BOARD UNDERTAKES WAGE ADJUSTMENT

Demands of Railroad Workers Are to Be Considered.

UNIONS CLAIM VICTORY

Operators Declare Policy to Be to Get Specific Facts, Not Glittering Generalities.

WASHINGTON, March 22 .- Formation of the joint railroad wage board was completed tonight by the conference committees representing the railroad corporations and the 16 rail-road unions, which elected E. P. Whiter of the Pennsylvania railroad. chairman. The bi-partisan body is ready to consider wage demands of the 2,000,000 workers which have been twice before the president without a

The board today began re-examination of the voluminous records and data on workers' claims gathered by the wage adjustment boards of the railroad administration. The corpora-tion representatives agreed to include these in the board's wage records and to employ them as far as practi-cable, as a basis on which to discuss

the controversy.

According to indications, the board will not deal with the question as a whole until minor points of difference are climinated.

The suggestion of the president that

the board should give close study to the relationship between present rail-road wages and the cost of living and also to the pay of labor in other in-dustries probably will not enter into the conference until toward the end. The disposition seemed to be to talk of "specifics rather than generalities" at the outset and on this point, union

leaders said, they had won. Railroad representatives explained that the association of railroad ex-ecutives had instructed them to enter the negotiations "in a spirit of co-operation," but they reminded the union leaders that financial respon-sibilities rested upon the corporations which must be considered when wage claims were under consideration. Reference was made, it was said, to the hearings now before the interstate commerce commission and the state-ment made that wage increases hinge on higher rates.

Union leaders scouted the report that their demand would aggregate an additional \$1,000,000,000 on railroad operating expenses.

VALUES CAUSE OF DISPUTE

Owners and Workers Differ as to Method of Getting Data.

WASHINGTON, March 22.-Railroad executives and employes differed widely before the interstate commerce commission today as to the methods to be employed in determining the roads' valuation on which an annual net return of 5th per cent is guaran-teed for two years by the transpor-

Congress has made it imperative that an immediate valuation be made, A. P. Thom, general counsel for the Association of Railway Executives, said. Property investment accounts and material and supply accounts, he declared to be conservative figures now susceptible to use. Data being

gathered by the commission are in-complete, he said, and should not be considered at present. Estimating at \$20,000,000,000 the value of the properties, Mr. Thom de-clared overstatements in the rail-roads' accounts filed with the commission would be more than offset by the rise in values in the last two

Speaking for railroad employes, Donald R. Richberg, representing Glenn E. Plumb, author of the Plumb plan for railroad ownership, expressed surprise that the executives and sesurprise that the executives and se-curity owners should advocate a con-struction of the act "not as it is writ-ten, but as it would have been but for a misconception." He said the interest of the employes in the road's valuation lay in assuring a return sufficient to provide operating ex-penses which could meet the reasonable wage requirements of the work-ers. He denied congress intended an immediate valuation should be made and called the property investment account evidence of "minor impor-

Amount Collected to Date Larger Than Last Year Because of Rate Being 20 Per Cent Higher.

Many a wall is going up from the taxpayer these days when he finds at the office of Sheriff Huriburt, tax collector, that he must pay a tax on his flivver which he thought was included in the license tax paid for 1920 by the provisions of a law passed by the 1919 legislature.

But it is all right, courteously ex-plains E S. Huckaby, chief deputy in the tax collection department, for the license includes the tax for a year in advance, whereas the usual tax collection is for the year past. The Increase in automobile licenses to cover the tax did not go into effect until January 1, 1920, and is for the current year. The automobile tax for 1919 is still due and is included on the

Though \$14,818 more has been collected to date in taxes than in the same period of 1919, individual payments have been only 29,400 compared with 22,755 for the same time a year ago. The explanation is that taxes this year are 20 per cent higher than they were last, the roll calling for \$12,007,000. Collections are \$1,259, 993.27 compared with \$1,245,175.89 at this time in 1919. The deadline or payment of first installments is April 5.
