

CHRISTIAN SCIENCE REFORMS WANTED

Sweeping Readjustment in Practice Recommended.

BOSTON RULE IS ISSUE

Memorandum Addressed to Members Intended to Settle Strife Within Mother Church.

NEW YORK, April 1.—(Special)—A "memorandum of necessary initial reforms in the mother church" of the Christian Science faith has been prepared by John W. Dittmore for small distribution today among 46,000 members of the church throughout the world. Mr. Dittmore is still senior member of the board of directors, according to the findings of Judge Frederic Dodds, master in the Christian Science litigation before the Massachusetts supreme court.

A copy of the memorandum, which is addressed to "the members of the mother church, the first church of Christ, Scientist, in Boston," was received here today. In the suggestions advanced by the board of directors, readjustment of the affairs of the mother church and the Christian Science Publishing Society are provided for. Thirteen proposed changes are enumerated. Briefly, they are as follows:

Sweeping Changes Suggested.
A return to the "existing" form of government as provided for the mother church by Mrs. Eddy.
"Such change in the personnel of the board of directors as will produce a new and more progressive point of view."
The lieu of the annual mother church meetings in June of each year, there should be published annually in booklet form for general free distribution a thorough analytical statement of the activities of all church and allied departments, this report to include full information regarding the Christian Science Publishing Society, Benevolent association, trustees under Mrs. Eddy's will, etc.
"Such changes in the board of leadership and method of providing lectures and lectures as will produce a higher, more efficient and more spiritual standard."
"Abolition by the Christian Science board of directors of the present committee of 'mental workers.'"
A committee on finance serving in such capacity as the mother church, and paid, if at all, a nominal salary to cover their expenses.
Editorial Control Asked.
"Control of the editorial policy of all the Christian Science publications issued by the publishing society for the mother church, to be under the supervision of the board of directors in accordance with the provisions of the mother church manual."
"The trustees to control the business of the publishing society on their own responsibility and in accordance with whatever legal rights may be accorded them by the final decision of the supreme court of Massachusetts in the present litigation."
"A permanent 'water-tight' settlement of the mother church to which recommendations and criticisms from the field may be sent and sympathetically received and information regarding the same returned."
"A general policy of discouragement toward any additional centralization of power or authority in 'Boston' and a definite encouragement of greater simplicity in the government of the mother church and its branches. A more definite spirit of 'local self-government' or congregationalism throughout the field."
"The Christian Science Benevolent association to continue as a separate corporation and to be kept distinct from the mother church. The association to be reorganized on its present and practically insolvent condition and operated both scientifically and benevolently."
Official Atmosphere Revealed.
Mr. Dittmore, in his memorandum, reviews the state of the church now existing and says:
"Almost imperceptibly has an 'official atmosphere' developed in the mother church in which the tendencies and characteristics of the present ecclesiastical history are in evidence to those not consciously or unconsciously satisfied with less than the clear apprehension of practical demonstration of Mrs. Eddy's inspired discovery of this age, that principle is God and that Christianity is neither form, ceremony nor powerful church organization, but is demonstrable science."
"It is not a theory, but a definite condition, which must now be brought to a just and right solution if the Church of Christ, Scientist, in its present form is to endure."
He adds that "it has now become apparent to everyone who has followed the course of the litigation without prejudice that the laws of Massachusetts governing the trusteeships contain certain provisions not known, or at least not considered heretofore by Christian Scientists, which neither individual church members nor the courts can overlook or ignore."

Decision Not Clarified.
Whether the decision of Justice DeCourcy of the Massachusetts supreme judicial court on Tuesday in rejecting the petition of the Christian Science delegates will help clear the smoke of battle within the Scientist denomination, is said by members of the faith here to be somewhat problematical.
Meanwhile, the delegates who brought their case for leave to intervene in the litigation between the directors and the trustees, in the name of Mrs. Emilie B. Hullin of Brooklyn, a first member of the mother church, declare the matter is not ended so far as their efforts to intervene are concerned. Both Mrs. Hullin and Miss W. Dawson, of counsel for the delegates, say there will be certain further action.
Mr. Dawson said the decision would be appealed by the delegates to the full bench of the Massachusetts supreme court. What additional legal action will be taken has not been decided, he said.

