Striking Miners Massed in City Streets.

POLICE RESERVES CALLED

Volley Fired Over Crowd From Lodging House.

TWO VICTIMS MAY DIE

I. W. W. Pickets Scattered When Firing Begins and Intense Feeling Prevails.

BUTTE, April 21.—Fourteen men, believed to be I. W. W. strike-pickets, and one policeman were in local hospitals suffering from gunshot wounds sustained in a battle on Anaconda road, near the Neversaw mine, at 4:10 o'clock this afternoon. Physicians believe two of the alleged I. W. W. will die.

Police were searching for three other men said to have been wounded seriously. Striking miners are massed in front of the Finland hall and the street in front of the building. Feeling runs high. Police reserves have been called out.

County Attorney Rotering has started an investigation of the clash between mine guards and I. W. W. pickets near the Neversaw mine, but has reached no conclusion as to the cause of the shooting. At his request the police raided the Simon lodging house from which place earlier reports stated the first shots had been fired. The patrolmen found the place partially occupied and not abandoned as was believed and all the occupants declared that no one had fired from the building and that there had been none there during the afternoon except the usual patients.
