

ON TRUE WAR BRIDE SHATTERS ROMANCE

Court Told of Blight on Soldier's Fond Hopes.

SILVER FIGURES IN CASE

Controversy Precipitated When Wedding Presents Are Sought by ex-Service Man.

The story of a shattered war romance, of an untrue war bride, of a returned soldier from France who finds his wife in love with another man, was told in municipal court yesterday by Frank Hemmerl, mechanic, who appeared to answer to a charge of drunk and disorderly conduct.

Hemmerl attempted suicide in the city jail by pricking an artery in his wrist, following his arrest at the apartment of his divorced wife, now Mrs. L. Allen, at the Hanover apartments, Washington and King streets, Thursday night. Motorcycle Officers Simkins and Forken made the arrest.

Percolator Figures in Case.

The former soldier is said to have had a controversy with the present husband of his former wife over a coffee percolator, one of the wedding presents at Hemmerl's marriage, was used as a missile. The percolator, badly battered, was taken to the court as evidence.

When he returned to find the wife he had married on the eve of his departure for France in love with another man he advised her to get a divorce and marry the man of her choice, Hemmerl told Judge Rossman. The controversy which resulted in his arrest last night followed after he had visited the Allen apartment on request of the judge's Rossman, and her new husband, the man said. He admitted that some liquor had been drunk by the three.

Judge Rossman continued the case for sentence after he had heard the former soldier's story.

"I was a first sergeant in my company, stationed at Vancouver barracks, at the time of my marriage," Hemmerl told the judge. He then related the tragedy of his wife and her new husband, the man said. He admitted that some liquor had been drunk by the three.

CONVENTION PLANS MADE

COMMITTEE EXPECTS 1000 SALESMEN IN JUNE.

Value in Publicity Through Words of Travelers Will Be Great, Is Belief.

Plans for raising additional funds for entertainment of the delegates at the national convention of the Travelers' Protective Association of America, which meets in Portland June 14 to 19, are being made by the executive committee in charge of convention arrangements. The committee consists of Stanhope S. Pier, Clyde Evans, A. H. Devers, M. R. Johnson and P. J. Sullivan.

The convention promises to be one of the most important events of the kind which the city has ever had, in view of the fact that the members of the association are traveling salesmen coming from many parts of the country. The association has a membership of 90,000, and an attendance of over 1000 is expected at the annual session in this city. With the families of delegates and others who will be in the city because of the convention fully 2000 visitors are expected. Thus far \$7000 has been raised for convention purposes and a total of \$20,000 is needed to take care of the visiting delegates in true Portland style, according to members of the committee. Several committees are out soliciting funds and it is hoped to raise the amount needed within a short time.

PAY DENIED TEACHERS

ABSENCE TO AVOID VACCINATION IS CAUSE.

Board Decides to Establish Precedent in Case of Voluntary Absence From Duty.

In order to establish a precedent in cases where instructors attempt to collect pay for voluntary absence in order to avoid vaccination, the school board Thursday night denied two such requests. These were made by Clifford A. Lucas of Benson Polytechnic school and Della Rogers of Clinton Kelly, who asked for salaries for nine days' and two weeks' periods respectively. The board granted permission for two more teachers to represent the city at the Int'l Empire association meeting at Spokane March 31. A. A. Campbell will go from the Principals' association and Miss Larrabee from the School Teachers' association. Efforts of one or two publishers to block final selection of textbooks failed and the board adopted the complete list voted upon by the teachers. These are adopted for a four-year period. The Detroit plan of promoting principals on a merit and qualification basis was authorized and Superin-

tendent Grant received power to transfer principals who have served five years in one building. The directors favored installation of a household mechanics course for boys and asked that figures showing the cost be prepared. This would teach youngsters how to handle common tools and do plumbing and repair work.
