CLASH IN CHINA LOOMS

WARLIKE SOUTHERN FACTION CAUSES APPREHENSION.

Fear Felt That New Political or Military Coup Is Coming in Canton Region.

WASHINGTON, April 1.—Increasing domination of the militaristic faction in southern China has been noted here and officials are frankly worried over the outcome. The north China faction has demobilized a portion of its army, made possible by the advance of several million yen by Japan, which is regarded as significant in connection with the continued increase in strength of the military faction in the southern part of the republic.

The sudden departure from Canton of Wu Ting Fang, former Chinese minister to the United States and one of the most prominent leaders in the anti-militaristic faction in south China, has been reported to the state department. Wu and his son, closely identified with his father in political affairs, were said to have become disgusted with the growing strength in south China of the military party and were said to have taken with them from Canton nearly 750,000 taels of the customs surplus, which, experts here said, would be enough to finance another revolution against the government.

When your food does taste good it is a sign of good or returning health; shows that the blood is becoming richer, routing scrofula, eczema, rheumatism and other diseases, and that the system is being built up to overcome that tired feeling, and the prostration after influenza and fever. The one medicine that can legitimately claim to do all this—is Hood's Sarasaparilla. If a mild laxative is needed, take Hood's Pills; an active cathartic, more Hood's Pills.—Adv.
