Case Presented Best of All Says Admiral Benson.

EAST SEEKING OPENINGS

Congregational Pastor Addresses Chamber of Commerce Against Restoring Capital Punishment.

That Portland is on the eve of great commercial growth, the devel working in harmony everlastingly staying on the job in the campaign for more shipping and greater harbor development, was the declaration of W. D. B. Dodson, executive secretary of the Portland Chamber of Commerce, who was the speaker at the regular weekly luncheon of the members' forum of the club yesterday noon.

Mr. Dodson recently returned after a trip of two months spent in the

a trip of two months spent in the cast and middle west in the interests of Portland's maritime and industrial expansion. He expects to go east shortly for further work of a similar nature. Mr. Dodson particu-larly urged that the fact be kept in mind at all times that the "entrance to your harbor is the key to your house," and declared that the Columhis channel should be kept open for vessels of the greatest draft every month in the year.

Portland Entitled to Ships. In his report Secretary Dodson told of a session at Washington with the members of the shipping board, quotmembers of the shipping board, quoting Admiral Benson, chairman of the board, as declaring that Portland has presented the best case as to why it should receive additional ships of any of the cities in the country. Portland is entitled to ships and is going to get them, he quoted Admiral Benson as saying. In addition to the two lines already provided for the two lines already provided for, that of the Pacific Steamship company of the Pacific Steamship company to China and Japan and that of the Columbia-Pacific to north China, six other steamship lines from Portland to ports on the Pacific ocean were asked for, and already offers have been received from private shipping concerns to provide these lines if the

shipping proves adequate.
In regard to lines from Portland to
Atlantic ports Mr. Dodson stated that two companies, the Luckenbach and the Pacific Mail, have guaranteed such service if the tonnage proves available.

In regard to the industrial situa-tion, Mr. Dodson stated that he had visited over 50 concerns, and that at least half of these were actively in-terested in the Pacific coast situation Strong competition to secure any in dustries which may be coming west is noticeable on every hand however, he declared, and on numerous occasions he found traces of recent activ on the part of Oakland, Seattle, Angeles and other Pacific ports. The business interests of the cast are looking more and more towards the Pacific," he said. "It is being realized that over half the population of the world is at our door, and that the oriental countries are becoming fore safe and stable from a shipping and credit standpoint

POWER COMPANIES LOSE IN WATER RIGHT FIGHT.

Decision of State Water Board Considered Victory for Irrigation Districts in Hood

HOOD RIVER, Or., April 19.—(Special.)—George R. Wilbur, secretary and attorney of the East Fork irrigation district, is back from Salem, where he was informed by the state water board that a decree, just en-tered in the adjudication of all water rights in the Hood River watershed granted contentions of irrigation districts and made sweeping decisions against claims of power concerns.

The case, which has been in litigation since 1914, involves practically the entire \$10,000,000 assessed valuation of the Hood Aiver valley, and from the property standpoint sets a record for such litigation in Oregon. The Powder river case, notable in Oregon irrigation litigation, involved a greater acreage.

The water hoard approves the original claims made by Mr. Wilbur to the East Fork irrigation districts has killed thousands in Siberia and original filing for 142 second feet of thousands are still falling victims to water on the east fork of Hood River in 1895. The Oregon Lumber company receives 223 second feet from American Red Cross party, arriving aid must be given, he said, to iron investigations and developments. The ability of this section to produce paper, furniture, lumber, agricultural products, wool, etc., is recognized, he said, and an influx of eastern capital grants the districts five years for expensions and the first and the far cast last night aboard the furniture. None of the irrigation concerns are appropriating water to the full extent of its filings, but the decision have done splendid work in Siberia." into Oregon and the northwest, to be tending their systems. The Pacific so dreadful that it was absolutely used in further development of these enterprises, is already under way and may be expected to continue, he de-ond feet of water for its Power-Dale ond feet of water for its Power-Dale of Russians are now left to their

Now is the time to buy. Buy in Quantities

Once You Try Mazola You Will Never Go Back to Lard or Butter for Cookingor Olive Oil for Dressings

F interest to every wide-awake housewife are these important facts about the general use, the quality and the unusual economy of Mazola.

deep frying. It is far better and a great deal more economical than lard or compounds. Mazola is 100% pure vegetable fat. It contains no moisture. Butter and Lard contain moisture. The same lot of Mazola can be used over and over again-even after frying fish and onions. Merely straining makes it perfectly fresh for use as a shortening. It carries no odors or flavors from the foods cooked in it and does not smoke up your kitchen.

No fat excels Mazola for

The purity and richness of Mazola

Shortening

best demonstrates itself in the fact that 1/4 to 1/4 less Mazola is required than that of butter or lard. This means that your cakes and pie crust will not only be light, rich and easily digested but will cost you less to prepare. Being an oil, the tiresome "creaming-in process" is eliminated. Mazola is always ready for instant use.

Salad Dressings

Thousands of Italians, who certainly know olive oil, use Mazola. Not only because it costs about half that of the best olive oil, but because of its richness, quality and purity.

For French Dressing, Mazola blends readily-and mayonnaise made with Mazola will keep for weeks without separating.

CORN PRODUCTS REFINING COMPANY, 17 Battery Place, New York Selling Representative

> JOHNSON LIEBER CO. Portland, Ore.

One of the most severe comparative tests ever used on a cooking fat gives unqualified FIRST HONORS to Mazola.

Understand the remarkable economy and high quality of Mazola by these figures.

FRENCH FRIED POTATOES

2 lbs. of Mazola 2 lbs. of Lard 2 lbs. of Compound " 111/2 " Note: Mazola goes over three times as far as lard; is twice as economical as compound.

25 lbs. Fish 2 lbs. of Lard Note: Compare the figures yourself. Even with frying fish Mazola does not smoke up your kitchen.

DOUGHNUTS

2 lbs. of Mazola 216 Doughnuts 2 lbs. of Lard 2 lbs. of Compound 168 Note: All doughnuts were the same size. Mazola - made doughnuts are more easily digested.

P. S. Reasons for these remarkable figures are explained in column to the left. Read it.
