If we were to reject article 18 or so to weaken it as to take its full force out of it, it would mark us as desiring to return to the old world of jealous rivalry and misunderstandings from which our gallant soldiers have rescued us, and would leave us without any vision or new conception of justice and peace. We would have learned no lesson from the war but gained only the regret that it had involved us in its maelstrom of suffering. Militaristic ambitions and imperialistic policies are by no means dead, even in the counsels of the nations whom we most trust and with whom we most desire to be associated in the tasks of peace. Throughout the sessions of the conference in Paris It was evident that a militaristic party, under the most influential leadership, was seeking to gain ascendancy in the counsels of France. They were defeated then, but are in control now. The chief arguments control now. The chief arguments advanced in Paris in support of the Italian claims on the Adriatic were stratogic arguments, that is to say, military arguments, which had at their back the thought of naval supremacy in that sea. The imperialist wants no league of nations, but if, in response to the universal cry of the masses everywhere, there is to be one, he is interested to secure one suited to his own purposes, one that will permit him to continue the historic game of pawns and peoples—the juggling of provinces, the old balances of power and the inevitable wars attendant upon these things. The reservation proposed would perpetuate the old order. Does any one really want to see the old game played again? Can anyone really venture to take part in see the old game played again?
