

DIRECTED VERDICT DENIED SORLIE

Case to Go to Jury on Membership in I. W. W.

VANDERVEER LOSES PLEA

Radical Attorney Suggests "Teaching Up Constitution" if Motion Is Refused by Court.

"If this motion for a directed verdict is denied, we might as well tear up the constitution," asserted George F. Vanderveer, attorney for Lawrence Sorlie, I. W. W., on trial in the circuit court, at the conclusion of his argument on the motion yesterday afternoon.

"We certainly do not intend to tear up the constitution, Mr. Vanderveer, and the motion is denied," was the reply of Circuit Judge Morrow.

Judge Morrow held that there was sufficient evidence to submit the case to the jury on the question of membership in the I. W. W., but not on the question of assembling with the organization or helping to organize the I. W. W.

Three Allegations Made.

These are the three allegations of the indictment under the criminal syndicalism act of Oregon, any one of which, being proved, is sufficient for conviction under the law, provided the jury is convinced that the I. W. W. advocate violence in the overthrow of industry and government.

The prosecution made no attempt to prove that Sorlie helped to organize the society as he was not listed on membership rolls as an organizer.

Deputy District Attorneys Bernard and Hammons rested the case for the prosecution shortly before noon. Argument on the motion for directed verdict consumed most of the afternoon.

Shortly before adjournment for the day Ralph S. Pierce, I. W. W. attorney of Seattle and an understudy of Vanderveer, was placed on the witness stand to testify to the circulation of I. W. W. literature. He held that no literature advocating sabotage was distributed by the I. W. W. in Washington since 1917.

No night session of court was held last night but Judge Morrow asserted it might be necessary to continue court into the evening tonight.

I. W. W. literature has been the chief evidence of the prosecution. Two of the main witnesses for the state were William J. Wash and William Schupp, ex-I. W. W., who voluntarily quit the organization after the Centrals slaying on Armistice day, 1918. They testified as to aims of the organization and to literature circulated by it.

RABBI WISE WILL TALK

Address to Be Made at University of Oregon Assembly.

UNIVERSITY OF OREGON, Eugene, April 27.—(Special).—Rabbi Joseph E. Wise of the Temple Beth Israel of Portland will address the university assembly Thursday morning. Rabbi Wise is a member of the state board of higher curricula, having in charge the courses given in the higher educational institutions of the state. He has a wide reputation as a speaker.

Rabbi Wise was the speaker of the day at the Pledge day exercises at the university two years ago. His topic is expected to be along educational lines.

UNION SCHOOL IS SOUGHT

Petitions Circulated in Eight Districts Including Florence.

EUGENE, Or., April 27.—(Special).—The prospects for a union high school at Florence, are bright, according to E. J. Moore, county school superintendent, who attended a teachers' institute there Saturday. He says that petitions for such a school are in circulation in eight different districts and, if the measure carries, these districts each will support the school.

At the present time there are 23 students in the Florence high school, but only six of these are residents of that district.

CASTORIA

For Infants and Children In Use For Over 30 Years

Always bears the signature of Dr. J. C. Hitchcock

NAME "BAYER" ON GENUINE ASPIRIN

For Pain, Colds, Headache, Toothache, Neuralgia, Lumbago, Rheumatism

You want relief—quickly and safely! Then insist on "Bayer Tablets of Aspirin," stamped with the "Bayer Cross."

The name "Bayer" means you are getting genuine Aspirin prescribed by physicians for over eighteen years, and proved safe by millions of people.

For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocrotonic acid ester of Salicylic acid.—Adv.

ENDEAVOR MEETING ENDS

Successful Convention Held at Springfield—Officers Elected.

EUGENE, Or., April 27.—(Special).—Clifford Jope of Eugene was re-elected president of the Lane County Christian Endeavor union, which closed a successful convention at

MORNING DICTIONARY

Bebe Daniels and Thomas Meighan, in the spectacular, lavish, anti-divorce photoplay, "Why Change Your Wife?" showing at the Columbia theater.

TODAY'S FILM FEATURES.

Rivoli—Samuel Merwin's "The House of Wax." Rex Beach's "The Silver Horde." Peoples—D. W. Griffith's "Scarlet Days." Liberty—Mark Twain's "Huckleberry Finn." Columbia—Thomas Meighan and Gloria Swanson, "Why Change Your Wife?" Star—Margarita Fisher, "The Hellion." Circle—Catherine Calvert, "Out of the Night." Globe—Curtis Griffith, in "The Bramble Bush."

