

LEGAL EXAMINERS LOSE TO F. M. BLOOM

Supreme Court Orders Board to Issue License.

PLAINTIFF LONG DENTIST

Complaint Sets Forth Career of Practical Dentistry, but Without Certificate.

SALEM, Or., April 13.—(Special)—The state board of dental examiners, under an opinion written by Justice Johns and handed down by the Oregon supreme court today, is compelled to issue a permit to F. M. Bloom of Portland, to conduct a dental office in this state.

Mr. Bloom charged that he was 61 years old, a resident of Portland and a law-abiding citizen of good moral character, that he was born in Wisconsin but through his poverty was denied a college education. Because of having insufficient funds to attend a dental school, Mr. Bloom set out, he entered the offices of Dr. S. A. Garber in Iowa in 1876. Here he gained a practical knowledge of his profession. In 1888 he made application to the Iowa state board of dental examiners for a license to practice his profession and that his certificate was issued. He then continued to practice dentistry in that state for more than 19 years.

On July 10, 1919, Mr. Bloom alleged, he made application to the state board of dental examiners of Oregon for a license, but that his request was refused. As a result of the action of the board Mr. Bloom charged that he was compelled to practice without a license and that the public viewed him with suspicion and distrust.

Upon hearing the case Judge Kavanaugh of the Multnomah county circuit court, ruled in favor of the plaintiff, whereupon the state board of dental examiners appealed to the supreme court for final determination of the action.

Other opinions handed down today follow:

Nehalem Logging & Timber company appellant, vs. Columbia county—Appeal from Columbia county, suit to remove cloud from title to timber lands. Opinion by Justice Burnett affirmed.

Samuel T. Chase, appellant, vs. R. McC. Michler et al.—Appeal from Multnomah county, suit to foreclose mortgage. Opinion by Justice Benson, Judge Stapleton affirmed.

State ex rel. F. M. Bloom vs. State Board of Dental Examiners, appellant—Appeal from Multnomah county, action in mandamus to compel dental association to grant him license to practice dentistry in Oregon. Opinion by Justice Johns, Judge Kavanaugh affirmed.

RECALL OUT AT EUGENE

ACTION BEGUN TO OUST MEMBERS OF SCHOOL BOARD.

E. R. Bryson and S. M. Calkins are Targets of Parent-Teacher Association Action.

EUGENE, Or., April 13.—(Special).—Action to recall E. R. Bryson and S. M. Calkins, members of the Eugene board of education, was taken at a union meeting of the parent-teacher associations at the Junior high school last night. A committee was named to attend to the legal procedure and to obtain the names of candidates to be placed upon the ballots to take the places of Mr. Bryson and Mr. Calkins.

This is the outcome of a bitter controversy that has been waged for several months between the board and the grade teachers over salaries and the retention of W. R. Rutherford, city superintendent. A majority of the grade teachers have steadfastly refused to enter contracts to teach next year. If Superintendent Rutherford is retained, but the board a few weeks ago employed him for another year.

Mr. Bryson has been a member of the board for two years, but Mr. Calkins was appointed only a few weeks ago to take the place of W. W. Brown, who resigned, as he is soon to leave the city.

These directors were picked out as subjects for the recall because of their alleged greater activity in opposing the teachers than the other directors.

TAX ON ADS IS OPPOSED

PORTLAND CLUB ASKED TO WORK AGAINST MEASURE.

Proposed Bill Would Be Great Detriment, National Body Declares. Action Is Due Today.

The Associated Advertising Clubs of the World, with headquarters in New York, believing a proposed bill before the lower house of congress proposing to place a tax on advertising would, if it became a law, be a great detriment through the country, has sought the aid of the Portland Ad club in an effort to defeat the measure. Action will be taken at a meeting in the Hotel Benson at noon today, when a resolution will be introduced by E. C. Crawford.

A letter was received here yesterday from Richard H. Lee, special counsel of the associated advertising clubs, asking that action be taken locally looking toward its defeat. The Oregon delegation in congress has already been notified of the attitude of the Portland Ad club.

Among other things, Mr. Lee said, after a personal investigation at Washington:

Some members of the congress believe that business men are investing unwar-

anted sums in advertising to reduce their profits taxes. This is, of course, a fallacy, for advertising begets more business, and greater volume means more profits on which to pay taxes. Some members believe that a tax on advertising would reduce the space used, with a resulting saving of paper, etc. We do not believe such a result would follow, but if it did, the reduction in advertising would in turn reduce sales, and therefore, profits taxes. The measure would thus defeat its own purpose. Such a tax would increase the cost of doing business, already too high, for the public would, in the end, pay the tax. Advertising has proved itself an economic force. Through advertising, the cost of distribution is lowered. It takes the place of salesmen. Advertising is market-making. It saves time and money. The bill purports to increase revenue and to conserve the supply of print paper and provides that publication of advertising in any book, magazine or newspaper having a circulation of more than 5000 a tax equivalent to 10 per cent of the sum

In their daily talks and demonstrations, these attractive young ladies show how many dainty dishes can be prepared from the contents of an Albers Cereal package, proving that cereals can be served for lunch and dinner as well as for breakfast in many delightful ways.

There has been a great increase in the use of cereals during the past two years," says Miss Ruth Gibbs, leading lady of this crew of Miner Girls, "which proves the people realize that cereals contain more food value and are more economical than most staple foods. The quality of the Miner Brand of cereals, as well as the ease and economy with which they can be prepared into dainty dishes and their palatable qualities tend to make them popular."
