LAND OFFERED TO COUNTY

A. S. BENSON PROPOSES GIFT TO END DISPUTE.

SIX ACRES BETWEEN ST. JOHNS ROAD AND FLOURING MILLS SUGGESTED TO BE USED AS PARK.

Six acres of land between the St. Johns road and the property of the Portland Flouring mills, almost on the bank of the Willamette, was offered Multnomah county as a public park by A. S. Benson yesterday by a letter suggesting a settlement of litigation over a right of way.

Though a recent suit of the Portland Gas & Coke company to restrain the county from improving the Greeley street extension to the St. Johns road failed in the circuit court, the legal question as to the county's responsibility for damage by reason of slopes of the gas company's property outside the actual 70-foot right of way has not been settled and the company appears to have the best end of the argument.

Mr. Benson, who has done a great deal to assist the county in securing rights of way for this road, proposes to save the county unnecessary expense, by purchasing the property the gas company claims is damaged for \$8000, provided that the county will settle with the company for \$1000. This \$9000 would be returned to the purchase price of the land, which would cost Mr. Benson \$5000 net.

The commissioners did not decide the gas company's claim is damaged for \$8000, provided that the county will settle with the company for \$1000. This \$9000 would be returned to the purchase price of the land, which would cost Mr. Benson \$5000 net.

Mr. Benson then proposes to donate to the county for park purposes this land purchased from the gas company, approximately six acres.

The commission did not decide the gas company's claim is damaged for \$8000, provided that the county will settle with the company for \$1000. This \$9000 would be returned to the purchase price of the land, which would cost Mr. Benson \$5000 net.

BULK OF CLIP TRIBUTARY

All of the northwestern clip west of Bliss, Idaho, is naturally tributary, said Mr. Mahoney, "to the Portland clip naturally gravitates toward the Portland clip. Its geographical location gives us the bulk of the northwestern clip, say 40,000,000 pounds of wool."

"Roughly speaking, the wool clip of the three northwestern states that will enter in Portland is approximately as follows: Washington, 1,900,000 pounds; Idaho, 20,000,000 pounds; and Oregon, 14,000,000 pounds. Locally we are using—meaning wool mills of this section—about 3,000,000 pounds annually. The possibilities of the wool industry are shown by the fact that the local use of wool has increased to that figure from 2,000,000 pounds in 1915. This wool will be used when the warehouses were established for handling the clip, in 1915."

TRAIN YOUR HAIR AS AN ACTRESS DOES

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cleanser. The majority say that to have the best hair wash and scalp stimulator at a cost of about three cents, one need only get a package of canthox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head. After its use the hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are quickly dissolved and entirely disappear when you rinse the hair. After this your hair will be so fluffy it will look much heavier than it is. Its luster and softness will delight you, while the stimulated scalp gains the health which insures hair growth.—Adv.