COURAGEOUS, indeed, would be

the woman who, conscious of her nagging habit, will this week suggest to friend husband a trip to the Columbia. Undoubtedly she would enjoy vastly better Mark Twain's story at the Liberty.

"Why Change Your Wife?" the present Columbia picture, should prove a great liberator and godsend to the men of Portland and their brothers in other cities where the cinema also shows. It is a great sermon against wifely interference in such matters as smoking too much, spending money for personal pleasure while Europe starts bringing pet dogs into the house and the thousand and one other things which the average husband enjoys or fails to enjoy because of his spouse's displeasure.

Encouragement to milliners and designers in making even more fascinating works of art, at even more staggering prices is also given. Perhaps it is an even break between the men and the women as to who has gotten off the more easily at the close of the satirical, rather true to life and intensely interesting photoplay.

Thomas Meighan, who will always be remembered as Tom Burke by those who saw him in "The Miracle Man," has the role of the husband whose intentions were good, but who had a falling for jazz, for a week drop now and then and who even liked the Polite. Gloria Swanson, who appeared with Meighan in "Male and Female," appears in this production first as a woman who not only enjoys classical music, but who invites temperamental musicians to their home so that her husband may also improve his mind. Bebe Daniels makes an ideal vamp, who teaches the husband to appreciate some of the things he could not formerly see in the wife who made herself only conspicuous by constant fault finding. "Ready, for your own good, you know, dear," is lavish settings and ultra fashionable gowns and interior scenes characterize the entire production.

Screen Gossp.

One thousand kiddies will be guests at a children's matinee at the Liberty theater at 2 o'clock today. The principle that it is better to give than receive, Master von Claud Jensen, only son of C. C. Jensen, senior member of the firm of Jensen & Von Herberg, will celebrate the first anniversary of his birthday by entertaining Portland youngsters who have no fathers or mothers able to give them birthday parties. All Portland is uniting in making the party a success. The Portland Drama League under the direction of Miss Jean Wold will produce a 15-minute playlet, "Just Between Ourselves." Meler & Frank sent over some wonderful Wedgwood china, to be used as part of the program for this number on the program. Sixty automobiles owned and driven by members of the Portland Ad club, Knights of Columbus and the Rotary club, under the leadership of W. D. Varney, appointed by President Strong of the Ad club, will call for the kiddies and their escorts and take them to and from the party. Master von Claud will preside. Charlie Chaplin's First National release, "A Dog's Life," a nature picture and a cartoon will complete the program.

DESCAMPS WORTH \$70,126

Ernest Descamps, whose mysterious disappearance from this city on February 5, coupled with the subsequent finding of parts of a mutilated human body having a general resemblance to the missing man, led to a murder theory, left an estate in Portland valued at \$70,126.49, according to the inventory filed in the probate division of the circuit court yesterday.

Fred W. German, Ralph W. Hoyt and William Ballis were the appraisers. Hector Moulton is administrator. In the estate in stock in the Consolidated Investment company, the value of \$39,201.70; 24.9 shares in the Belle Rose investment company, which represent one-half interest in the Camar apartments, 704 Lovejoy street, and a private stock of 109 bottles of French liquor, on which no valuation is set by the appraisers.

Though a reward of \$1000 has been standing for months for information concerning the whereabouts of Mr. Descamps, nothing has ever been learned. Parts of a body were found February 10 near Kenton, but nothing by which positive identification could be made, only the torso and hacked pieces of limbs being discovered.

BONDS FIND NO BIDDERS

Fixe Per Cent Interest Fails to Attract Any Buyers.

BOISE, Idaho, April 27.—(Special).—Because the state did not receive bids for \$2,000 worth of bonds for improvements at Lava Hot Springs in Bannock county, the necessary money to make them cannot be secured. The last legislature authorized the issuance of the bonds. State Treasurer Eastman advertised them, but this week when bids were to be in there were no bidders nor bids.

It is because the bonds carry but 5 per cent interest that buyers were not keen to handle them.

FALLEN TREES TO BE SOLD

Pelican Bay Lumber Company Bids on Timber Hit by Storm.