MEMBERS WOULD INTERVENE

Preservation of Manual Object of Suit by Edwin A. Krauthoff.

MEMBERS WOULD INTERVENE

BOSTON, April 1.—There was a new development in the litigation involving the Christian Science church and the publishing society when Edwin A. Krauthoff of Washington, D. C., filed a suit for intervention in behalf of himself and Mrs. Krauthoff as members of the church.
The object of the suit is said in the petition to be the preservation of the church manual as the system of government of the church established by Mrs. Eddy, and the preservation of the church and subject to the control of its constituted authority. The petition asks that the trustees of the publishing society be enjoined from further refusal to recognize the controlling authority of the mother church in respect to its periodicals and literature.

COUNTY GETS SNUG SUM

SECRETARY OF STATE HANDS OVER \$141,133.43.

Percentage of Proceeds of Motor Vehicle Law Will Be Used for Improving Multnomah Roads.

County Treasurer Lewis Wednesday received from the secretary of state a warrant for \$141,133.43, which is Multnomah's share of the money derived from the motor vehicle law, as provided under the statutes of 1919.
The motor vehicle law, as amended at the 1919 session, provides that 25 per cent of the money received from any one county shall be returned to the county for road purposes, after the administrative expenses thereon have been deducted by the secretary of state. The other 75 per cent goes directly into the state highway fund.
The payment from the secretary of state yesterday is for the present year, up to March 15.
Motor vehicles registered in this state brought in a revenue of \$582,351, up to March 15. After the administrative expenses were deducted, the state highway commission received \$423,556.29, or 75 per cent.
The amended motor vehicle law says that the money turned over to this county may be expended for the construction of roads exclusively within the county, or may be used in building roads coming into the county if the construction and maintenance are under the direct supervision of the state highway commission.

SNOW FALLS OVER STATE

FRANKISH MARCH WEATHER PLAYS UNUSUAL TRICK.

Fear Felt by Fruit Growers That Budding and Blossoming Trees May Be Injured.

Concern is felt by fruit growers that the sudden drop in temperature that has been felt over the Pacific northwest may do injury to the budding fruit trees. The prevailing sunshine of March started the swelling of the buds of many varieties, but it was the opinion of many persons yesterday that a hard frost resulted from the temperature of Tuesday night.
The range of temperatures at Portland for the 24 hours ending at 3 P. M. yesterday was between five and six degrees lower than for the preceding day. The high temperature was 43 degrees and the low 33, just one degree above freezing at the weather bureau. Ice formed in some localities. The rainfall was .15 of an inch, the deficiency of rainfall since September 1 standing at 11.30 inches. Notwithstanding the preponderance of clouds with light rain, hail and slight flurries of snow, typical of the last gasp of a month that is reputed for unwelcome weather, there were four and three-quarter hours during which the sun smiled defiance to Jack Frost.
Contaminating River Charged.
ASTORIA, Or., April 1.—(Special).—A complaint sworn to by Deputy Fish Warden Larson was filed in the justice court yesterday charging the Pacific Power & Light company, and P. B. Bailey, its manager, with permitting crude oil and lampblack to flow into the Columbia river from the company's gas plant. The trial of the case was commenced this afternoon and then continued until next Monday.
Price on our best domestic coal unchanged. Edleisen's, Edwy. 70.—Adv.

Y. W. DRIVE GOES SLOWLY

LITTLE MORE THAN ONE-THIRD OF SUM RAISED.

Important Social Service Work Will Be Injured Unless Full Amount of \$40,000 Is Obtained.

