OUTLAW SWITCHMEN ARE BEING REPLACED

Union Men Put on Jobs Vacated by Rebels.

SITUATION MUCH BETTER

Railway Oficials in Portland Declare Strike Is Being Broken. Men Now Out Lose Priority.

The switchmen's insurrection against union and company authority is near-ing sundown, so far as Portland is oncerned, according to the observations of local officials on railroad row. Each day sees new recruits brought to the yards and engines re-

turned to active service.

Nine switchmen, or three full crews. were hired by the Southern Pacific company at its Brooklyn yards yesterday, all experienced yardmen who came to the city to take the vacant jobs. They are union men, who assert that they are in no sense "strike-breakers," but that they are taking positions yountarily vacated by rebeis from the union.

While the O.-W. R. & N. company is still maintaining its embargo against the receipt of freight, its Albina yards are having little difficulty in handling the perishable goods and merchandise which must go forward, and are now operating with nine crews. The normal complement of yard crews is 27. Three crews are yet out at The Dalles.

The Spokane, Portland & Seattle company has four engines at work, or precisely half its equipment. It is biring a few men each day, and its officials are of the belief that the end of the present week will see the

Sometimes starvation of the nerves results in neuritis. Sometimes there is a nervous breakdown accompanied by nervous headache and indigestion. When neuritis is the result of weak blood victims of the disease are almost certain to obtain relief by following the treatment which Mr. Henry Ayers, of No. 444 East Second South street. Salt Lake City, Utaf, describes. "I had neuritis pains all over my body," relates Mr. Ayers, "but the pain was worst in my hands. There was a pricking sensation in my arms, as though they were asleep. Often my arms became numb and I had to rub them before there was any circulation in them. I became very nervous and thembled a great deal. I was worried over my condition and became greatly discouraged.