MEDFORD, Or., April 27.—(Special).—Hugh B. Rankin, supervisor of trapper national park, left today for Klamath Falls and Pelican bay to investigate the proposed sale of 2,000 feet of fine lumber, which was blown over in the upper Klamath lake section by the big storm there of April 2 and lies piled six feet high on both sides of the county road.

The Pelican Bay Lumber company and others are bidders for this government timber.

LEWIS SEES DARKHORSE

HUGHES OR KELLOGG EXPECTED TO WIN NOMINATION.

Illinois Senator Is at Washington to Delve Into Outcome of Presidential Campaign.

OREGONIAN NEWS BUREAU, Washington, April 27.—(Special).—Former United States Senator "Jim Ham" Lewis of Illinois, who never forgets to mention that he started his political career in the northwest as a member of congress from Washington state, arriving here today, busied himself with delving into the outcome of the present national campaign. His own ambitions in the fall end of the national democratic ticket this year dropped out at several points in his prophesies and it was agreed that he made out a good case for himself, but that will be told later.

"The republicans," he said, his pink whiskers, except for color, giving the effect of a strutting peacock, "will nominate either Charles E. Hughes of New York, or Senator Frank B. Kellogg of Minnesota. A dark horse will be nominated and Hughes occupies a strategic advantage because he stands well before the country and with all elements of his party. He enjoys the confidence of the business man and is popular with labor because of his active opposition to unseating the socialist members of the New York legislature."

"He is trusted by labor as indicated by his recent retention by the mine workers officials to defend them in the government prosecutions. But if the republican convention is still looking for a still darker horse, Frank Kellogg will be the next choice."

"Now as to the democratic nomination," said James Hamilton, with

a twinkle of his eye, as he smoothed a recalcitrant bristle back into its rightful position, to give a clear vista to an unexplored dimple at the point of his chin, "that is a different matter."

"The democrats must be exceedingly particular in picking a ticket and there is no doubt that an eastern and a western man would make the logical team. Preferably the democratic candidate for vice-president should come from Illinois. McAdoo and Lewis, for example, would sound good," and then, with a graceful gesture, he volunteered this additional information: "The matter has already been suggested to McAdoo and he agreed that such a ticket would induce harmony and broad appeal inasmuch as he uses a razor and I do not."

appropriate water from an unnamed spring for domestic purposes. The Leland Lumber company seeks to appropriate water from Brimstone gulch for a log pond.

Eugene F. Morrison of Williams asks appropriate water from the east fork of Williams creek for the irrigation of 20 acres in Josephine county.

E. F. Finley of Kerby would appropriate water from Second gulch for the irrigation of 40 acres in Josephine county.

TUBER SUPPLY DWINDLES

But Two Carloads Potatoes Said to Remain Near Hood River.

HOOD RIVER, Or., April 27.—(Special).—I. T. Beal, one of the chief potato growers of the upper Hood River valley and who was here yesterday on business, says that but two cars of tubers remain in the district. These are owned by Timothy Newell. Sales of potatoes last week, E. O. B. Parkdale, Mr. Beal reports, were made for \$750 a hundred.

While the holdings of grocers are limited, the high price has curtailed purchases and the supply probably will last until the new crop is on the market.

Stiff Joints Sore Muscles

Limber Up Quickly Under the Soothing, Penetrating Application of Hamlin's Wizard Oil

In cases of rheumatism and lame back it penetrates quickly, drives out soreness, and limbers up stiff, aching joints and muscles.

Wizard Oil is an absolutely reliable, antiseptic application for cuts, burns, bites, and stings. Sprains and bruises heal readily under its soothing, penetrating qualities.

Get it from druggists for 30 cents. Ever constipated or have sick headache? Just try Wizard Liver Whip, pleasant little pink pills, 30 cents. Guaranteed.

How to Have Red Lips!

The girl with red lips and pink cheeks may be thankful for both delicate health—vigorous, forceful, magnetic health, and a healthy red color possible for some to attain owing to a lack of red blood corpuscles. The majority of seemingly healthy young women and men are almost colorless, because of lack of red blood corpuscles. When the blood is improved and enriched with and Pelican bay to investigate the proposed sale of 2,000 feet of fine lumber, which was blown over in the upper Klamath lake section by the big storm there of April 2 and lies piled six feet high on both sides of the county road.