"Unless Portland awakens to the urgency of the cause, and the need of the Y. W. C. A. for \$40,000 to carry on its work, the present drive will fall short of its objective," says Mrs. F. W. Stevenson, national campaign director sent to Portland to supervise the drive. "With three days of the week already checked off, total subscriptions have reached little more than \$14,000, or about one-third of the sum required to insure the continuance of the important social service of the institution."
While going through one of the larger business offices in the city, the workers asked a young woman stenographer if she could give to the "Y." Her reply was, "I certainly can't appreciate the services done for me by the association. When I came to Portland to seek work I did not know what I wanted to do, nor how to go about it. I was directed to the 'Y,' where they gave me a room, and through their help I received training and found my position, which was the only chance I had to make something of myself." She gave the collector a \$20 bill which she had saved out of her salary, so that some other girl might receive the society's welcome and advice that she did.
Mrs. E. P. Northrup's team is still in the lead with \$14,840 to its credit. Mrs. Willis Dunaway's team is second with \$916.50. The standing of the other teams is as follows: Mrs. Willam D. Wheeler, \$207; Mrs. R. Bishop, \$452; Mrs. John Pearson, \$495.60; Mrs. G. B. McCleod, \$503; Mrs. L. W. White, \$474; Mrs. E. Hill, \$315.30; Mrs. H. L. Geary, \$380; Mrs. O. W. Mielke, \$357.75; Mrs. Walter J. Holman, \$348.75; Mrs. C. W. Bell, \$318.50; and the "Flying Squadron's" \$655.50. The largest personal subscription to the "Y" received today was \$500, and there were six \$100 checks.

the business is the lack of such standardization, which allows for frequent error due to a misplaced figure in the specifications of a buyer that is not revealed until the order has been filled. It is considered a practical step toward introducing economies in operation as it would result in all factories adopting systematic methods, and when bids were invited on large orders the mill would be basing their estimates on a standardized product.

Drafting of recommendations was left to a committee of the manufacturers which will report at an early date. The next meeting will be in response to a call of the secretary.

"HUMAN VALUE" IS TOPIC

REV. W. INESON PREACHES AT PANTAGES THEATER.

Sonship of Christ Only Way for God's Fatherhood to Reach Man, Says Pastor.

"Christ and the Human Value" was the subject of Rev. W. F. Ineson, pastor of the Sunnyside Methodist Episcopal church, in his address at the noon meeting at the Pantages theater yesterday held under the auspices of the Portland Federation of Churches.
Mr. Ineson said, in part: "Jesus Christ did two things when he came here on earth that made his advent to this world unique. He declared the true spirit of man, and he manifested the true spirit of God. He declared that God was the Father, but he lived the life of the Son of God. It is absurd to think that Jesus attempted to live the life of the eternal father only to the extent that the fatherhood of God shows forth in Christ's perfect sonship. I do not know of any way for God's fatherhood to get out into this world except through sonship and Jesus Christ was the son of God. He might be truthfully said that he was a son among many brethren, but he had his sonship in such a full and complete way that the fatherhood of God got into human life as it had not done before his day and has not done since. Therefore we give to Jesus Christ pre-eminence among men."
Mrs. E. P. Northrup's team is still in the lead with \$14,840 to its credit. Mrs. Willis Dunaway's team is second with \$916.50. The standing of the other teams is as follows: Mrs. Willam D. Wheeler, \$207; Mrs. R. Bishop, \$452; Mrs. John Pearson, \$495.60; Mrs. G. B. McCleod, \$503; Mrs. L. W. White, \$474; Mrs. E. Hill, \$315.30; Mrs. H. L. Geary, \$380; Mrs. O. W. Mielke, \$357.75; Mrs. Walter J. Holman, \$348.75; Mrs. C. W. Bell, \$318.50; and the "Flying Squadron's" \$655.50. The largest personal subscription to the "Y" received today was \$500, and there were six \$100 checks.

HOVENDEN PIANO CO.

146 Park Street, Between Alder and Morrison.

Anges sent out on the G string had the beauty and depth of harp notes. "Les Cherubins" (Couperin-Salmon) was interpreted with charming art. The fingering in the "Konzert Capriccio" (Saint-Saens) and "Polonaise" (Wieniawski) was little short of sensational and drew the audience a desire for more. They then could not get enough of Thibaud, and from him he owned them. His extra numbers were: "Assorted" (Debussy-Gruber), "Neldrome" (Giraldi), "Scherzando" (Marick) and "Haydn-Quartet" (Saint-Saens). Thibaud showed that he is a great violinist.
The piano accompanist was L. T. Grumbler and he played with consummate ability. The recital was one of the Ellison-White series.

