

LEONARD WOOD NOTE SURPRISES CAPITAL

Pershing Failure in Nebraska Puzzles.

NEW JERSEY NEXT FIGHT

Chicago Labor Journal's Editorial Pleases Managers of Major-General.

OREGONIAN NEWS BUREAU, Washington, April 21.—Political observers in Washington found nothing surprising in the outcome of "Cain's" republican primaries in Nebraska yesterday except the fact that Leonard Wood ran second. It had been calculated that Hiram Johnson would lead, as he did, and that General Pershing, on the score of long association with the state, would get second place.

It was found difficult to analyze the democratic outcome in Nebraska. To say that the defeat of the Bryan delegates at large—that is, if final returns bear out their defeat—was a victory for the national administration, cannot be stated as a positive truth. The prohibition issue was raised against Senator Hiram Johnson, whose delegates appear to have been successful, and the senator seems to have acquired his best lead in sections of the state where prohibition is not popular.

Bryan May "Cover" Meeting. Colonel Bryan, before leaving Washington some time ago, applied for a seat in the press section, from which he will report the San Francisco convention for a newspaper syndicate in event of his defeat for delegate. In any event he will have a seat in the convention, but as an accredited newspaper correspondent he cannot participate in the proceedings.

It was said today that he would be assured of a proxy to the convention in case of defeat in his own state and will thereby find the means of getting his views before the gathering. Although the Georgia were anti-administration, the friends of President Wilson found satisfaction in Attorney-General Palmer, who having received a plurality of the votes. The big surprise was the vote polled by Hiram Johnson, whose supporters were understood all along to be going to Senator Smith as the surest way of defeating Palmer, the administrative candidate.

Watson Anti-Wilson. Watson was bitterly anti-Wilson and opposed all of the principal war legislation, going so far as to demand that the postoffice department found it necessary during the war to suppress his publication, "The Jeffersonian."

The delegates on whom returns had been received at a late hour today stood: Palmer, 114; Hiram Johnson, 110. By combining, as it is easy to do under the Georgia law, it will be seen that Smith and Watson can name anti-administration delegates to the national convention, but it was doubted here today that Smith, who is a candidate for re-election to the senate, will care to combine with such elements as Watson represents.

Wood Managers Pleased. Leonard Wood's managers were pleased today at a strong editorial endorsement given their candidate in the "Chicago Unionist," leading labor organ of the middle west. Commenting on General Wood's statement that labor is being attacked from within, the editorial says:

"General Wood, you have put your finger on the pulse of the situation. Labor is menaced by foes from within. You are right in protesting against class legislation. Labor desires no legislation of class. Labor wants justice. Justice to itself. So General Wood, more power to you. Lining up presidential possibilities side by side and considering what each man to offer labor, we find that General Wood's tribute to our cause will be labor's need—justice." The six delegates chosen in Dulles were yesterday were conceded to Wood today by Hiram Johnson's managers.

New Jersey is now the battleground for one of the hardest battles of the campaign, which appears to be a contest between Wood and Johnson. Both sides are claiming the state's delegation, with Wood a favorite in the betting.

PAPER FAME PREDICTED

F. P. GLASS URGES GREATER NEWS PRINT ECONOMY.

Publishers Blamed for Acute Shortage Through Policy of Advertising.

NEW YORK, April 21.—Franklin P. Glass, president of the American Newspaper Publishers' association, gave warning at the annual convention today that newspaper publishers must make further conservation of news print paper if they were not to have a worse time next fall and winter than they had in the last six months. "It cannot be denied," he said, "that the publishers themselves are responsible for yielding to the great demand for paper, and that they had increased this skyrocket auction market by bidding against each other, by willingness to take the volume of advertising offered, no matter how small the margin of profit."

At the luncheon of the bureau of advertising of the association E. T. Meredith, secretary, announced he had made a plea for greater publicity for farmers, saying that a bill introduced to appropriate \$100,000 for the spotlights of publicity turned out to be just as a vicious franchise should have.

The secretary said that many times the farmers are not in a position to get their views fully before the public and could not therefore protect their interests effectively.

BORAH IGNORES FIGHT

SENATOR NOT TO RETURN TO IDAHO FOR CONTEST.

Place as State Delegate Is Made Secondary to Carrying On Johnson Campaign.

OREGONIAN NEWS BUREAU, Washington, April 21.—Friends of Senator Borah said Tuesday that he would not return to Idaho to make a fight in the state convention at Court D'Alene on April 28 for a place as one of the state's delegates-at-large to the republican national convention at Chicago.

Senator Borah left Monday on a speaking tour in behalf of Hiram Johnson that will take him through New Jersey, Ohio and Indiana, continuing for at least ten days.

The Washington Post published a sensational story asserting that the managers of Leonard Wood had given orders to Wood's friends in Idaho to keep Borah off the delegation to the national convention, but inquiry of some of the Wood managers disclosed that they knew so little of the Idaho situation as to absolve them of any such deep plot as was described.

(Continued From First Page.)

Texas, today announced his candidacy for president of the United States on the platform of the American party, which was organized at Fort Worth last August by a faction of the Texas democratic party. Debs, the socialist leader under conviction for alleged conspiracy to obstruct the draft. War, he said, often causes reason to give way to passion and some times intemperate

STUDENTS SAD TO HAVE HELPED REDS

Charge Involves Leading Universities of Nation.

SPECIFIC CASE IS CITED

Letter Read in Congress Shows Radical Society May Have Helped Centralia I. W. W.

OREGONIAN NEWS BUREAU, Washington, April 21.—That some of the defense funds in behalf of the I. W. W. charged with the Armistice day murders at Centralia, Wash., was raised among radical students in leading universities of the country, is strongly hinted in a letter read to the house by Representative Summers of Washington.

In his fight to have teachers of disloyalty ousted from the District of Columbia schools, Representative Summers said there was evidence "the seeds of disloyalty are being sown in our free public schools and further cultivated in our colleges and universities."

The letter presented to the house by Mr. Summers was from a student of a New York university who complained that there was a failure to teach Americanism in the school while the agitator was permitted to work with a free hand. After going into other details of the campaign of radicalism carried on in his university, he wrote:

"Recently there was issued to college boys who are members of the intercollegiate socialist society, invitations to attend a civic club meeting on April 15 in New York city. Following this was a brazen line beginning. A round-up of the free for the benefit of the bound, and even worse, by Red Doran. You will recall that this person has connections with the I. W. W. and has been indicted about three times, being now on bail. To continue: Under this was a line to the effect that Red Doran would conduct a Dutch auction. This is enigmatical, but it was not meant in levity. It closed with an appeal to those who were coming to bring money, the proceeds of which would be split up between the Centralia and the intercollegiate society. This is an effort to free indicted I. W. W. I do not know how many have contemplated accepting the invitations, but this I think may be implicitly assumed that all college members of this society received a request to attend."
