

### PAUL MARIS NAMED COLLEGE DIRECTOR

Place of O. D. Center in Extension to Be Filled.

### OREGON IS WELL KNOWN

State Leader County Agriculturalists Born and Reared in State—Experience, Too, of Value.

OREGON AGRICULTURAL COLLEGE, Corvallis, April 29.—(Special.)—Paul V. Maris, state leader county agriculturalist, has been appointed director of the Oregon Agricultural college extension service to fill the place made vacant by the resignation last October of O. D. Center, who became director of extension for McLean county, Illinois, at an increase in salary of \$1400.

Mr. Maris knows the state of Oregon thoroughly. He was born and raised in Oregon, and by reason of his experience is thought to be the best man for the place. His early years were spent on a stock ranch in Moro

Paul V. Maris, appointed director of extension service, Oregon Agricultural college.

county, near Heppner, well known for its prize-winning Shorthorn cattle. He was graduated from Pacific college, Newberg, and took agricultural work in the universities of Wisconsin and Missouri, having been graduated from the latter in 1914.

**Aid Given Farmers.**  
Since 1916 when Mr. Maris was made state leader of county agriculturalists, farm bureau work is credited with having done much toward putting farming in Oregon on a strictly business basis. The work, in fact, has paid for itself many times over, in the opinion of farmers who have been free in their praise of the results accomplished.

Thirty-two hundred farmers attended extension schools conducted in 12 counties in 1919 alone, while 1640 farmers joined in automobile excursions to see demonstrations and investigate promising projects. Hundreds of farm account books were placed, farmers' exchanges were organized, nearly 1000 laborers were furnished and assistance given in numerous other ways.

**Forces United in Hope.**  
"Unite all the forces of the agricultural college and United States department of agriculture, operating through the extension service, for the most rapid development of agriculture and rural life in Oregon, will be my object," said Mr. Maris. "We are fortunate in being united, through the several county farm bureaus of the state, with the best element of our agricultural population and are just beginning to realize the potential possibilities that lie in this union of farm people and state and federal agencies."

"Interest of farm people is now centered in the development of a more efficient system of marketing farm produce and in adopting the most approved cultural practices."

### MASH OWNER ARRESTED

Rancher Near Ashland Is Bound Over on Liquor Charge.

MEDFORD, Or., April 29.—(Special.)—David A. Snyder, a rancher near Ashland, was arraigned before P. Roy Davis, United States commissioner, today on the charge of having intoxicated liquor without a permit and was bound over to the grand jury under \$500 bail. He was arrested by Det. C. Smith and a band of Portland, special federal prohibition enforcement agents, who declared they found 45 gallons of second apple mash on the farm. The agents found no still.

Snyder and his wife declared that the mash had been intended for vinegar. They charged the agents with a domineering and insulting attitude.

### \$2,000,000 PASSED OUT

Fruit Growers Cut Melon of \$225,000 and Will Get More.

HOOD RIVER, Or., April 29.—(Special.)—The Apple Growers' association this week is making a distribution of \$225,000 on the 1919 apple crop, bringing the total funds distributed to date to growers to \$2,000,000. The latest distribution totals \$40 to 10 cents a box on Spitzenbergs, Arkansas Blacks, Red Cheeks and Orleys, and 10 cents a box on Newtowns. No advance was made on Ben Davis, the only other variety on which pools have not been closed.