REPUBLICANS FORM CLUB

Clarke County Stalwarts Organize for Next Campaign.

VANCOUVER, Wash., April 1.—(Special).—The Clarke County Republican club held a special meeting today and reorganized for the campaign. Charles Greely of Ridgefield was elected president, John Blackburn of Ridgefield secretary and F. W. Tompkins of this city executive secretary. The following were elected vice-presidents: Arthur B. Newell of Camas, W. H. Dickson of Battle Ground, George Y. Moody of Washington, Curtis Anderson of La Center, H. J. Lancet of Yakolt and Dr. R. S. Stryker of Ridgefield.
The executive committee is Donald McMaster, chairman; Fred W. Brooker, A. W. Calder, Charles Greely and F. W. Tompkins.

Reckless Driving Charged.

J. Helser, 30, was arrested at Sixth and Irving streets Wednesday night charged with reckless driving following collision of his automobile with a wooden arch over the street. The base of the arch was knocked several feet by the force of the collision and Patrolman Lindholt, who arrested Mr. Helser, says that in its present condition the structure is dangerous to traffic. Mr. Helser says that he hit the arch while dodging a street-cleaning wagon.

Boys Charged With Theft.

Three boys were arrested Wednesday night by Inspector Smith and turned over to the juvenile court on a charge of breaking into the harness shop of T. J. Krenner 4339 Powell Valley road, and stealing several articles. The boys are Elmer Dorden, 13; Edgar Lawrence, 15, and Jacob Zerby, 16. The theft is alleged to have occurred March 29.

T. L. Heninger Dies at Hospital.

T. L. Heninger, 512 Corbett street, died at the Good Samaritan hospital Wednesday night as a result of injuries to his arm several weeks ago. Funeral arrangements have not been completed.

NEW FREIGHTER IN WATER

ARCTURUS, FIRST OF FIVE, IS SUCCESSFULLY LAUNCHED.

Work Begins Immediately on Changing of Ways to Accommodate 12,000-Ton Tankers.

VANCOUVER, Wash., April 1.—(Special).—The Arcturus, 9560-ton steel freighter, built for the Green Star line, was launched here today at 12:30 o'clock with unusual ceremony, this being the first one on a contract of five being built for this company by the G. M. Standifer Construction corporation. Mrs. H. R. Struthers of San Francisco was the sponsor. The girl was a gold brooch studded with diamonds and pearls. The bouquet was especially handsome, being American Beauty roses.
The Arcturus was put into the water four months and 13 days after the keel was laid. She is 415 feet long. A huge green star is painted on the immense smokestack, which can be seen many miles at sea.
In addition to the G. M. Standifer Construction corporation officials, were Mr. and Mrs. H. R. Struthers and Mrs. H. R. Struthers Jr. of San Francisco; Mrs. T. M. Struthers, mother of H. R. Struthers, of Seattle; Mrs. M. H. Sibley, Howard G. Coogrove, north-west coast representative of the United States shipping board; Captain T. Anderson, port captain for Struthers & Dixon, sponsor; Mrs. Sherry Portman and Walter Lang, for Loyds of London. George Brown is resident representative of the Green Star line of New York.

Work Begins Immediately on Changing of Ways to Accommodate 12,000-Ton Tankers.

The work of changing the ways to accommodate the 12,000-ton tankers that have been built over the Pacific may begin at once and it is expected that the first of the three keels will be laid some time in May. These tankers will be 470 feet long.

BOX STANDARDS DESIRED

MILLMEN EXPECT TO DRAFT SHOOK REGULATIONS.

Economy of Operation and Interchange of Parts Are Features Desired by Originators.

