

BORAH REITERATES CAMPAIGN CHARGES

Wood Asked to List All Expenses, if He Replies.

PERSONAL MESSAGE SENT

Statement of Facts Above Signature Wanted to Explain Any Erroneous Allegations.

WASHINGTON, March 29.—Senator Borah, republican, Idaho, reiterating his charges of excessive expenditures in the interest of Major-General Leonard Wood's candidacy for the republican presidential nomination, telegraphed General Wood today, declaring that unless the practices of the Wood campaign were corrected they would "bring disgrace upon your name, upon your party and upon your country."

"Information from various states," the message added, had convinced Senator Borah that his previous statements about the Wood campaign expenditures were "modest."

Leg of Expenses Asked. The message follows: "Treas discharges state you claim the attack upon you was to sway the voters of Michigan. You are in part correct. It was intended to sway the voters not only in Michigan, but in the United States. I know of no other tribunal to which to appeal to correct these practices. But if you can only be effective provided the facts I stated are correct. It is within your power to give to the people of Michigan and other states a list of your subscribers, the amount you are expending, the amount which you did expend in South Dakota, the amount which you propose to expend, for instance, in Ohio and Illinois."

Signed Statement Wanted. "If you will make a statement of these facts over your signature I will correct any erroneous statements which I have heretofore made. The material which is coming from South Dakota, Illinois and Ohio convinces me that I was modest in my statements."

General Wood, if you are not familiar with what is going on in your behalf for the presidency, I take leave to assure that unless you familiarize yourself and correct it, you will bring disgrace upon your name, upon your party, and upon your country."

LOWDEN BIDS FOR ILLINOIS

Presidential Nomination Campaign Opened in Home State.

SPRINGFIELD, Ill., March 29.—Governor Frank O. Lowden opened his campaign in Illinois as a candidate for the republican nomination for president with an address tonight. "For more than 20 years," he said, "I have lived in Illinois. The people of the state are familiar with my record. They have honored me greatly and for this I am deeply grateful. I desire their good-will and approbation more than I desire any office. Much as I would like approval of the people of my home state at the primaries, I shall make no attempt to match the expensive campaign being waged against me. I shall neither employ billboards nor the advertising columns of the press."

160 KILLED IN TORNADO

(Continued From First Page.)

Troops patrolled Elgin, Melrose Park and Wilmette today and police details from Chicago were on guard at Dunning.

Wire communication with many communities, blighted by the tornado, still was paralyzed today. Every public relief agency was organized to aid victims.

In several places American Legion posts sent volunteers to watch for looters and assist in relief work. A survey of the devastated districts was begun today by Henry J. Cox, weather forecaster.

Two Storms Cause Tornado.

The tornado was the result of a combination of two storms, he said. One developed in Alaska, traveled through British Columbia and joined a storm from the southwest, which developed in southern Arizona and Nevada.

This combination, Professor Cox said, resulted in a rotary motion, which formed eddies and caused a tornado.

TOWNS EMERGE FROM DEBRIS

Relief Measures in Ohio Are Under Way; Homes Guarded.

TOLEDO, O., March 29.—Genoa, Raabs Corners and Swanton tonight began to emerge from the wreckage caused by the cyclone late Sunday night. Two persons were killed and 14 seriously injured at Genoa. At Raabs Corners four persons met death and more than a score were hurt. More than a score were injured at Swanton.

At Raabs Corners, a hamlet, almost every building was leveled, while the western section of Genoa was demolished. At Swanton practically every building was marked in some manner by the storm.

Members of the American Legion post are guarding the ruins of the 20 or more demolished homes. Relief measures were put under way and a fund was started at Genoa to build new homes. The section of the town destroyed was occupied by the poorer classes.

Some weird antics were played by the storm at Genoa. At the home of Don Bell, principal of the high school, a two-months-old baby, sleeping with its parents, was lifted from the bed and thrown across the room on a pillow, depositing him so easily that he was not awakened.

Otto Steindam, whose house was blown off the foundation, was sitting in the living room with one of his children in his lap. His wife was in another room with the other child. The house was thrown back 30 feet. There was little shock, however, and no one was scratched. The furniture was not even moved out of place. The home of Hiram Johnson was swept away. His wife was carried

across the street, where her body was found in a mass of wreckage at a neighbor's former home. Johnson is in a serious condition.
