A WORLD REBUILT By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life? Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations.

On these great essentials must we build a better America, and a better world. And every one of them rests on the foundations of the Christian Church. Thirty denominations of that Church are uniting now in a simultaneous campaign.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste. They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including

the Church's part in the huge task of Americanization. (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The appeal is to every lover of America, to you whether you are inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are laid true; the measuring rod by which the builders build must be the Golden Rule.

Give when the call comes to you—give with your heart as well as your pocket-book. United Financial Campaign April 25th to May 2nd
