."

All political parties of Japan, he added, would certainly oppose any plan which would place undue importance on military necessity beyond what is absolutely essential to the maintenance of Japan's national safety.

The importance of the United States and Japan maintaining friendly relations, he said, was emphasized by the fact that Japan is fourth in countries to which American goods are exported and second in countries which export goods to the United States.

PIANO FIRM WILL EXPAND

SHERMAN, CLAY & CO. SIGN EIGHT-YEAR LEASE.

Almost Entire Stearns Building to Be Utilized—Alterations Will Total \$50,000.

Enlargement of Sherman, Clay & Co., already one of the largest dealers in pianos and musical instruments on the coast, will be effected in the near future through the addition of about 9000 square feet of floor space and alterations of their present quarters, totaling \$50,000 in cost, according to J. H. Dundore, manager.

The alterations and enlargements were decided upon following the expiration of the company's lease upon the Stearns building, corner of Sixth and Morrison streets, which the company occupies almost entirely at the present time. The new leases which have been negotiated also forecast the enlargement of Lennons' about the first of next year. Lennons' store now occupies 20 feet on Morrison street on the ground floor of the Stearns building and through a sub-lease from Sherman-Clay & Co. will expand their store on December 1, coming into possession of the 40 foot frontage now occupied by McGregors' hat shop, and Lalane, florist. The arrangement will make Sherman-Clay and Lennons' the sole occupants of the Stearns building.

Through a new lease signed by the piano company with L. B. Stearns, owner of the building, an extension was secured, giving the present occupant eight more years at its location.

An important alteration will be the closing of the Sixth-street elevator entrance. The hallway now utilized for that purpose will be thrown into the main display and sales-room.

PLANT DAMAGED BY FIRE

LOSS INCURRED BY COMPANIES ESTIMATED AT \$2500.

Flame From Blow Torch Reached Quantity of Pitch Lying Too Close to Tank.

About \$2500 damage was done by a fire which started in the plant of the New York plating works at 68 North Tenth street yesterday afternoon at 4:15 o'clock, the flames spreading to the establishment of J. M. Walsh & Co., which has an assembling plant for light fixtures in the same building.

The fire was caused by a blow-torch being used in the construction of a tank in the plating works' plant, the flame catching on a quantity of pitch, kept on hand for chinking up the cracks in the tank.

From this beginning it spread rapidly, a large quantity of lacquer in the place feeding it and causing a somewhat spectacular blaze. There were numerous small explosions which blew out the windows of the building.

The structure, a two-story frame edifice owned by Ruby & Co., was damaged to the extent of about \$500. The loss to the plating company, of which J. J. Finn is proprietor and manager, amounted to about \$500, and about \$1500 loss was accredited to the J. M. Walsh & Co.

Fire trucks 3 and engines 2, 11 and 3 responded to the call. Fire Chief Young was in charge. Captain Roberts represented the fire marshals' office.

INDIANA GIRLS INQUIRE

Four Contemplate Spending Summer in Douglas County.

ROSEBURG, Or., March 4.—(Special).—County Farm Agent Hurd is in receipt of a communication from a quartet of Hoosier schoolma'ams, to whom the lure of the west has become irresistible, and they will come to Douglas county just as soon as their schools close this spring if their inquiry is favorably answered.

The young women state they want to go into the country where they will accept employment in farm homes or are competent to work in other lines of industry. The girls wrote that they were brought up on farms and know what that sort of work means.

The county agent believes Douglas county's population will be increased by the coming of these four Indiana girls within a few weeks.

ITALY MAKES NEW PLEA

OPPORTUNITY FOR FURTHER STATEMENT ASKED.

Request Made That Adriatic Settlement of December 9 Be Not Considered as Final.

WASHINGTON, March 4.—Great Britain, in agreeing to the December 9 settlement of the Adriatic question, acceded to a request made by Italy that the other signatories consent to withhold publication of the note, that Italy be given an opportunity to reply and that the settlement be not regarded as final.

This is revealed in a telegram sent by Earl Curzon, British secretary of state for foreign affairs, to Sir Eyre Crowe, British representative on the supreme council.

A copy of the telegram, communicated to the American government yesterday for the first time, was made public today by the state department. The conditions for signature, Earl Curzon said, were requested by the Italian foreign minister.

When informed of the terms of the French-British-American proposal,

Foreign Minister Scialoja raised two main objections which, Earl Curzon said in the telegram, were: "That it was a mere reiteration of the Wilsonian position and made no concession to the Italian point of view about Fiume, and that while safeguarding the strategic position of Italy north of the Adriatic, yet, by leaving both Sebenico and Cattaro in the hands of the Jugo-Slav state, it exposed the entire central and southern Adriatic flank of Italy to attack. Italy claimed neither of these points for herself, but did claim that both, or at least Sebenico, be demilitarized."