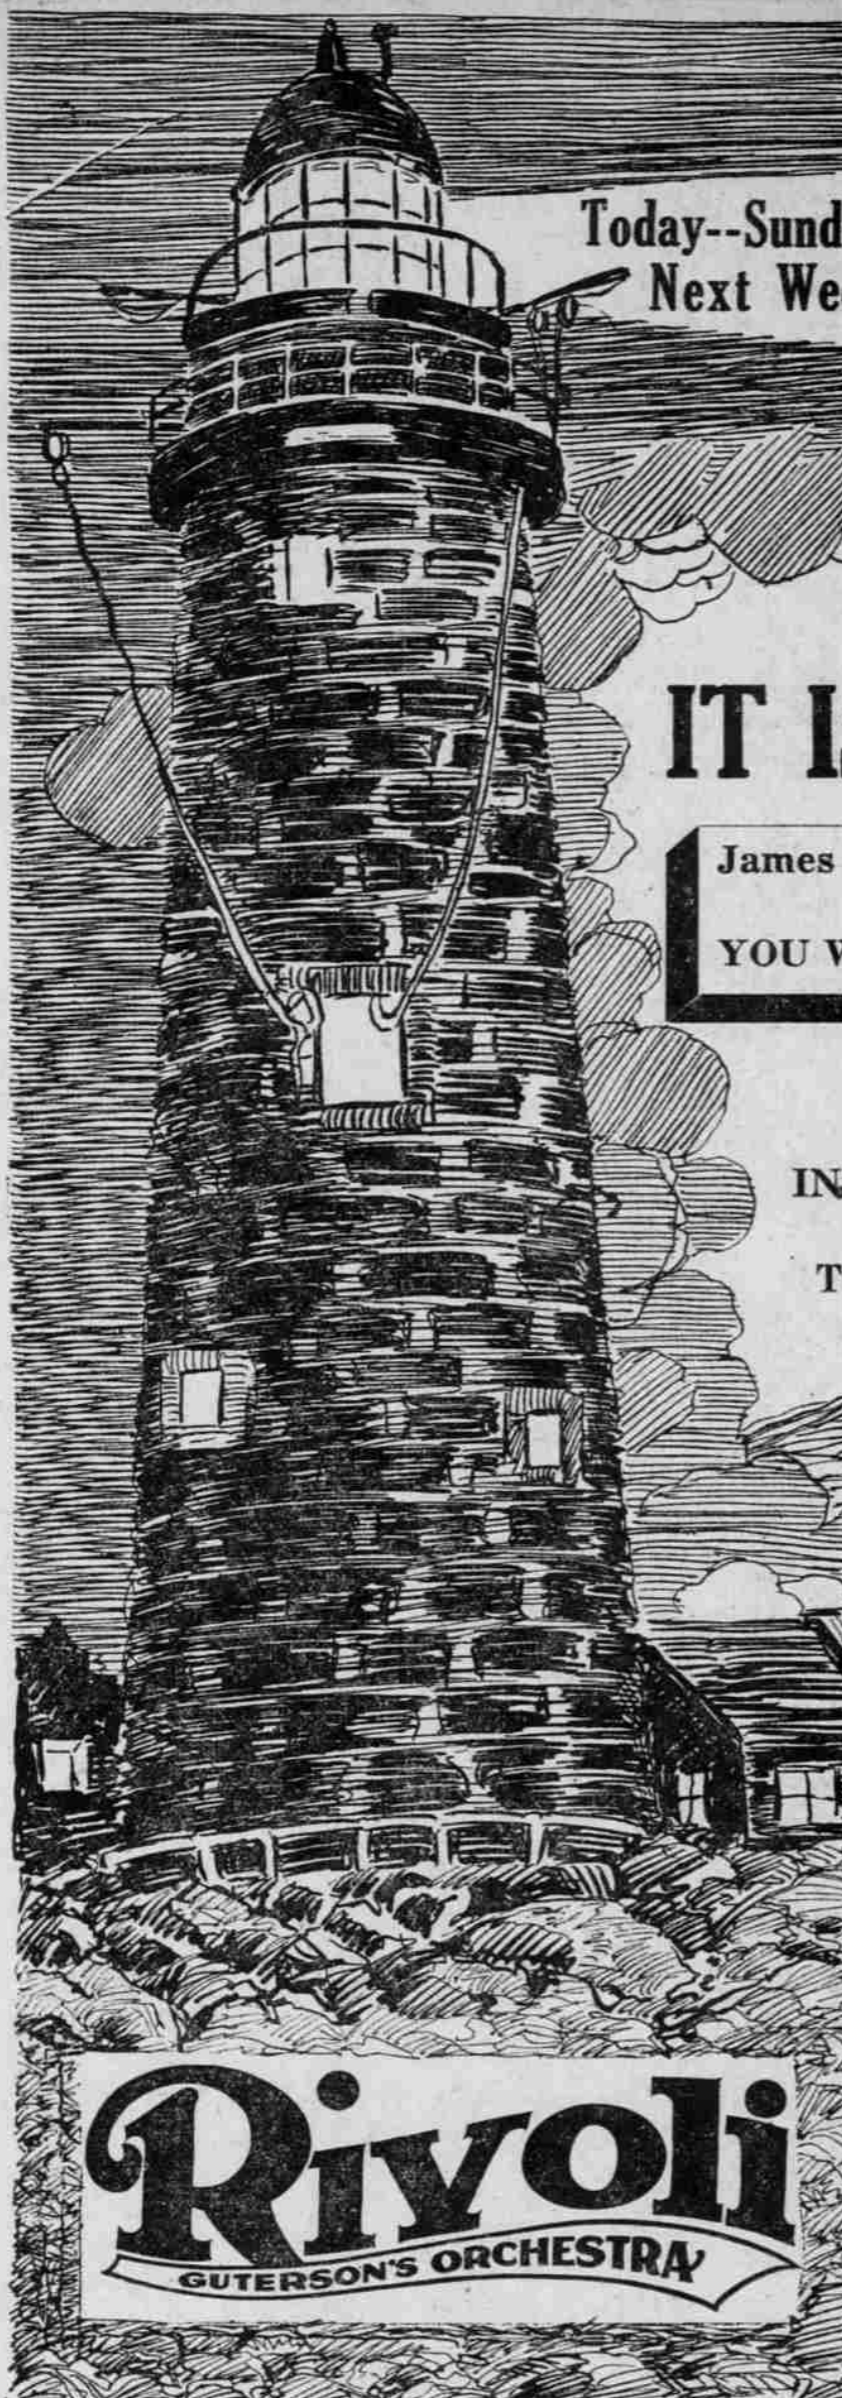

The association has remaining for another distribution about \$350,000.

**Silk Transported Quickly.**

SEATTLE, Wash., April 29.—What is regarded as one of the remarkable transportation feats of the year was completed with the arrival in New York and Bedford, Mass., Thursday, of nine carloads of raw silk, valued at \$2,000,000, five and one-half days after they were rushed out of Seattle, according to telegraphic advices received here today.

**General Pershing at Panama.**

PANAMA, April 29.—General John J. Pershing arrived here yesterday to make an inspection of the military forces in the canal zone.

### MEDAL AND HUSBAND WON

CARNEGIE AWARD THOUGHT DUE YOUNG HEROINE.

Man Braves Lake in Storm but Girl Pulls Him Out When He Is Exhausted.

BALTIMORE, Md., April 29.—(Special.)—Because she saved a man's life at the risk of losing her own, a pretty little college senior, it is reported, will receive a Carnegie hero medal when the awards are made in a day or so.

It was almost four years ago when Mrs. Fitch King, then Miss Hilda Clark of Boston, attended a house party of a number of Oberlin college students at Ruggles Beach on Lake Erie. One cold, windy afternoon one of their number decided to brave the seas in spite of the high, stormy waves.

After swimming the distance of 500 yards or so, his strength gave out. It was some time before his comrades on the beach noticed his predicament, but Miss Clark, without thinking of the danger, jumped into the water and saved King.

The man was in a hopeless condition. His lungs were filled with water and it was thought for a while that he would not recover. But he did, and he is now his little heroine's husband.

While the rescue took place in 1916, the medal is not being awarded until this year for the simple reason that during the war the Carnegie institution did not have the time to make necessary investigations. Of the 35 people whose names were submitted, only ten will be honored with medals, and Mrs. King is one of the ten.

**Burglary Charge Faced.**

### LUMBER INDUSTRY ACTIVE

62,000,000 FEET FOR EXPORT ORDERED IN SIX WEEKS.

