without the clashing of arms and bloodshed. In various cities fighting has occurred, participated in by mobs and troops, and today several persons were killed and others wounded in the suburbs near Berlin, where rifles and machine guns were turned on the crowds.

Hand Grenades Are Used. Hand grenades also were exploded in front of the headquarters of General von Luetwitz, reactionary minister of defense, but did no great damage.

Much interest should attach to the meeting of the national assembly which has been called for Tuesday at Stuttgart.

The underground railway service and rail traffic generally in Berlin was at a standstill today. The water supply had been restored, but gas and electric supplies were still cut off.

No newspapers appeared, except special sheets of the Lokal Anzeiger, which, in accordance with a government decree, contains only news pleasing to the government.

Public Is Skeptical. The public was extremely skeptical of the reports thus published. One man remarked, "they are throwing bait at us," as he read the promise of the government to obtain a food supply. Another remarked, "Why not so stupid as to believe that three-quarters of Germany supports the new government."

The Lokal Anzeiger asserted that the reichwehr garrisons and other military units were declaring for the new government and added that resistance was being offered only at a few places.

The German national party and the German people's party in Berlin have declared against the Ebert government and have demanded of the new government that all parties willing to co-operate in reconstruction of Germany shall be invited to collaborate. A meeting of the committee of senior members of the Prussian national assembly has resolved not to recognize dissolution of the national assembly, but it refrained from declaring for or against the new administration.

Strikes in Full Swing. Protest strikes are in full swing in Dresden, Cassel and Gotha. Newspapers have ceased publication in Dresden and trains are not running. The various parties in Gotha refuse to recognize the new Berlin government.

Silesia, an independent government has been formed under the direction of the socialist, Herr Phillips. In the Rhine valley and Westphalia industrial regions, the communists have proclaimed a counter revolution and general strike.

Leaders of labor councils have been formed at Essen and Dortmund. Heavy fighting continues at Frankfurt.

Cabinet Plan Outlined. The Kapp government's declarations on the agreement negotiations says a cabinet will be formed of professional ministers, including professional ministers of the government, and new elections for the reichstag and the Prussian national assembly will be held in two months and subsequently an election for imperial president by the people.

END OF CRISIS REPORTED Agreement Between Rival Factions Said to Have Been Reached. PARIS, March 15.—A Berlin dispatch received tonight stated that an agreement has been reached between Chancellor Kapp of the new government and Gustav Noske, minister of defense in the Ebert government, and that the government crisis in Germany has ended.

The reported agreement is declared to have been reached on the following basis: Kapp abandons his intention of forming a cabinet. A new cabinet is to be formed, composed of experts. New elections to the reichstag are to be held within two months. A new president will be elected, not by the reichstag but by the people. Pending the election Friedrich Ebert is to remain in power.

The economic council and the expedition council are to be transformed into a second chamber, to be called the chamber of labor. Luetwitz "in Kaiser's Old Gang." WASHINGTON, March 15.—General von Luetwitz, commander of the military forces of the new German government, was described today as "one of the Kaiser's old gang" by Herbert Hoover, who said he had found it necessary to deal with the officer during the war as one of the principal German military officials in occupied Belgium.

GENEVA, March 15.—Cheers for the ex-Kaiser and other expressions of satisfaction at the overthrow of the Ebert government in Berlin were given today by 320 German officers. The Germans were prisoners in France and on arriving here on their way home to Germany learned the news of the revolt.

MIDDLE WEST RAKED BY SNOW AND WIND

Blizzard Sweeps From Montana to Great Lakes.

GALE REACHES 60 MILES

Loss of Livestock Is Feared; Storm in North Dakota Is Worst of Season.

BISMARCK, N. D., March 15.—North Dakota was in the grip of the worst blizzard of the season tonight. O. W. Roberts, director of the federal weather bureau here, reported the lowest barometer the state has known for 45 years. According to Mr. Roberts, the wind velocity at 6 o'clock was 60 miles an hour and the temperature had dropped from 33 degrees to 21 above since noon.

There was four inches of snow on the ground. Mr. Roberts said the storm extended from Montana to the Great Lakes, as far south as Northern Iowa. Concern was manifested not only among owners of livestock and other property but among politicians preparing for the presidential preference primary tomorrow.

FARGO, N. D., March 15.—Following a day of high temperature and great humidity, a blizzard swept down on Fargo early tonight. The storm, starting with sleet and a high wind, turned to snow. Roads are in bad condition due to the snow melting in the last 48 hours, and ice started to move in the river.

GRAND FORKS, N. D., March 15.—The storm which began in the western part of the state early this morning hit Grand Forks tonight. By midnight the city was in the grip of a real blizzard, a terrific wind whipping an exceedingly light snow about in a manner that recalled the big storm of last November. Night trains for the west were late tonight.

MILWAUKEE, Wis., March 15.—The storm which began in the north of Fond du Lac was completely stopped tonight as the result of high water, which washed out bridges on both the Northwestern and Soo lines, as well as interurban tracks.

Train No. 116 on the Chicago & Northwestern road was derailed about 10 miles north of Fond du Lac this afternoon, after the rising waters of a small creek had washed out a part of the tracks. Twenty persons were reported injured, none of them seriously.

Between Fond du Lac and Oshkosh the flood is reported at its worst. In the Northwest and Soo lines, threatening culverts, and no trains are being run. The interurban line from Oshkosh to Neenah is entirely submerged. It was reported tonight.