WALTHAM

THE WORLD'S WATCH OVER TIME

There is a beautiful Booklet for you—telling how the Waltham Watch is made. Write for it today to the Waltham Watch Company, Waltham, Mass.

Facts Every American Should Know

THE war is over. We did what we set out to do. But victory left some things to be accounted for. And this is one of them.

The Government said to the Waltham Watch Company: "We need your skill and creative genius in this national enterprise." Waltham came to attention, saluted, and went to work.

Let us imagine for a moment what happened. Here were over five thousand people, and a great organization suddenly turned aside from supplying the normal demand for Waltham products to the abnormal demands of war and its accessories.

What this entailed cannot be told here, but the genius of Waltham is American genius and deeds speak louder than words.

AMERICAN ships and the large accretions to our glorious navy could not go to sea without accurate, delicately adjusted chronometers—and they were supplied by Waltham.

American aeroplanes could not climb into the skies without clocks that would withstand the vibrations of powerful motors and abnormal extremes of temperature—demanding the most exact horological adjustments—and they were supplied by Waltham.

American motor transports and automobiles required speedometers and sturdy shock and stress resisting timepieces—and they were supplied by Waltham.

Our beloved soldiers, who fought and died for us, needed watches, and thousands of Walthams went into battle and kept record of Time that shall ever be memorial.

Indeed, "Waltham" in Paris supplied service "behind the lines" for repairs, etc., and was officially recognized as Watch headquarters for the A. E. F.

And this is not all—

SOMEWHERE in the United States Uncle Sam approves the gifts that his sons of genius create for the glory of his name.

It is night. A few hooded and powerful electric lights search the darkness to reveal a huge gun, around which are gathered a few men who serve this giant of strength.

A sharp word of command! A flame of fire! A concussion that rocks the earth! The roar of a shell! A few tense, numbered seconds! Then, out there on the far horizon, a burst of fire miles away—an explosion timed to infinitesimal moments by Waltham.

This, the triumph of Waltham genius—a time-fuse that splits a second into a hundred parts—that far exceeds in instantaneous accuracy all other time-fuses hitherto invented—that sends each shell to its destination governed by Waltham's inventive genius hidden in the apex of the shell.

Imagine this device, light enough and of such delicate accuracy to explode the charge at a hundredth of a second, fired in a shell with a velocity of 2,700 feet per second, and leaving the gun's rifled barrel at 25,000 revolutions per minute.

Talk of "position" time-keeping—here is a whirling of motion—a "position" test that subdues competitive argument. And imagine a timepiece strong and durable enough to endure a blow, a strain, a stress of two pounds to each grain of its weight. A terrific reaction for the honor of America when the gun is fired.

NEVER in the world's history has there been such miraculous time-keeping, such performance, such absolute reliability under such abnormal conditions. As Americans, we have a right to be proud of Waltham genius.

But if it had not been for nearly three-quarters of a century filled with work behind the Waltham time-fuse, it would not have been years in front of all others. Pre-eminence is its own reward.

Years of concentrated development on an infinitesimal unit—oftimes out of sight in the works of the watch—have added renown to the name of Waltham.

The Waltham Watch, upon whose universal time-keeping the sun never sets, is but an older brother of this marvelous time-keeper in the shell.

WE have told you these facts because they supply some reasons why Waltham Watches are not plentiful. We are concentrating every resource of our organization to meet a national demand which is a tribute to Waltham excellence.

We know that if your dealer cannot supply you immediately with your choice of a Waltham Watch he will be able to supply you before long. And a Waltham Watch is worth waiting for. Grade for grade no foreign watch can compare with it.

WE have made many statements of Waltham invention in the mechanics of watchmaking—we have opened the door of the "works" in a Waltham Watch and created American pride in this Waltham masterpiece. We have claimed world leadership in watchmaking. "Here are the proofs" has been our challenge and our pride.

Proofs we have given and still more proofs we intend to give: science at its utmost in the alloy of a metal, in the polishing of a part, in the setting of a jewel, in the hardening and tempering of steel, in the design of a balance staff, in the bend of a guard pin or the structural curve of a spring—little things, hidden things.

Yet it is these scientific inventions, developments—call them what you will—that have carried the fame of Waltham unto the uttermost ends of the earth.

You protect your investment. You are assured time-keeping dependability. You forestall costly repairs. You own the utmost in fine watch-making when you buy a