Much Business Done With Australia and Orient but Scattering Cargoes Sent All Over Globe.

Export business continues an important factor in the lumber industry of western Oregon and western Washington, according to the weekly report of the West Coast Lumbermen's association. At 125 representative mills export orders for the week ended April 24 were 15,106,920 feet, while the previous week they were 15,458,900 feet. In the last six weeks the export orders have aggregated 62,000,000 feet.

Much of this business goes to Australia and the orient, some to South America and some to England, with scattering cargoes to nearly all parts of the globe. These 125 mills now have a total of 76,298,000 feet of export orders on their books. The report continues:

"The aggregate of all new business accepted by these mills within the week was 71,273,524 feet, of which 47,610,000, or 1537 cars, were booked to move by rail. At the same time they shipped 1712 cars, leaving 10,981 cars, or 202,420,000 feet of unfilled rail orders on their books. The unfilled business, both rail and water shipments, is equivalent to 436,405,000 feet."

"The industry is running on a high production basis. Total cut at the 125 mills for the week was \$7,081,927 feet, which was 3,919,073 feet, or 1.31 per cent below normal. The monthly stock report of the association shows that stocks at some mills are below normal and that the industry as a whole is slightly short of stocks. Analysis of car distribution for the month of March shows that rail shipments from Oregon and Washington went into nearly every state in the union."

### Butter-Krust BREAD

"Not a Sandwich Left"

"But I might have known it, because I used Butter-Krust to make them."

This new bread makes wonderfully appetizing toast or sandwiches. It is the standard by which all other breads are judged.

We couldn't improve the ingredients—we already used the best there were.

But we did perfect a new mixing process which enables us to turn out a loaf that is beyond question the best ever baked.

Your own trial will prove this. At the good grocers. Ask to see this label.
