

LOWDEN IS FAVORED
BY POLL IN TEXAS

Harding Second Choice of Republican Chairmen.

ECONOMY IS BIG ISSUE

State First to Emphasize Need of Limit on Expenditures by Washington Administration.

(Copyright, 1920, by the Sun and New York Herald. Published by arrangement.)
NEW YORK, April 15.—Governor Frank O. Lowden of Illinois is the first choice of Texas for the republican nomination for president, according to the poll of the party's county chairmen.

For the second choice position Senator Warren G. Harding of Ohio just passed out Major-General Leonard Wood, although they came near running a dead heat.

William G. McAdoo is the favorite of the democrats for their national standard bearer this year, according to the reports of the republican chairmen. His boom shows some signs of cultivation.

Economy in the administration of national affairs in Washington stands out as the paramount issue in the minds of Texans, the first state in which this issue has been in the front. The league of nations, the general favorite in a majority of the other states, is well up alongside "economy" in the reports of the Texas republican leaders.

Hoover Sentiment Strong.
Hoover sentiment is strong among the rank and file of both parties. It is assumed that McAdoo will retain his original strength.

The republican presidential field in Texas is the largest of any state so far reported, except one. These are the entries in the "first choice" column, with the percentages received by each: Lowden, 40.5; Wood, 33.5; Harding, 19; Senator Hiram W. Johnson, 5.5; Senator Robert M. La Follette, 4.7; Governor Henry J. Allen, 2.4; William Howard Taft, 2.4; Herbert Hoover, 2.4; Governor Calvin Coolidge of Massachusetts, 1.7.

There were three additional entries in the "second choice" column, Senator Albert B. Cummins, Iowa; General John J. Pershing; The division of the vote in percentages follows: Harding, 23.8; Lowden, 24; Johnson, 15; Wood, 15; Pershing, 4.7; Cummins, 4.7; Knox, 4.7; Taft, 2.4; Allen, 2.4; Coolidge, 1.7; Hoover, 1.5.

Primary Optional to Parties.
Harding beats out Wood in total first and second choice by 4.7 per cent.

The 23 delegates from Texas to the Chicago convention will be chosen at district and state conventions. Texas has a preferred primary law, but this year it is optional with the parties as to whether such a primary shall be held or not. Both republicans and democrats have divided to have the primary. It is understood the republican state convention will be held on May 15, which would have been the date of the primary.

The report of the special correspondent but heard of the testimony of the republican leaders accompanying their poll reports. One said the republican vote this year would be proportionately 40 per cent larger than ever before.

"The democrats here are all at sea without a rudder," was the way one leader put it. "In the absence of an opinion from Wilson as to who should be the candidate, they do not know what to do. At least \$300,000 of democrats will vote for the republican candidate, regardless of who he may be."

The league of nations is going to be the chief issue and of prime importance is going to be economy in governmental expenditures," said another leader. "These are matters about which our people are very much concerned, and erstwhile democrats are condemning Wilson and his administration in unmeasured terms. He is very nearly the most universally hated man in this part of the country that I know. Democrats are up in the air and they do not know whom they are for, but it is believed that Bryan, if not the candidate, will dictate the nomination."

The Texas leaders went into the issues of the campaign at great length, some of them declaring that one of the important things was to get back to pre-war ideas on union labor, another that prohibition should not be but ought to be the paramount issue. Taxation and the high cost of living are active sore spots in the Texas mind. It would seem.

Former Head of Steel Strike Says Palmer Making Bid for Support of Big Business.

PITTSBURGH, April 15.—W. Z. Foster, former head of the steel strike and mentioned in Washington yesterday as the prime mover behind the outlaw railroad strike, today declared he knew nothing whatever about the railroad situation and charged that Attorney-General Palmer was "making a bid for the support of big business in his campaign for president."

"I wish to state emphatically," said Mr. Foster, "that the author of the statements intended to indicate that I was in the background of the steel strike is a liar."

Plan for Union Stock Yards Opposed at Meeting—Improvements Recommended.

LOS ANGELES, April 15.—A report unfavorable to the plan for union stockyards, but favoring yards for the handling of cattle, was formulated by the executive committee of the California Cattlemen's association, which opened its annual session here today.

Fred H. Bixby of Long Beach, president, said the majority of the members favored the association plan, which was believed the better system for the industry.

Objects of the convention were given as follows: To obtain proper recognition of the beef cattle raisers and their industry. To improve conditions as the industry. To obtain recognition of the men in the industry.

To protect business. To obtain enactment of laws for the industry and to guard against harmful laws. To obtain betterment of marketing conditions.