At the meeting of box manufacturers called by the West Coast Lumbermen's association and held at the Hotel Portland Wednesday about 25 manufacturers were present. M. Pratt of Tacoma was the chairman and W. C. Strong of Seattle, manager of the department, was secretary.
It was the decision of the box manufacturers to endeavor to work out a system of standardization which a catalogue of standard box sizes, measurements and specifications will be established and which will be observed by all factories. It is the design to make this so that an order for boxes will need no other designation for a certain sort of box than a number, which will signify what is wanted.
A great deal of the difficulty of

MAN IS SAFE 3 MINUTES

Hospital Patient Returns After Short Free Period.

Three minutes after he left St. Vincent's hospital, where he had been a patient for several weeks, T. W. Ingram returned to his home. He was present at a street car and automobile collision at 8 o'clock Wednesday night and was on his way back to the ward.
Ingram, an overseas veteran who received an injury to the right leg, had undergone an operation. Yesterday he received his discharge—both from the hospital and the army. J. F. Reiche of New York called on him in a touring car Wednesday night.
At twenty-third and Washington streets a few blocks from St. Vincent's, the collision occurred with an inbound street car. Ingram was slightly injured, but his return to the hospital seemed advisable. Relics sustained a cut lip.

Heilig.

MUCH of that quiet, polished elegance that lives in French art is apparent in Jacques Thibaud's violin playing. Thibaud, heralded as a young violin virtuoso, appeared in concert last night in the Heilig and charmed a large audience. In personal appearance and stage behavior Thibaud is calm and non-sensational. He gives you the idea that he has a quiet music treat in store for you and fulfills the contract Wednesday night in addition to the big Lalo "Symphonie Espagnole," his programme contained seven other selections with four extra numbers.
For the first four selections Thibaud played very lovely, silky tones and played without being much stirred. The truth was that Thibaud had not seen fit as yet to stir them up with music fireworks. But he did so in rendering the well-known "Prelude and Allegro," from an arrangement by Kreisler. It has the true fire and was delivered with thrilling intensity and masterful authority. It made seven other selections with four extra numbers.
The Lalo "Symphonie" glowed with warm color, and some of the mes-

CHARITY CHEST DESIRED

CITY CORPORATION IS PROPOSED TO ADMINISTER FUNDS.

Scheme is to Raise Money for Various Deserving Causes and See to Proper Use.

Pursuant to the call of Mayor Baker nearly 100 citizens met in the green room of the Chamber of Commerce Wednesday night to consider a plan proposed by the president's council of the civic clubs for promoting a scheme for raising funds for public purposes. A community organization that will include in a civic partnership membership of clubs, individuals, firms and of the city government is to accomplish centralization in the accumulation of funds for patriotic, charitable, philanthropic and benevolent purposes and to expend, disburse and handle such funds.

Temporarily the organization has been called the Portland community chest, but the plan is that it shall be incorporated, with its powers definitely defined.

E. N. Strong of the Ad club was named chairman of a committee with E. R. Wiggins of the Kiwanis club, W. E. LaRoche representing the city government and George R. Funk to act in the effort to bring about the co-operation of citizens to make the proposition a success. At the session last night Marshall N. Dana acted as chairman and Milton R. Klepper as secretary.

All persons who are interested will be invited to attend the next meeting to study the proposed constitution.

THEFTS LAID TO CLERK

Clarence Abel Said to Have \$1000 Worth of Stolen Property.

Clarence Abel, clerk, was charged with larceny from a dwelling Wednesday night in a warrant issued by Deputy District Attorney Detch after inspectors are said to have found nearly \$1000 worth of stolen goods in his room in a downtown apartment house.

Some of the goods found in the man's room is said to have been stolen from the apartment of E. N. Meyer in the Douglas apartments, 425 West Park street, last Friday night. Lost recovered includes about 12 suits of clothes, a large quantity of overcoat numerous pairs of shoes and various trinkets.

Abel was arrested Tuesday night by Lieutenant of Inspectors Moloney when he was seen running down the street at Fourth and Oak streets with hands.

All persons who are interested will be invited to attend the next meeting to study the proposed constitution.
