Fall Follows Horn-Locking.

The significance of this incident lay in the fact that Walker deliberately locked horns with the King county republicans bent on party success and stiempted to control their actions in relation to the national situation. Himself a supporter of Poindexter for the presidential nomination, he admitted that his second choice was Johnson, but violently disputed the stand of the supporters of General Leonard Wood, who were also out in the open for Poindexter for first choice, to organize in Wood's hard the stand of the supporters of General Leonard Wood, who were also out in the open for Poindexter for first choice, to organize in Wood's hard the supporters of General Leonard Wood, who were also out in the open for Poindexter for first choice, to organize in Wood's hard the supporters of General Leonard Conditions and their voice has found expression in the party platforms.

Evidently moving on the theory that a new broom sweeps clean, they have applied if to their own house first, and leadership that does not measure up to the ideals of the new age in politics is being shown the door. The defeat of Walker, Aylmore and Perkins is proof of this and also indicates that it is "the big chiefs," the would-be dictators, who are in danger.

Just who will succeed Aylmore as county chairman has not been dis-cussed, but it is likely that the Young Men's Republican club will want to have something to say about it.

The defeat of S. A. Perkins in King.

It might happen that the king, county votes could be made to the returns of the various county conventions and demonstrated the climination of destructive factionalism.

What is more to the point, however, is the vigore with which the parity applied itself to the task of setting its domestic, affairs in order. The actions of the various county conventions give a hint of what is contemplated in the demand for new leadership. The turnover already may be likened to a downfall of dign. Thurston county, where Perkins contemplated in the demand for new leadership. The turnover aircady may be likened to a downfall of dignitaries and constitutes the repudiation of the old sectional forces that split the party wide open in 1912. In this sweeping demand for new men and methods to bring the reunited party to victory in the fall campaign, the rank and file have been not slow to act and the result is that several pedestals have been toppled over and their fdols amushed.

Eliminates All Waste

Home economy is always a matter of big moment; particularly today with the high cost of living the most talked of topic.

An eastern city conducted a school of Household Art and Science to point a way by which harassed housekeepers might make their incomes balance the high cost of living. Demonstrations and lectures tended to point out the enormous waste resulting from the purchase of cheap and inferior substitutes for standard articles.

In BLEND FLOUR we offer the housewife a breadstuff which eliminates all waste. Actual baking tests, scientifically conducted, demonstrate that it makes more and larger loaves of better bread to the given amount than other flours.

It costs you a few cents more per sack because it costs us a few cents more to produce this high grade, blended flour, but it COSTS LESS PER LOAF.