Flood conditions prevail in the outlying districts of Oshkosh and Neenah. DENVER, March 15.—Stories of heavy property damage, crippled wire service, snowdrifts and a blizzard came into Denver today in the wake of a heavy wind storm which swept the Rocky mountain states all of yesterday, last night and today. Tonight the wind died down.

KAISER MAY BE LEADER

LAXITY OF DUTCH GUARD IS HELD PROVEN IN PARIS. Correspondent Says Hohenzollerns Have Been in Constant Touch With Revolt Leaders.

(Copyright by the New York World. Published by Arrangement.) PARIS, March 15.—(Special Cable.)—Despite the denials emanating from official circles in Holland that the former Kaiser and the former crown prince have not been in communication with Berlin, the World correspondent is informed authoritatively, through sources close to the Benckin family, the ex-Kaiser's hosts at Amerongen, and persons in near touch with the ex-crown prince at Wieringen, that both Hohenzollerns have been in almost constant communication with Berlin since the armistice.

Visitors to them have come from Berlin and gone there practically at will. Members of their households have traveled back and forth between Berlin and Holland and it is even said that letters and telegrams have been exchanged freely with Von Hindenburg Ludendorff and other members of the old regime. No one familiar with the present surrounding of the Hohenzollerns and the laxity of their Dutch guard doubts for a moment that either the former Kaiser and the former crown prince could re-enter Berlin at any time he might desire without interference by the Dutch.

The ex-crown prince has often boasted that he expected to return to Berlin as soon as the "reactionaries," Ebert and his party, were ousted, and no one who knows the situation in Holland would be surprised to hear any day that the former crown prince is safe in Berlin.

BRITON RAPS PRESS AS FRICTION CAUSE

End to Anglo-American Irritation Is Urged.

MUTUAL RESPECT ASKED

England Is Regarded as Accused of "quite Impossible Villainy" With Reverse Also True.

LONDON, March 15.—(By the Associated Press.)—Sir Auckland Geddes, new ambassador to the United States, attacked newspapers which stir up Anglo-American irritation at a dinner given in his honor tonight.

"It is an essential condition of the working of the magic of peace, so necessary to our civilization," he said, "that the two great English-speaking communities should sail forward in mutual respect and understanding to the uncharted seas of the future."

"To labor to secure that mutual respect and understanding is a man's work, and I am not insensible of the high privilege, which it is, to have been given a chance of so serving this day and generation."

Work for Peace Advocated. Expressing the wish that "some word might be spoken which would hasten development of an understanding of the problems and difficulties of Great Britain by America, and the difficulties and problems of America by Great Britain," the ambassador said "it does not help to respect or understand 'our peace' where there is no peace, or love and trust if love be cold and trust worn thin. I hope and believe that this is not the case with any considerable section of either of the great English-speaking communities."

"But it would be criminal madness not to recognize that there are pamphlets printed and daily and weekly papers published, which disseminate love and confidence so thoroughly that one is forced to believe there is neither love to disassemble nor trust to conceal in the minds of the workers."

Charges by U. S. Repeated. "There is nothing I regret more than to read in some American papers an article accusing this country of quite impossible villainy, unless it be to read in some British paper the article reversed. It is so fatally easy to criticize, particularly at a time like this, when human thought is boiling."

"Let us remember that it is quite impossible for two peoples to see every question from the same angle. But let us stick fast to, let us keep a firm hold upon the big things history has to teach us, that somehow both peoples have driven the furrow straight and true and most astonishingly parallel in their efforts to cultivate civilization."

"There is no evidence that I know to suggest that either is now contemplating a departure from its traditional husbandry."

PHONE OPERATORS MEET

President of Union Urges Greater Enthusiasm for Organization. Portland telephone operators were criticized last night by Julia S. O'Connell, national president of the operators' union, because they failed to maintain their organization at the same strength it attained during last summer's strike.

Miss O'Connell, who is from New York and is making a tour of the coast, spoke before a small gathering of the girls in W. O. W. hall, urging them to reorganize at once.

The speaker traced the evolution of the 10-cent rate of a few years ago to the present rate of 15 cents, but complained that the telephone company has taken credit for this reform. In fact, she said, that every time it learns of a contemplated rate by the union it changes things for the better to cover up any spirit of unrest and prevent more operators from organizing.

TEACHER PAY RISE URGED

Education Commissioners From 8 States Gather. NEW YORK, March 15.—Commissioners of education from eight states, conferring today on the teacher shortage, adopted a resolution urging state boards to "increase salaries to a point that will meet the cost of living and attract to the teaching profession as a life work capable men and women who are now entering more remunerative positions."

States also were urged to supplement their school appropriations so that every child may be taught by a teacher who has had at least two years' normal school training, based on a high school education.

Husband Is Brought Back.

ROSEBURG, Or., March 15.—(Special.)—Sheriff George E. Quine returned last night from California, bringing with him John R. Churchill, husband of Mrs. Churchill, charged with non-support.

Your hair needs Wildroot too, John

"You are getting a little bald spot right on the top of your head and you have a lot of dandruff."

"Since I have been using Wildroot regularly, I haven't a bit of dandruff and my hair has practically stopped coming out."

"This is the way I use it:—I moisten a cloth with Wildroot and wipe my hair from the roots clear to the ends. It brings out all the natural beauty of my hair—making it soft and lustrous."

Protect your hair, too. Begin using Wildroot now—and use it regularly.
