

PIER DECIDES TO RUN FOR MAYOR

Commissioner Would Return to Private Business.

TERM LASTS UNTIL 1923

Several Prospective Candidates for Position Believed to be Holding Their Plans in Abeyance.

City Commissioner Pier will not be a candidate for mayor at the municipal election in November. Definite announcement to this effect was made yesterday by Mr. Pier, who says it is his desire to complete his full term as city commissioner and then return to the handling of his private business.

Many Requests Received

"As many requests have been made to me from many classes of people including different grades and occupations, asking that I present my name as a candidate for mayor of the city of Portland at the November election, I am constrained to make this announcement," reads Commissioner Pier's statement.

"I have definitely decided not to permit my name to be considered as a candidate. My only desire is to serve my full term to the best of my ability. At the close of my term I will not be a candidate for re-election, but plan to devote the balance of my days to the care of my own affairs."

Commissioner Pier's present term does not expire until July 1, 1923. He is now in control of the police bureau, finance, purchasing and several other bureaus of the city service.

Mayor Baker's Position

Recently the mayor modified his former statements in this connection, by saying that he would consider seeking to succeed himself in the event that a charter amendment could be passed, allowing the mayor to be connected with private business.

This Skin Peeler All the Rage in Society

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of mercialized wax douches has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so magnetically beautiful, artificial complexions are no longer desired. Instead of "doctored" or "offensive" skin, the skin is peeled off. The wax peels the skin gradually, in such fine particles, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is lily white, satiny, soft and smooth. It's not a patching-over-operation, but a brand new one. That's why mercialized wax has become such a rage among society folk. The wax is put on nights like cold cream and washed off mornings. All druggists have it, of course; one ounce will do.—Adv.
